INVITATION TO THE MEETING OF ACADEMIC SENATE

The meeting of Academic Senate of the 3rd FM CU will be held on January 12th, 2010 at 14:30 in the conference room of the Dean’s office.

Jana Jeníčková

LOSSES AND FINDINGS – 2ND REQUISITION

Some forgotten clothing objects belongs to the students have been found at the area of 3rd Faculty of Medicine. We had no reply for the previous announcement.

If you are missing something, please contact the secretary of the Academic Senate of the 3rd FM CU by e-mail or by phone and give the details of the missing objects. Upon the agreement those objects will be returned.

The objects will be given to charity if nobody is interested in it by the end of January 2010.

Please, contact the secretary of the AS 3rd FM CU: Mrs. Jana Jeníčková
Phone: 267 102 227
E-mail: jana.jenickova@lf3.cuni.cz

JORDAN — ADDITIONAL COMPETITION FOR ACADEMIC YEAR 2010/2011

The scholarships for students of bachelor, master and doctoral degree of all study programmes at the newly negotiated bilateral agreement

Ministry of Education CR informed about the Programme of Cooperation in the field of education, science, youth and sports between the Government of the Czech Republic and the Government of the Hashemite Kingdom of Jordan for the years 2009-2011.

The offer of the scholarships in Jordan on the basis of Article 9 of the bilateral agreements:
- 2 scholarships for students of bachelor’ s and master’ s programme in a maximum of 10 months, each of the above scholarships will be devided into several study visits in minimum length of 2 months.

Important notice:
The mandatory knowledge of Arabic language is expected for all applicants

The applicants will deliver the following documents to Friday 26th February, 2010 to the seat of Academic Information Agency (Center for International Services Ministry of Education, AIA, Na Poříčí 1035/4, 110 00 Praha 1)

1. proposal to send/request for getting the scholarship(www.dzs.cz/aia-formular)
2. letter of motivation (in Czech and Arabic)
3. CV (in Czech and Arabic)
4. project of study or research project (in Czech and Arabic)
5. copy of the certification of qualification (with translation into Arabic)
6. official transcript of study subjects (with translation into Arabic)

The candidates will be informed immediately if the Jordan side will require additional documents.
The article comments:

**The interesting contribution to the debate: Author: Sandaria, the 3rd FM**

I am studying the third year and I must say that it is difficult to say at which point in the ranking our university should be comprehensive study is great thing, unfortunately in the hands of rigid academic circle as an barrier to the problems and obstacles which totally discourage the students!: (who is not going to worry about it, what style „sneak” in, has won. Who studies seriously, can have big problems how to deal with the difference between „had expected“ and how do it „to survive“ in the crowd. For me, the most important think is that the faculty is quite small and the personal approach sometimes helps compensate for what is lagging elsewhere.

**CSI INFORMATION**

**The remote access into Scopus and Science Direct full working from 1.1.2010**

The remote access into database Scopus and into full text journal Science Direct is available from 1.1.2010. We would like to apologize for the malfunctioning in the autumn’s months. The problem was caused by the publisher Elsevier.

*PhDr. Martina Hábová, CSI*
NEWLY ANNOUNCED OPTIONAL SUBJECT FOR ACADEMIC YEAR 2009/2010

1) Name of the subject: The Structure of Scientific Revolutions. Introduction to the philosophy of science.

2) Name, work-place, e-mail, phone of organizer:
MUDr. Jan Trnka, PhD. MPhil.
3. LF UK, Ruska 87
jan.trnka@lf3.cuni.cz - tel.: +420 26710 2410

3) Number of participants: 20

4) Designed for section of study - year: all

5) Designed for semester – One semester subject: Summer

6) Number of hours per semester: 15

7) Number of hours per day: 2

8) Day of the course: Tuesday at 16.00

9) Venue of the course: Third Faculty of Medicine, No. 525

10) Conditions for credit: Short essay

11) Syllabus of the course:
The course will be conducted in English and the final written work may be in Czech or English.

In the last few centuries science has become one of the most important branches of human activity. Science has mostly supplanted myth and religion as the source of reliable truths about the world and the 20th century witnessed scientific expertise penetrate into politics and even entertainment. Current controversies around climate change or embryonic stem cell research are good examples of how science affects many areas of our lives.

In this course we will read through the landmark essay by T.S. Kuhn “Structure of Scientific Revolutions” (University of Chicago Press, 1962) which itself led to a revolution in the history and philosophy of science. You will be expected to read a portion of the book assigned for each session (about 20 pages per week, copies available in the library), which will then be summarised by one of you and analysed and discussed by everybody.

The following questions are likely to be raised: What is and isn’t science? How does/did science develop? How do scientists decide to abandon a theory? What is more important: observations (data) or theories? What is a scientific paradigm? Does Earth really orbit around the Sun? Did Einstein improve on Newton? Why is it meaningless to ask who discovered oxygen?

Half-way through the course you will be assigned a topic on which you will write a short essay (in English or Czech) to be submitted before the end. These essays will be marked and discussed at the last session.

The aim of the course is to put all the scientific “facts” and methods taught to medical students into a historical and philosophical perspective. A secondary aim is to provide an opportunity for Czech- and English-curriculum students to work together.

The students who will attend this optional course will register at Study Division first.

Doc. MUDr. Hana Provazníková
guarantor of Module II D
AN OFFER FROM THE CU CHANCELLOR’S OFFICE

For students:
An offer from University St. Allen in Switzerland for the students of Charles University to participate at the 40th St. Allen Symposium, on May 6th-7th, 2010. The offer is published on: http://www.stgallen-symposium.org
The interested students of all branch of study may participate in the competition „St. Allen Wings of Excellence Award“ on the theme „Entrepreneurs – Agents of Change“ by sending an essay or a multimedia presentation. Deadline: 1.2.2010. The international jury will select the 100 best works and invite the selected students to participate in the symposium. The selected works will be also financially measured.
The event info is published with other Abroad news (under the Czech news) on: http://www.cuni.cz/UK-1472.html

COPENHAGEN KØBENHAVEN

2010

BOOKINGS OPEN NOW

The next meeting of the European Academy of Optometry and Optics will be held 15-16 May 2010 in Copenhagen, Denmark.
The event will offer a wide range of learning opportunities including lectures, poster presentations, round-table discussion groups for academy members and hands-on workshops which will support the development of practical skills.
The event will also feature two keynote presentations:

- Professor Bernard Gilmartin (Aston University, UK) will examine Myopia: prevalence, parameters and prevention.
- Barbara Ryan (Cardiff University, UK) will focus on the advantages and benefits of postgraduate education.

Ticket prices range from €250 for non-Academy members to €200 for Academy members. Student places are also available for those in full-time study with universities who are currently members of the Academy.

The European Academy 2010 Copenhagen will appeal to delegates with a diverse range of clinical, research and educational interests. The full programme will be announced early in 2010.

For further information, please visit www.eaoo.info/copenhagen or contact Jane Kielb, Academy Manager at info@eaoo.info or telephone +44 (0) 20 7766 4345.

Růžena Hrušková,
Division of International Affairs
HAITI – MEDICINE WITHOUT BORDERS

MUDr. Kateřina Kostrbová was leaving on January 22nd, 2010 with the group of doctors - „Medicine without Borders“ on mission to Haiti where she will be acting as a surgeon in dealing with health disabled persons and also as an obstetrician. On behalf of the management of the Third Faculty of Medicine we would like to pronounce to MUDr. Kateřina Kostrbová great admiration and respect for this activity.

Doc. MUDr. Bohuslav Svoboda, CSc.
Dean of the Third Faculty of Medicine

DEAN’S ORDER NO. 39/2009 – ACCESSING TO ELECTRONIC DATABASE OF DISSERTATIONS

The measure relates to the obligation of delivering and publishing the complete Bachelor’s thesis, Dissertation and Rigorosum thesis in the electronic version, including reports:

a) graduates or students with the date of defence from 1.1.2006 to 28.2.2010
b) students with the date of defence after 28.2.2010

The full text of the Dean’s order is available at: http://www.cuni.cz/UK-3361.html

a) Information for graduates and students with defence from 1.1.2006 to 28.2.2010
   – valid to all branch of study and also for department’s guarantors

Students and graduates who are mentioned under item a) deliver their complete thesis in one pdf + report (preferably by e-mail) to the Head of CSI PhDr. Martině Hábové (svi@if3.cuni.cz) no later than 23.2.2010, she will enter to the digital repository of thesis CU – Digitool for them.

The list of delivered and not delivered electronic versions (according the branch of study) is published on web pages of 3FM –main page- News (Aktuality) - http://www.if3.cuni.cz/cs/journal/aktuality/hlavni/2010-dipl.html.

The department’s guarantors who already have the electronic versions by themselves but were not forwarded to CSI, I would like to ask for the fastest delivery. Preparation and storage of the documents is time-consuming and labour-intensive, so I would like to have chance before the access will be closed (28.2.2010).

b) Information for students with defence after 28.2.2010
   – valid for all branch of study and also for department’s guarantors

From March 1st.2010 the depositing of documents will be solve another way. Students will deposit their thesis and reports themselves before the defense. The instructions will be sent from Rector’s office to the Study Division which will be responsible for this field and will probably prepare an internal instruction for this matter.

PhDr. Martina Hábová
Head of Centre of Scientific Information

SUMMER SCHOOL - NORWAY

The Norwegian Embassy in Prague would like to inform you about the summer school for young scientists which will be held from June 21st to July 2nd, 2010 in Bergen. Bergen Summer Research School on Global Development Challenges (BSRS) is open to students of doctoral programmes and young scientists from around the world.
The deadline for applications: March 1st, 2010.
The candidates may also apply for a scholarship to cover the costs of their stay.

This year theme -“Global health in bio-medical, social and cultural perspective. The summer school will offer eight specialized courses such as clime changes, HIV epidemic, globalization. You can find further information in brochure and www.bsrs.no.

CSI INFORMATION

Direct and remote access to e-resources at Third Faculty of Medicine – current information
We advise to all users to use as a access point to e-resources portal PEZ which is built at Charles University as a single platform for both direct and remote access to eletronic resources at particular faculties (The resources for 3FM you can find at: http://pez.cuni.cz/ezdroje/fakulta.php?lang=cs&id=32).
You will select the link for selected source „direct access or remote“ (according where you are exactly), or your home key – 3FM (distinguish the membership of the faculty!).

The portal of electronic resources for CU — PEZ (http://pez.cuni.cz/ezdroje/index.php?lang=cs) are fed outside the primary data of specific source (characteristics, producer, time availability) news about outages and other irregularities in operation (Aktuality), you can find here info about the newly available resources at CU (Nové zdroje) and the updates is much more frequent.
The interface EZproxy does not keep to update links to electronic info resources as comfortably as it’s posible onPEZ.

For more info regarding the accessibility of e-resources , please contact: miroslava.plecita@lf3.cuni.cz
If you have any problems with your password or access to CAS, please contact Mr.Ondřej Kubánek from Computer Service Centre of 3FM: ondrej.kubanek@lf3.cuni.cz.

Centre of Scientific Information

Vita Nostra servis - Informational weekly magazine of Charles University in Prague – 3rd Faculty of Medicine. Designated for the Academic Community. In-house publishing. Edited by the 3. FM, Ruská 87, Prague 10. 150 copies. Freely distributed. The full text edition is posted on the web pages of the 3. FM. The deadline is every Thursday, and is published Friday.
The Representative Faculty Ball

We would like to invite you to

the 12th annual and popular ball of the Third Faculty of Medicine,

that is to be held on March 4th, 2010

at Národní dům, Vinohrady.

Ticket advance-sale is available at the bookshop of medical literature in the vestibule of the faculty from January 18th, 2010.

The main social event of the faculty organised by student’s association. More than 700 people attended the ball every year.

The ball includes the student dancing and a tombola for valuable prizes.

In recent years the ball also benefits the objective of financial support for children’s home, Hillary Clinton.

The Offer of Scholarships

GFPS-Czech Republic the student organisation for student and cultural exchange in Central and Eastern Europe offers scholarship for the winter semester 2010 at the German University according your own choice*. Deadline for applications: 31.3.2010.

- The scholarship is about 520 € per month.
- We provide personal assistance in arranging the scholarship residence before your departure and after arrival to Germany. Members of german GFPS will help to handle with administration, housing and finding fellow members.
- The scholars of GFPS will meet in two weekend-workshops: Städtetage - town days – are cognitive and familiarization workshop in German town, organised by local Stadtgruppe.
  Quadrat - meeting of four nations - will take place at the end of the semester. The scholars will present results of their study residence.
**GFPS requirements**

- active performance of study plan
- submission and presentation of the project which the student worked during his/her stay (possibly as diploma work)
- participation in meeting of Städtetage and Quadrat
- certain number of credits is not required to obtain (as it is necessary in Erasmus programme)

**Conditions that candidates must meet**

- full-time study, student has completed 2nd year of study (bachelor’s, master’s study), GFPS scholarship is not intended for doctoral students!
- age maximum 30 years
- scholarships are open to all study programmes (technical, humanities, natural sciences)
- interest of Central Europe area and cultural cooperation
- intermediate knowledge of German language

Details and application forms can be found on: [http://gfps.realmind.org/cz/](http://gfps.realmind.org/cz/)
For more information, please contact: [gfpscz@gmail.com](mailto:gfpscz@gmail.com).

**Datas for submission of documents**

- Summer semester (in Germany: 1.4.-31.8.) – by October 31st 2010
- Winter semester (in Germany: 1.10.-31.3.) – by March 31st 2010

**Universities with which GFPS have contracts for scholarships**

INTERNATIONAL MOBILITY OF RESEARCHERS

Stimulating knowledge exchange through mobility of researchers has become a key priority to national and European policy makers. However, a lot is still not fully understood and more evidence is needed to develop effective policies on this topic. To this end, the European Commission has launched a large scale study (known as the MORE-study - www.researchersmobility.eu) focusing on mobility patterns and career paths of researchers.

We would like to invite you to participate to our survey (about 10-15 minutes of your time) in order to collect your experiences with respect to mobility. Your opinion on the problems, needs and attitudes will help the European Commission (and other Governments) to develop better targeted policies on this subject.

All completed surveys shall remain strictly private and confidential and shall only be used for the purposes of this study. Please click here to start the survey:
» Start Survey (http://s.checkmarket.com/?e=13049&c=4543180&l=en&h=9768E1C246FD70E91707)

Thank you in advance for your survey participation and feedback.
If you encounter any technical difficulties taking the survey, please contact us at EC-study@researchersmobility.eu

(project director)

BERGEN SUMMER RESEARCH SCHOOL

On Global Development Challengenges
June 21 – Juli 2 2010
Global Health in Bio-Medical, Social and Cultural Perspectives

www.bsrs.no

MISSION AND DEFINITION: GLOBAL DEVELOPMENT CHALLENGES

The Bergen Summer Research School is an initiative of the Bergen academic milieu’s commitment to produce and disseminate research-based education to address some key global challenges posed by an increasingly knowledge-based, complex, multicultural, religiously diverse, and unequal global society.

Professor Kjersti Fløttum, Head of Bergen Summer Research School, welcomes PhD Students from the entire world: “By the Bergen Summer Research School, we want to contribute to fostering globally committed young researchers in an international setting”

The BSRS Secretariat: The Research Department,
University of Bergen
Contact: gdc@uib.no
Web addresses: www.bsrs.no, www.uib.no/rs/bsrs
RESEARCH-BASED EDUCATION FOR GLOBAL DEVELOPMENT CHALLENGES

One of the important challenges for universities and academic institutions today is their continuation as the backbone of society, providing the knowledge and educating young people for addressing complex global challenges. Global development challenges affect us all, rich as well as poorer countries.

THEME 2010: JUNE 21 – JULY 2 2010 GLOBAL HEALTH IN BIO-MEDICAL, SOCIAL AND CULTURAL PERSPECTIVES

The third edition of the Bergen Summer Research School is dedicated to the theme of Global Health in Bio-Medical, Social and Cultural Perspectives. We offer 8 doctoral/research courses, several plenary lectures, and open public roundtable debates. We aim to promote collaboration, interaction and joint learning across disciplines on topics related to global health and development. Thus, BSRS 2010 will create dialogue across academic disciplines, the private sector, government and civil society organizations in order to raise better awareness of global challenges - challenges which affect countries of different income categories. The concept of Global Health is defined as “an area for study, research and practice that places a priority on improving health and achieving equity in health for all people worldwide. Global health emphasises transnational health issues, determinants, and solutions, involves many disciplines within and beyond the health sciences and promotes interdisciplinary collaboration, and is a synthesis of population-based prevention with individual-level clinical care” (Lancet, May 2009).

PHD-RESEARCH COURSES 2010

University of Bergen (UiB), Christian Michelsen Institute (CMI), Bergen University College (HiB), UniGlobal (Research organisation affiliated to UiB)

RESEARCH METHODS IN CLIMATE CHANGE AND HEALTH / Bjerknes Centre for Climate Research and Centre for International Health, University of Bergen / Course leaders: Bernt Lindtjørn, Asgeir Sorteberg, Ellen Viste, Thorleif Markussen Lunde

SEVERE HIV EPIDEMICS AND MULTIDISCIPLINARY RESEARCH CHALLENGES IN PREVENTION / Centre for International Health and Research group on Global Health: ethics, economics and culture,University of Bergen; and Bergen University College / Course leaders: Knut Fylkesnes, Ingvild Fossgard Sandøy, James Hargreaves

GLOBAL CHALLENGES IN REPRODUCTIVE HEALTH / Haukeland University Hospital; University of Bergen; and Bergen University College,Faculty of Health and Social Science / Course leaders: Torvid Kiserud, Astrid Blystad, Karen Marie Moland, Sven Gudmund Hinderaker, Marge Berer, Mark A Hanson

ELECTRONIC MOBILE DATA IN GLOBAL HEALTH RESEARCH: A HANDS-ON COURSE / Centre for International Health,University of Bergen / Course leaders: Thorkild Tylleskær, Jørn Klungsøyr, Wei Qin Chen, Peter Wakholi, Bruce McLeod, Aamir Khan

RESEARCHING CHILDREN’S WELL-BEING IN THE CONTEXT OF GLOBAL INEQUITY / Research Centre for Health Promotion, University of Bergen / Course leaders: Gro Th. Lie, Marguerite Daniel, Haldis Haukanes, A Bame Nsamenang

GLOBALIZATION AND HEALTH / Centre for International Health, University of Bergen / Course leaders: Gunnar Kvåle, Kristian Heggenhougen, David Sanders

THE RIGHTS TO HEALTH IN RESOURCE CONSTRAINED SETTINGS: RIGHT, LITIGATION AND SOCIAL JUSTICE / Chr. Michelsen Institute; University of Bergen, Department of Comparative Politics, Department of Public Health and Primary Health, and Faculty of Law / Course leaders: Siri Gloppen, Ole Frithjof Norheim, Henriette Sinding Aasen, Alicia Yamin

THE 5TH INTERNATIONAL FAIR FOR HIGHER AND CONTINUING EDUCATION

Meet your interested audience and present your programmes to prospective students at StudyWorld 2010, the 5th International Fair for Higher and Continuing Education will taking place from April 23-24, 2010 in Berlin.

The fair is organised in close cooperation with the Federal Ministry of Education and Research (BMBF) and the German Academic Exchange Service (DAAD).
StudyWorld 2010 is the only direct student recruitment fair in Germany to focus on international higher & continuing education. Over 9,500 visitors are expected to take advantage of this opportunity to gather first-hand information in face-to-face discussions with more than 170 exhibitors from at least 25 countries. The high quality seminar programme, which runs parallel to the fair, boasts over 60 presentations.

You can download detailed information on exhibiting or advertising, along with the registration form, using the links listed below. For more information on StudyWorld, please take a look at our website: www.studyworld2010.com

Please do not hesitate to contact us if you have any questions. We hope to be able to welcome you as an exhibitor at StudyWorld 2010.

CSI INFORMATION - DATABASE "GLOBAL HEALTH"
-- FREE USE OF THE WHOLE FEBRUARY 2010

CABI release the database "Global Health" based on needs of organisation “Doctors without borders” to the free use of the whole month February 2010 – approach through "Global Health Knowledge Base" (http://cabiblog.typepad.com/globalhealth/research.html).

Thanks to this service it is possible to get such articles and reports of the World Health Organization which relate to accidents caused by the earthquake (Pakistan, Bam in Iranu or Wenchuan in China).

More information, including manuals and other tools, you can find at: http://www.aip.cz/prodikt.php?produkt=2456

If you want to be regularly informed (once a month) about new research and up-to-date situation in the sector of public health, please subscribe to the "Global Health e-newsletter". (http://cabiblog.typepad.com/globalhealth/subscribe.html). Eg. current "Global Health Newsletter" is dedicated to the humanitarian crisis in Haiti. This issue focuses on public health responses to natural disasters, including prevention and solution effects.

INAUGURATION OF THE DEAN

On February 4th, 2010 the new Dean of 3rd Faculty of Medicine CU prof. MUDr. Michal Anděl, CSc. was inaugurated in Vlastenecký sál in Magna Aula of Carolinum. The inauguration according to „the new ritual“, as said MUDr. David Marx, Ph.D. – Chair of Academic Senate 3rd FM CU, were attended be representatives of Charles University and its faculties, especially the audience of employees, colleagues and students of 3rd FM CU.

Doc.MUDr. Bohuslav Svoboda, CSc. gave his closing dean’s speech in which he confessed his love for faculty and appreciated the merits of its processors and the activity of workers and students. On the contrary, he received the Diploma of the Academic Senate of 3rd FM CU as an expression of thanks for keeping the faculty. Then prof. M. Anděl made a dean promise and the Rector of CU prof. V. Hampl gave him the symbol of honour – dean chain. In his inaugural speech he indicated as necessary to compare teaching at 3rd FM CU with teaching at medical faculties in Germany and Austria. In conclusion of assembly the Rector of CU prof. V. Hampl thanked to former Dean of 3rd FM Doc. B. Svoboda for cooperation and wished success to new Dean prof. M. Anděl.

The ceremonial inauguration was added by the appearance of choir 3rd FM Musa Pragensis with the choirmaster Zdeněk Šulc.

Mgr. Marie Fleissigová, editress CSI

The photos from the inauguration ceremony will be published on the website of 3rd FM – in Photo Gallery – Navigation Faculty – Photo Gallery in the next week.

INVITATION

Information and Advisory Centre of CU would like to invite you to the lecture

Study in USA

When: March 3rd, 2010, at 14:00
Where: Zelená posluchárna RUK (Green Lecture Hall), Celetná 20, Prague 1
– room No. 141, 1st floor

Guests: Ing. Jakub Tesař
Education SA Advisor from Fulbright Commission (www.fulbright.cz)
Graduates of study visits in USA
Presentation of experiences, attractions, impressions and photos

Come to inspire and enhance your commitment to travel, explore and find...

SESSION OF THE ACADEMIC COMMUNITY

The Dean of the Third Faculty of Medicine and the Academic Senate of the 3rd FM CU in Prague are convening

The session of the Academic Community of the Third Faculty of Medicine in Prague on Tuesday, March 2nd, 2010 at 15:30 in Syllaba Lecture Hall, Dean’s office, Ruská 87, Prague 10.

Programme:
The introduction of new Dean’s Board

Classes are cancelled in all years of study and study programmes on 2.3.2010 from 14:30

Prof. MUDr. Michal Anděl, CSc. MUDr. David Marx, Ph.D.
Dean of the Third Faculty of Medicine CU Chairman of AS 3rd FM CU

CALL FOR APPLICATION 2010 TIGP SUMMER INTERNSHIP PROGRAM

About TIGP
In 2002, in order to cultivate international talents and to help promote the internationalization of higher education in Taiwan, Academia Sinica (http://www.sinica.edu.tw/) established the Taiwan International Graduate Program (TIGP; http://tigp.sinica.edu.tw/) in collaboration with local research universities. The all-English teaching and research environment, together with state-of-the-art facilities and world-known faculty, provides an intellectual educational environment for international talents who wish to pursue a graduate study in an advanced setting. Currently, TIGP offers 9 interdisciplinary Ph.D. programs in cutting-edge science research fields:
1. Chemical Biology and Molecular Biophysics (CBMB) Program
2. Molecular Science and Technology (MST) Program
3. Molecular and Biological Agricultural Sciences (MBAS) Program
4. Molecular and Cell Biology (MCB) Program
5. Bioinformatics Program (BP)
6. Nano Science and Technology (NST) Program:
7. Molecular Medicine (MM) Program
8. Computational Linguistics and Chinese Language Processing (CLCLP) Program
9. Earth System Science (ESS) Program

TIGP-SIP
The TIGP Summer Internship Program (TIGP-SIP) was launched recently to provide visiting overseas students with an opportunity to become familiar with the research environment and graduate programs offered by Academia Sinica.

- **Eligibility:**
  The internship is open to overseas applicants of the following status:
  (1) students who are currently studying at an overseas university at a level of third year or above, or studying in a master degree program
  (2) non-students who already obtained a B.S. or Master Degree

- **Application**
  Duration: 1st week of Jan. ~ Mar. 5, 2010
  On-line application system: https://db1x.sinica.edu.tw/tigpSummer/

- **Internship duration:** 8 weeks (Jul. 1 ~ Aug. 31, 2010)

- **Internship location:** Academia Sinica, Taipei, Taiwan

- **Financial support:**
1. 1/2 of the airfare for a round-trip at economic class
2. TIGP and the sponsoring PI will provide around NT30,000/month for up to 2 months (20% tax will be deducted)
For more details, please refer to the guideline. Interested applicants are encouraged to submit your application on-line.
(If you have applied for admission to TIGP 2010 fall semester previously, please use the same account and password to log on to the TIGP-SIP on-line application system.) Alternatively, should you encounter problem with the on-line system, please download and fill out the application form and send it to TIGP Office along with all requested documents before March 5, 2010. Please be reminded that applications received after the deadline may not be processed.

TIGP Office

THE ELECTRONIC DATABASE OF DISSERTATIONS—THE LAST CALL BY 23.2.2010

In VNS No.3/2010 from 21.1.2010 the Dean’s order No.39/200 was published, this measure relates to the obligation of faculties to publish and deliver all thesis in electronic version to Digitální repozitář UK – Digitool concerning all graduates and students with the date of defence from 1.1.2006.
1. Students and graduates with the date of defence from 1.1.2006 to 28.2.2010 deliver their complete thesis to the Head of CSI - PhDr. M. Hábová.
2. Students with the date of defence after 1.3.2010 deposit their thesis in electronic version by themselves.

I would like to thank all students and trainers who sent me some of the missing e-versions.

The issue of diploma works

The updated list of delivered and not delivered (by 17.2.2010) e-versions according the branch of study from graduates or students is published on web pages of 3MF -SVI – Diploma Works – Delivering and Not delivering e-version according the branch of study http://www.lf3.cuni.cz/cs/pracoviste/svi/e-vskp/e-verze/.
The list of not delivered e-versions contains the names of graduates only. Students on interruption, repetition of study, on internship or students who still study and they passed SE of Preventive Medicine and did not hand over the thesis are not mentioned in this list.

Information of delivering or not delivering is written in SIS. The SIS can search the student’s name, click on the thema of thesis and then click on Detail of thesis. The info is displayed without logging into the SIS.

I would like to ask the remaining graduates and supervisors of their dissertation for providing the missing e-version and quick delivery of diploma works with expertise no later than 23.2.2010. After this date we are not able to keep the files to process..
You can send the files by e-mail to PhDr. M. Hábové (svi@lf3.cuni.cz) in any format (word, pdf) and in multiple files + expertise. The best is in pdf.

PhDr. Martina Hábová,
The Head of CSI

CSI INFORMATION

The trial access for three months CIG Media Group

Charles University has obtained the possibility of trial access for 90 days (up to mid-May 2010) to the magazine publisher CIG Media Group – more info: http://cigjournals.metapress.com/home/main.mp
x

These are 9 journals in the field of oncology:

☑ Clinical Breast Cancer
☑ Clinical Cancer Reviews
☑ Clinical Colorectal Cancer
☑ Clinical Genitourinary Cancer
☑ Clinical Leukemia
☑ Clinical Lung Cancer
☑ Clinical Lymphoma, Myelona & Leukemia
☑ Clinical Ovarian Cancer
☑ Supportive Therapy

Do not hesitate to try it – the list of journals is available at http://cigjournals.metapress.com/publications/
LET’S APPLAUD

The reference of the Operation course thoracolumbal spine – the shortened version

On 21.-23.1.2010 the Operation course on surgical treatment of thoracolumbal spine was achieved at the Third faculty of Medicine. The course was held under the auspices of the Dean of the Faculty doc. MUDr. Bohuslava Svoboda, CSc. The main organizers were prof. MUDr. Josef Stingl, CSc. the Department of Anatomy, doc. MUDr. Václav Báča, CSc. the Educational Centre for Anatomy, Endoscopy and minimally invasive surgery and doc. MUDr. Martin Krbec, CSc. the Department of Orthopaedics and Traumatology. The course was attended by 31 Italian orthopaedists mainly from the area of Milan and Palermo.

It was the 31st Operation course organised by doc. Báča and the number of participants and the range of teaching possibilities was the greatest one for 5 years of existence of Educational Centre. Italian participants were surprised by the welcome speech of doc. Svoboda performed in Italian language which was rewarded spontaneous applause. The outgoing lectors were rewarded spontaneous applause after finishing and handing over the certificate. The agency which organised the stay of the Italian orthopaedists confirmed immediately two pre-negotiated courses in the summer semester and demanded other three courses for winter semester of this year.

The special admiration deserves for translators who simultaneously interpreted the course in Italian language (Italian as the language was the condition of the supervisors). Encouragingly, one of them was MUDr. Hubová, the fresh graduate of our faculty who is currently starting her practice in Palermo.

It should be thank to the main organizers prof. Stingl, doc. Báča and doc. Krbec, all the instructors among the teachers of our faculty and the invited specialists from other universities, other employees of Department of Anatomy, the mainframe sisters the Department of Orthopaedics and Traumatology and the companies providing tools box (Synthes s.r.o.), X-ray aplifier (Aura s.r.o.) and protective equipment (Hartmann-Rico s.r.o). The level of the course corresponded to those best organised top running courses held in Europe (Davos, Graz), I had the opportunity to attend.

Doc. MUDr. Valér Džupa, CSc.
The 2nd Faculty of Medicine in Motol defended the victory
Hospodářské noviny | : University – Faculty of Medicine | : 10 | : jana Machálková

http://m.ihned.cz/c4-10008740-40558420-700000_pdadetail-kde-studovat-medicinu-fakulta-v-motole-obhajila-vitezstvi

The results of this year’s rankings in the field of Medicine

1st the Second Faculty of Medicine Charles University
2nd the Third Faculty of Medicine CU
3rd the First Faculty of Medicine

As last year Hospodářské Noviny(HN) compared eight Faculties of Medicine in the field of General medicine. The faculties are judged on 4 criteria: World – class school, Interest in school, The research of graduates and Science. The Second Faculty of Medicine which is located in hospital of Motol defended its leadership of last year. On the contrary, the Medical Faculty of Masaryk University in Brno which finished third last year, this year moved up to fifth place. The jumper is the Third faculty of Medicine which came from fifth place last year to second. The scientific results helped particularly.

The most choosen faculty – the 2nd Faculty of Medicine in Motol

The entrance exams for Medicine are noted for their intensity. The Czech Faculties of Medicine selected carefully their future students – on average only one third of applicants succeeded. The most applicants (about 43%) are accepted at Third Faculty of Medicine. HN monitored how many accepted students then actually enter the faculty. It tells which faculty has the most prestigious reputation. This is exactly true correlation: the more difficult entrance exams are, the more applicants appreciate the success and then they actually enter the faculty.

DEAN’S ORDER NO. 3/2010

Classes cancelled on March 5th, from 7,30 to 10,30 a.m.

On Friday, March 5th, 2010 I am cancelling all classes for all years and all study subjects at 3rd FM CU from 7,30 to 10,30 a.m. without replacement.

Classes held on the above-stated day will commence at 10,30 a.m. and will follow the valid schedule for that day.

This order:
- Is valid since March 5th, 2010
- Obeys all internal regulations

Prof. MUDr. Michal Anděl, CSc.
Dean of the 3rd Faculty of Medicine CU

CHANGE AND INTRODUCTION OF NEW LINES

The changes in telephone contacts were occurred at the 3rd FM CU in these days:

Room No.240 – Jana Jeníčková – line 2177
Room No. 239 – vice-deans, MUDr. David Marx – line 2176

OFFER FROM THE RECTOR’S OFFICE - APEC

APEC (French association for the employment of executives and managers) is pleased to announce the new session of:

RESEARCH, the European Research Career Fair
Paris, Centquatre, 19 November 2010

Attend RESEARCH and:
- Diversify your competences and recruit new talents to build your future R&D teams
- Increase your visibility and attractiveness in Europe
- Find new contacts to develop strong European partnerships for your research projects

More than 1 500 European researchers and 60 exhibitors are expected.

Well-known economic and institutional key players will testify about their career in research and discuss about researchers’ career challenges in Europe.

In the exhibition area, private companies, research centres, laboratories, clusters, start ups will network and present their job opportunities as well as their innovation strategy to European researchers and doctoral candidates.

Do not miss the opportunity to be part of this unique European event about career in Research!

More information available on line: www.researchcareerfair.com

Tiphaine Gartner, Key account manager, APEC France,
CSI INFORMATION

Cambridge Journals Online - STM Collection – the trial access

The trial access was set up for Charles University to journals published by Cambridge University Press – collection of STM. The enter to the full text journals you can test by 31.3.2010. More info, including direct and remote access you can find on the Portale of electronic resources CU (http://pez.cuni.cz/ezdroje/zdroj.php?lang=cs&id=493) or other additional info (http://www.aip.cz/produkt.php?produkt=2957).

Miroslava Plecitá, Centre of Scientific Information

LET’S APPLAUD OURSELVES

MUDr. Barbora Schutová, Ph.D. student from the Department of Normal, Pathological and Clinical Physiology of 3rd FM CU won the Award for the young physiologists at the 86th Physiological days in Prague. The award was given for the lecture authors’ „Schutová B., Hrubá L., Rokyta R., Šlamberová R.” entitled „Prenatální expozice metamfetaminu zvyšuje citlivost k akutní i chronické aplikaci stejné drogy v dospělosti“. The price is regularly awarded by Czech Physiological Society. The Physiological days is the conference where the majority of the physiologists from the Czech and Slovak Republic take part.

Congratulations!
Macquarie International

FULL-TIME INTERNSHIPS

The full-time internship program provides a fantastic opportunity for Macquarie students to gain valuable work experience in an organisation relevant to their studies.

Program Overview

Macquarie International's full time internship program runs for 10 weeks, and is suited to independent students looking to take on the challenge of living and working in a new culture.

It is designed to help students:
• Develop work-based skills
• Contribute to local industry
• Establish networks and contacts
• Learn about the Australian work culture
• Improve cross-cultural communication skills

2010 dates
• Student arrival: 7 June 2010
• Placement commencement date: 14 June 2010 (approx.)
• Student departure: 15 August 2010

Schedule
• Week one is orientation week and allows students the chance to settle into Sydney.
• Weeks two to ten are spent working four days per week (approximately 30 hours per week) in a local organisation, with two on-campus workshops.

Workshops

Students attend three workshops on campus. In week one, students attend an orientation workshop which covers program information and helpful hints about living in Sydney.

Two additional workshops during the placement period cover topics such as email and phone etiquette, management styles and Australian workplace culture.

Assessments

Interns are required to complete:
• Weekly reflective journals
• 15 minute presentation on their experience
• Two page statement of completion

Eligibility

To be eligible to apply, students must have obtained a Grade Point Average (GPA) of 3 or above (or equivalent).

Recognition

Students will receive an official Macquarie University letter at the completion of their internship. This includes an evaluation from their Workplace Supervisor, which can be used as a reference. It is important to note that the program is a work-based learning opportunity and is therefore not transcripted.
Student Support

Students will be supported by a Macquarie University Internship Advisor, who will assist and guide students throughout their internship experience. Students will also have access to on campus counselling services.

An Internships Handbook will also be provided, as well as two professional development workshops (see overleaf for more information on workshops).

A city tour, two cultural activities and one ‘out of Sydney’ tour are included as part of the program. We recommend that students use their internship experience to get to know their work colleagues, and to explore Sydney and its surrounding regions. Internship staff are available to help students organize weekend travel plans and trips away.

Accommodation

Students will be housed in studio apartment style accommodation, sharing with other interns. This accommodation will be situated within short walking distance of public transport and other amenities either near Sydney city or close to the Macquarie University campus in North Ryde.

Visa requirements

Students participating in the program will enter and stay in Australia on an ETA (Visitor) subclass 976 visa. This must be applied for at least two weeks before departing and there is a service fee of $20. Your stay in Australia must not exceed three months under this visa.

For more information, visit: www.dima.gov.au/visitors/tourist/976/index

Program Fee

The program fee is US$4,900. This covers:

- Internship placement fee
- 10 weeks accommodation
- Work-based insurance cover
- Airport pick-up
- Orientation information session on campus
- Orientation city tour of Sydney
- Two Sydney-based cultural activities
- One ‘out of Sydney’ tour
- Two professional development workshops
- Farewell lunch

Students will be required to cover their own airfares, meals, transportation travel insurance and spending money.

Applications

Application deadline: March 31 2010.

Application documents can be obtained on request from the details below.

Hear from our interns

DOUG, VIDEO GAME PLACEMENT

“My past internships entailed hours locked in a mail room copying, faxing, and filing however, in this internship, I really enjoyed the work I was involved in.

I organised PR events, participated in company meetings, played video games and celebrated the premiere of a boxing game. It felt really good to be actually involved in what was going on - much better than being stuck in front of a copy machine.”

RYAN, GLOBAL COMMUNICATIONS PLACEMENT

“An internship gives students a real-world example of what the corporate environment is really like. An internship opens up the possibility of interacting with dynamic co-workers and supervisors on a weekly basis, and it can also be used as an indicator of what will be expected of you in the workplace.

Most importantly, an internship provides relevant international business experience, which is very attractive to prospective employers.”

DANIELLE, MARKETING AND ADVERTISING PLACEMENT

“Coming into Macquarie I was a little hesitant that I would be stuck somewhere I didn’t like or wouldn’t be able to contribute, but the staff did a great job matching my skills and goals with the needs of my host organisation.

I came right in and started working with the online team on day one and really felt like they appreciated the work I was doing.”

Růžena Hrušková,
We would like to welcome you to the
Course in Health Risk Assessment II: Challenges in Risk Assessment
Karolinska Institutet, Stockholm, Sweden  June 7-11, 2010

The objective of the course is to provide knowledge and understanding on challenging issues in health risk assessment, i.e. health risk assessment of combined exposures and of the sensitivity of early exposure during development.

The course is intended for PhD students, post docs, senior scientists and other professionals. Funding for travel, subsistence and course fee is available for PhD students and post docs.

The course is organised by RA-COURSES, a project funded by European Union Marie Curie Actions in collaboration with the Postgraduate programme in Environmental Factors and Health at Karolinska Institutet.

For application and further information: www.cascadenet.org/~RA-COURSES

Please forward this information to your students, post docs and colleagues.

Application deadline is April 12, 2010.

Johanna Zilliacus PhD, Associate Professor
Department of Biosciences and Nutrition, Karolinska Institutet,
Novum, SE-141 57 Huddinge, Sweden

Considering a Residency in the US?
Then come on April 15th 2010 at 3pm to Syllabova Hall.
Cameron Scott will be giving a presentation on:

Information and tips on
uying, how to apply, and
Everyone is welcome- this is a Student to Student information sharing session!

All the information he wished he knew before he started the process now that it is over for him!
Dear colleagues,

We would like to invite all students to the meeting with the new Dean of the faculty prof. MUDr. Michal Anděl, CSc. The meeting will be devoted to the discussion about planned changes – in organization and contend of teaching – as well as other areas of students’ interest.

Date and time: on 16th March 2010 at 17,00 p.m.
Venue of the meeting: Syllaba Lecture Hall
Dress: unprescribed

MUDr. David Marx, Ph.D.
Vice-dean for undergraduate education and student affairs

Vice-dean for undergraduate education and student affairs office hours

Students wishing to contact personally the vice-dean for undergraduate education and student affairs David Marx, MD, PhD, may do so on Wednesdays 2,00 pm – 6,00 p.m. and on Fridays 7,00 a.m. – 11,00 a.m. after phone reservation – phone no 267 102 177, or mail reservation jana.jenickova@lf3.cuni.cz. Mail contact is possible at david.marx@lf3.cuni.cz.

In case of emergency (acute need of health care, social support, translation services, legal advice) it is possible to contact the vice-dean or a membeer of his team nonstop at . +420 724 292 312.

New Chairman of Academic Senate

The Academic Senate of 3rd FM CU at its session on March 9th, 2010 elected the candidate for the function of the Chairman of Academic Senate

Doc. MUDr. Milan Kment, CSc.

The function of the current chairman of AS 3rd FM CU MUDr. David Marx, Ph.D. disappeared by appointment to the vice-dean for undergraduate education and student affairs.

Doc.MUDr. Hana Provazníková, CSc.
Vice-Chair of AS 3rd FM CU

Faculty’s Student Research Conference 2010

The faculty’s Student Research conference at the 3rd FM CU will be held on May 20th, 2010 from 9.00 a.m. in the Burian Lecture Hall. We would like to notify all of those interested in active participation and primarily those students that have selected the Student Research activity instead of optional courses to submit their electronic application form by April 30th, 2010 on website of TRIMED. The registration is available from March 30th, 2010.

Please note the maximum possible scope of abstract lecture – 1 standard page of text with possibility of the appendix (1 standard page). The sample abstracts will be available with the registration form.

Doc. MUDr. Romana Šlamberová, PhD.
OFFER OF SCHOLARSHIP – TCHAJ-WAN

Taipei Medical University (TMU) 2010 Scholarship

Please kindly note that Taipei Medical University (TMU) will hereby provide scholarship programs for international students (details attached). Please assist to disseminate such message to the outstanding students in your prestigious school who want to study abroad in Medical Field in TMU. Thank you. For more info, please visit the International Office of TMU Website: http://io.tmu.edu.tw.

PS. The deadline for application is April 10th, 2010

ORGANIZATION OF EXAM – MODULE IIC-VALID FROM SUMMER SEMESTER ACADEMIC YEAR 2009/2010

A. Conditions for admission to the final oral exam:
   a. obtaining credits from all course Module IIC
   b. write successfully the final test of Module IIC (120 questions from all the courses, at least 65% correct responses)

B. Organisation of the final exam:
   a. The exam is commissional, the examination board consists of three examiners at least. Two examiners are representetives of the courses MIIC, the pathologist and pathophysilist are presented.
   b. The student allotes on a casuistic of the group of „large fields“ and one of the group of „small fields“ which consist of the following courses:
      - Large fields - C5 (Dyspnea and Chest Pain), C6 (GIT and Abdominal Complaints), C8 (Disorders of Renal Function and Edema), C9 (Bleeding), C11 (Endocrine and metabolic Diseases)
      - Small fields – Courses are grouped in the following groups:
        a. C1 + C19 (Infectious and Febrile Conditions + Disorders of Immunity)
        b. C2 + C3 + C4 (Pain + Disorders of Nervous System + Mental Disorders)
        c. C7 (Tumours)
        d. C10 (Cutaneous Changes)
        e. C12 + C15 (Locomotion Disorders + Trauma)
        f. C14 (Failure of Vital Function)
        g. C16 + C17 (Disorders of reproduction and Fetal Development + Disorders of Growth and Development in Postnatal Period)

C. By the final exam will not be examining C 13 and C 18 (Sensoric Disorders + Ethical Problems in Today’s Medicine). These courses will be entered into a credit, the conditions do not change for this a.y.(ie. are the same as they were announced at the beginning of academic year).

Prof. MUDr. Jiří Horák, Head Teacher Module IIC

CSI INFORMATION

Third faculty of Medicine CU has the opportunity(from 11. 3. to 11. 5. 2010) to try a collection of full text journals published by Bentham Science Publishers which covers STM field – the pharmaceutical and biomedical scientific journals. More info, including the possibility of direct and remote access you can find in Portál elektronických zdrojů UK in section Zkušební přístupy (http://pez.cuni.cz/ezdroje/zdroj.php?lang=cs&id=359)

European Week of the Brain

The European Week of the Brain organized by Academy of Sciences CR in cooperation with the Society for Neuroscience ČLS JEP which takes place from 15.to 21. March 2010 you could resonate 12 lectures. Prof. MUDr. Richard Rokyta, DrSc., Department of Normal, Pathological and Clinical Physiology 3rd FM CU has lecture on the topic New approaches to treat pain and prof. MUDr. Eduard Zvěřina, DrSc., Department of Neurosurgery 3rd FM CU and FN KV on the topic Advances in Neurosurgery. The lectures were well attended, there were 250 students presented at my lecture.

Prof. MUDr. Richard Rokyta, DrSc.

Invitations and Seminars

WikiSkripta.EU – edifying lecture
date: 23.3. - at 13:00, room No. 423, main building of 3rd FM CU

MUDr. Martin Vejražka, PhD., teacher from 1stFM CU and a project leader WikiSkripta will explain the meaning, use and value to both teachers and students.

Description:
Teachers and students are available to use a new tool for creating and sharing of medical educational materials – WikiSkripta (www.wikiskripta.eu). Technologically based on the wiki-one of the tools of „new” and „open” site“. The articles for WikiSkripta can be uploaded according to current needs of teaching. The insert text can be then modified, improved and updated. Anyone can join to collaborate on the creation of learning materials. The most important benefit of WikiSkripta is that creativity and publishing textbooks in this system is much simpler than using other means. WikiSkripta also simplify the cooperation of several authors which allows you to put together a better knowledge of several experts. Moreover it is extremely easy to update the existing articles. Finally WikiSkripta support the active student’s approach to education and the student is more drawn into educational process with it. At first glance WikiSkripta resembles Wikipedia the focus and type of articles is different: the aim of WikiSkripta is not to create encyklopedia but interdisciplinary textbook for medical studenty.

The group of personal development and self-discovery for university students

The group is designed for students who want to:
- deepen their social skills and experiences in a safe and receiving environment
- understand their problems and difficulties
• increase knowledge of yourself
• gain view of their own characteristic patterns of relating to others and to himself
• learn to communicate effectively with others, communicate their feelings and wishes
• assistance in dealing with relationships, partner and family problems
• support for increasing self-confidence and self-esteem

A group of leading psychologists:

PhDr. Vendula Junková  
(Rogerian psychotherapist, supervisor and training instructor)

PhDr. Veronika Boháčová  
(psychotherapist, trained in Gestalt dialogic approach)

The meeting for university students are free-the program is supported by a grant of MŠMT.

• There will be eight group meetings
• Period: from April 28th, 2010 to June 16th, 2010
• Frequency: once a week
• Day and time: Wednesday from 17:30 - 19:00 p.m.
• Where: Student Counselling Centre CU, Praha 1, Školská 13a
• Number of participants: max. 10

You can register on e-mail address: v.junkova@i-line.cz or phone: 607 267 172

Before being added to party, all interested students will be invited to a brief individual consultation with a therapist and answering questions of potential candidates.

Recruiting now Healthcare Assistants throughout the United Kingdom for summer holidays.
If you can speak English and have experience in Healthcare, now is your opportunity to widen your experience and earn money at the same time!!

Work in Hospitals, Nursing homes

Location: United Kingdom/Nationwide
Duration: Summer holiday period, min. 1 months

Wage: £ 6,40 – £12 (Pound Sterling) per hour
Hours: Flexible up to 37,5 hours per week +

Essentials
Minimum 6-months Hospital/Care Home experience/Trainings
Intermediate English
Ability to work in busy environments

Duties Include:

• Personal Hygiene – Bathing/showering
• Toileting
• Moving and Handling techniques
• Serving meals and feeding
• Collecting specimens
• Helping with getting out of bed
• Measure vital signs – Temperature, Pulse, Respirations & Blood Pressure

Presentation will be held at Ústav ošetřovatelství 3. LF UK,
Ruská 91, 100 00 Praha 10, Pavilion X, učebna 917
on 9th April 2010 from 13:00

Interviews will be held at the same place, on 9th April 2010 from 13:30!!!

For more information please email your CV to praha@bna.co.uk
Tel No: 0044 7740 371 505, Tel No: +420775088431
FIRST TUTORIAL WORKSHOP
IN IMMUNOLOGY
„NATURAL IMMUNITY AND CANCER”
Prague, 12th - 13th April 2010

Organized by:
Laboratory of Natural Cell Immunity
of the Department of Immunology at the Institute of Microbiology
Academy of Sciences of the Czech Republic, v.v.i.

and
Czech Immunological Society

Information and registration at
www.biomed.cas.cz/IICW2010

The workshop is especially addressed to students and young scientists
for an update and unique experience of free discussion on the
argument between famous international experts and young researchers

We are looking for your participation!!!

MEETING WITH VICE-DEAN FOR UNDERGRADUATE EDUCATION AND STUDENT AFFAIRS

Vice-Dean for Undergraduate Education and Student Affairs will present the results of evaluation of winter semester 2009/2010 and the results of students satisfaction survey on 21st April 2010 at 4,00 p.m. in Burian lecture hall. Please join us and help us to improve what needed :-)  

Bc. Alena Vlasáková,  
Head of Study Division

CHANGE OF OFFICE HOURS OF STUDY DIVISION

On the basis of this month’s survey results the office hours of the Study Division will be extended in the period from 1st April to 4th June, 2010 as follows:  

<table>
<thead>
<tr>
<th>Day</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mon</td>
<td>7:30 – 12:00</td>
</tr>
<tr>
<td>Tue</td>
<td>--</td>
</tr>
<tr>
<td>Wed</td>
<td>7:30 – 19:00</td>
</tr>
<tr>
<td>Thu</td>
<td>7:30 – 12:00</td>
</tr>
<tr>
<td>Fri</td>
<td>7:30 – 12:00</td>
</tr>
</tbody>
</table>

We will monitor the use of these office hours in this period and we will decide about office hours to the next academic year accordingly.  

MUDr. David Marx, Ph.D.  
Vice-Dean for Undergraduate Education and Student Affairs

ANNOUNCEMENT

The Management of Faculty announced that from 1st April, 2010 is arranged „open kitchen room for student use“ in 6th floor of the building, room No. 636. The kitchen is equipped with microwave oven to be used for heating food.  

Jana Jeničková

STUDY OF MEDICINE IN CHINA

Dear colleagues,  
on behalf of the Ministry of Education CR we would like to inform you that Ministry of Education Republic of China published a list of high education institutions and a plan on admission university students from abroad in the academic year 2010/2011 for course of study:  

- Clinical medicine and dentistry in Bachelor Study programme - in English language  
- Clinical medicine for postgraduate students - in English language  
- Other medical disciplines at all levels (bachelor, master, doctoral) - in Chinese language

The list is also available on www.studyinchina.edu.cn  
More info: www.zahranici-stipendium.cz, aia@dzs.cz,
The 39th Annual Meeting of International Continence Society was held in San Francisco from 1st to 5th October, 2009 and MUDr. Robert Grill, PhD actively participated in. He presented there two annotated posters that originated from joint work of experts of several branches dealing with problems of pelvic in the Center of Intergrated Study of Pelvic at 3rd FM CU. First of the poster (Grill R., Báča V., Horák Z., Otčenášek M., Smržová T., Kachlík D., Džupa V.: Real 3D biomechanical models of pelvis and pelvic floor as the way to improve knowledge about incontinence) was subsequently cited as a possible way of new research of incontinence in a significant journal Neurology and Urodynamics in an editorial evaluating the whole meeting (Cartwright R., Hashim H., Chapple C.: What was "hot" at the ICS Annual Meeting San Francisco 2009. Neurology and Urodynamics 29, 1: 21-27, 2010).

Congratulations!

prof. MUDr. Josef Stingl, CSc.
ANNOUNCEMENT FOR 6TH YEAR STUDENTS

On Thursday 27.5.2010 from 13.30 no later than until 18.30 a Comprehensive Knowledge Test (CSZNXX6) will be held at the 3rd lecture hall for all students in the 6th study year (including foreign students). The test will comprise of 120 questions including theoretical, preclinical and clinical subjects in medicine. The participation in the test is mandatory. The individual results will not be subject to examination and will have no impact on the evaluation of study. For general information, there will be an anonymous scale (order with the participant’s number) and selected anonymous information of a statistic character. The test results will be used for the evaluation of study at the faculty and for the evaluation of the admission procedure.

The test organizer is doc. MUDr. Marek Bednár, CSc. who will be happy to answer any of your eventual questions at the address bednarm@volny.cz.

Please do not forget your identification number and pen (as you are used to do from the microbiology tests, the exam of Module IIA, the credit test of Module IIC etc.) and your Index book for your marked credit. The individual transfer to another time is only possible for serious objective reasons (study internship abroad etc.).

Doc. MUDr. Marek Bednár, CSc.

CSI INFORMATION

Take advantage to the extension trial access to ebrary Academic Complete – valid until 6. 5. 2010

For all of Charles University, the trial access into ebrary Academic Complete was again set up for one month. This is a collection of specialized monographs of leading producers covering the whole academic environment.

You could tested the database from October 2009 to February 2010. Due to the great interest from the Charles University we have been given the free accesss for the next month from 6. 4. 2010 to 7. 5. 2010

More information, including accesss you can find at PEZ (CU portal of electronic resources).

You can use the direct access from faculty, from your home or elsewhere use a remote access.

LET’S APPLAUD - SELECTED FROM THE PRESS

The luck of three people in wheelchairs in Half-Marathon Race

Even a week ago I thought that the runs through Prague are the main opportunity for the sponsors advertising but it is not the true. The story of three children from Jedličkův ústav who participated the race on their wheelchairs is emotive for their courage with which they were issued between healthy runners. And for those who enable them, in addition to wires that were mostly the students of Medicine. The civic association „Running With Those Who Can’t” was based by students of 3rd FM CU in Prague and Prague College. They had idea to buy wheelchairs for children, they held a „Gainful activities” and put their own money too. While the participation of professional sportsman has become a „sensation”, the real was without cameras. The agencies do not cross their mind that the half-marathon luck of three small children could warm the soul more than a smile of Pavel Nedvěd.

M. Švagrová, Lidové noviny 3. 4. 2010 reductioned
While this winter played cat and mouse with us, all scheduled winter training courses were realised. Almost immediately after the winter semester the first foreign expedition went to France to sports center Puy St. Vincent which provided beautiful weather and perfect skiing conditions. Thanks to this all participations were satisfied. Two days after departure to France the first course started in Krkonoše. The well known chalet Dvoračky provided refuge for 35 students who tested almost all types of snow and get to know the weather in the mountains all of it.

Two days after departure to France the first course started in Krkonoše. The well known chalet Dvoračky provided refuge for 35 students who tested almost all types of snow and get to know the weather in the mountains all of it. At the same time the next two courses took place, one of them was held in the famous resort Pec pod Sněžkou and second in Rokytnice nad Jizerou. In Pec pod Sněžkou students were hosted by rector’s cottage VAK and in Rokytnice the cottage Erlebach -just Erlebaška. The last „home“ winter course took place the following week on the other rector’s cottage - Patejdlova cottage. On the outskirts, or perhaps already beyond the edge of our most famous mountain resort Špindlerův Mlýn.

Rounding out the imaginary winter savory was the winter course in Italy. The well-known winter sports center Pragelat welcomed 40 students and the evaluation of all students was great. The ski slopes had to satisfy even the greatest champions and enthusiasts of downhill skiing or snowboarding. Totally all courses attended students of both faculties and the magic number 222 shows a significant increase. In addition, six events staged by VSK Medik without credit and one action off. The total number reached to an impressive 430 winter sports lovers. Hopefully, that will be similar in the next year.

Mgr. Petr Horn

Department of Physical Education
In connection with questions regarding LOGBOOK, I would like to present more detailed information:

The evidence of practical skills of students of undergraduate study is not new – a modern approach of teaching medicine and paramedical disciplines distinguishes the three main areas of education – the knowledge, skills and attitudes. Already in the mid 90th of the last century our faculty has introduced the evidence of practical skills of students – in the usual sort: performance seen, performance carried out, performance controlled in theory. In 2008 the management of faculty decided to innovate LOGBOOK and called the Head of all Departments to draft changes in LOGBOOK – on the basis of those proposals the 2nd edition were published. The LOGBOOK have also been developed for students of bachelor’s study. We expect that about 1-2 years the further review of the performance contained in LOGBOOK will be based on proposals from individual departments.

The purpose of performance evidence is to ensure that students acquire a certain minimum quota of practical skills – there is a clear picture of who has seen the performance, carried itself out and who have not.

The further medical faculties in CR has proceeded the similar evidence and many medical faculties in the EU and beyond practised in various form too.

Given to the strong application of Dean’s Order No.15 / 2008, to register the practical skills, is practising from this academic year, some of the obligations (imposed in Dean’s Order) became soften. LOGBOOKS are available for all students – the duty to submit is required by the state and rigorosum exams - are applied to the students for 3rd year of study Master’s programme and students for 1st year of study Bachelor’s programme in this academic year.

Even at maximum effort of students and teachers, we can not exclude the situation where no one can see or carry out the performance – the range of performances in LOGBOOK describes the ideal situation, and it is not true that if one missed any of the records can not pass the exam – this is not an another form of control study.

Practical approach to use LOGBOOK:

Before beginning the courses the student will learn about the range of practical performances that are mentioned in LOGBOOK that is, how he or she has to acquire the performance. After he carried out (he demonstrated) the exercise, he will ask the teacher to record into the LOGBOOK. The record is always made only once (most performances will be presented to students repeatedly). If student goes to a foreign internship the Study Division will give a transcript of the performances for the year of study in English and a procedure for recording is similar.

Students submit LOGBOOK for each exams and state final examination, respectively state rigorosum examinations.

Thank you on behalf of the faculty management to the teachers and students for their cooperation in the field of evidence of students practical skills.

Please any questions regarding the use of LOGBOOK send to e-mail david.marx@lf3.cuni.cz.

Offer from the Rector’s Office

The Rector of the Jagiellonian University of Cracow (Poland) together with the Mayor of the City of Cracow announces a competition for The Józef Dietl Academic Scholarship for the academic year of 2010/2011.

The Scholarships are open to candidates who are postgraduate students in medicine at the institutions of higher education in the countries of Eastern Europe. Applications for the Scholarship should comprise:
- an application letter addressed to the Rector of the Jagiellonian University
- a fulfilled form – a list of his/her academic achievements and publications
- a research programme he/she intends to carry out during the Scholarship in Cracow
- advisable a reference letter from an academic worker of the Jagiellonian University
- a curriculum vitae
- a photocopy of the passport page with a photo.

Scholarships are granted for 12 months (October 2010–September 2011). Applications should be sent to arrive not later than by 15th May 2010, to the following address: Ośrodek Informacji i Promocji Uniwersytetu Jagiellońskiego, ul. Piłsudskiego 8/1, 31–109 Kraków, Polska. Envelopes should be marked “Stypendium im. Józefa Dietla”.

The Fund will send only positive results.
For further information contact: Ośrodek Informacji i Promocji UJ, tel. +48 12 430 10 12, Fax +48 12 430 10 30

Dean of Third Faculty of Medicine

REFORM OF MODULE IA AFTER TWO YEARS – WHAT’S NEW?

Pointing out May 2008 (for those who are not witnesses) when the meeting of those who were teaching Module IA took place and the proposal for reforming it. The result was that the reform had been withdrawn. Since then have almost two years passed and the management of faculty changed, according to available information, as well as their own reform slightly. However, what has changed is the justification. We have already pointed out that the reform may be beneficial only when will be built on substantial analysis of the status quo.

We did not come with anything new, we came out of the standard procedures of each company. Such a procedure consists of three basic steps:
1) an analytical phase – analysis of current curriculum and related areas, identification of problem areas, SWOT analysis, setting the priorities, identifying indicators of evaluation and expected results, benchmarking, decomposition, the formulation of reasons for the change, identification of needs for changes etc.,

2) make a suggestion – how to achieve the priorities in item 1), in what timeframe, how to evaluate their fulfillment, how to remove weak and maintain strong places, how best to meet to occasion, the setting of specific roles and responsibilities and staff, assessment of costs and budget, evaluation of options and the risk of failure, a communication plan, etc. and

3) implementation phase – implementation and ongoing evaluation, modification of the procedure under the pilot results in the selected area, expansion of the pilot area, etc.

We all know that in science is claimed that to achieve the published results is possible only through compliance with procedural rules, i.e. the correct design of the experiment. This is true not only in science but also in legal practice and business. The procedural aspect is equally important if not more important than the substantive. So why ignore it in order to improve Module 1A? Why disregard the current and best practice? Why not to conduct analysis of current status and next steps? Or the analysis was done and the current Module 1A has proved weak in all respects and thus worthy of immediate and radical change?

In other words: we have Module 1A and its goal the integrated study. So far, it clearly failed to achieve (or yes?) it. If not, tell why (analysis) and propose how to meet the target. When it happens the current curriculum of Module 1A may be evaluated and declare whether it needs reform or not. To change the strategy (objective) in the middle of the fight is the way to the hell, it will tell you every good leader.

Šimon Vaculín

LET’S APPLAUD!

The First Tutorial Workshop in Immunology: Natural Immunity and Cancer was held in Prague on April 12th-13th, 2010 with international participation of leading scientists in this field. The conference organized by Laboratory of natural cell immunity (Department of Immunity and Gnotobiology, Institute of Microbiology of the Academy of Sciences CR) and the Czech Immunological Society Ing. Lucie Sedláčková, Ph.D. actively participated in it. Abstract (L. Sedlackova, R. Volchenkov, M. Spacek, T. Kozak, I. Hromadnikova: Expression of heat shock protein 70 and NKG2D ligands in human leukemia cell lines) which originated as a joint work of experts from the Division of Molecular Biology and Pathology of Cells 3rd FM CU and Department of Hematology FNKV was chosen as one of the top ten for the oral presentation.

INVITATION TO THE EXHIBITION

The selection of works of artist Jan Chaloupek is currently installed in the conference hall. There are exposed the works which the book of Dáša Bláhová „The Pacific Fairytales” was illustrated.
You can see through the paintings and book every Wednesday from 14 to 15 o’clock. The room will be available on request to Ms. Jeničková.
Mr. Petr Ivák arranged the contact with the artist and I would like to thank him once again for giving us this opportunity.

Dean of the Third Faculty of Medicine

INTERNSHIP OPPORTUNITIES FOR STUDENTS OF 5TH AND 6TH STUDY YEAR IN SWITZERLAND

Praktikum in der Schweiz

Das Spital Männedorf (ca. 120 Betten) im Kanton Zürich offeriert für eine Medizinstudentin oder -studenten im fünften oder sechsten Studienjahr ein Praktikum von 1-3 Monaten an der Chirurgie ev. auch an der inneren Medizin. Das Spital übernimmt die Unterkunft und Verpflegung, der Student bekommt ein Taschengeld von ca. 400 Sfr. pro Monat (rund 6 800 Kronen). Voraussetzung für das Praktikum ist Beherrschung der deutschen Sprache in Wort und Schrift.

Das Gesuch, verfasst in deutscher Sprache, muss ein Curriculum vitae und eine Begründung für das Praktikum in der Schweiz enthalten. Dem Gesuch wird Leumundzeugnis des Chefarztes der chirurgischen Klinik oder des Dekans beigelegt, sowie eine Bestätigung des Dekanats, dass der Student an der Medizinischen Fakultät in Tschechien studiert. Der Student beteiligt sich aktv an der Arbeit auf der chirurgischen Abteilung und in der Ambulanz im Laufe des ganzen Tages (ca. 7.30-19.00 Uhr), ev. am Nachtw- und Wochenendedienst und passt sich den aktuellen Umständen des Betriebes an. Er lernt die Arbeitsabläufe an der Abteilung, im Operationssaal oder in der Ambulanz kennen.
Die Gesuche sind samt allen erwähnten Unterlagen an folgende Adresse zu richten: Frau Dr. med. Karla Stransky FMH, e-mail k.m.stransky@bluewin.ch oder Herr PD Dr. med. M. Stransky, e-mail m.stransky@bluewin.ch

Doc. MUDr. Miroslav Stránský, Department of Nutrition

OFFER OF THE SCHOLARSHIP

INTERNATIONAL SUMMER SCHOOL at RENMIN UNIVERSITY, PEKING, CHINA

- The programme includes three main categories of courses: China Studies (eg. Chinese politics/economics/culture, etc.); Academic Frontier & General Studies (economics, sociology, engineering, management, humanities); Language Training (Chinese). In total there are 96 courses offered, of which almost 60 are taught by the teachers from the most prestigious universities of the world (eg. Yale University, Harvard University, Cambridge University, University of California, Berkeley);
- The duration of the summer school: 4 weeks
- The Chinese side offers 2 scholarships covering the tuition fee (Tuition Fees), all other costs will be paid by participants themselves;
- Address to students Bc., Mgr. and Ph.D. programmes at Czech universities with very good knowledge of English language;
- Registration and more info: http://iss.ruc.edu.cn;
- The candidates after completing the application form online, send the printed copy (RUC Summer School Application Form) along with all required attachments (CV; cover letter; official transcript of marks, current and previous studies; copy of English language proficiency; confirmation about the study with stamp of school; eventually copy of university diploma; copy of passport with the info about the candidate; 4 photos) by May 14th 2010 address: Ministry of Education, Department of International Relations – China report, Karmelitská 7, 118 12 Prague. ALL MATERIALS MUST BE IN ENGLISH OR MUST BE ACCOMPANIED BY A TRANSLATION INTO ENGLISH LANGUAGE. If more applicants are registered than the number of scholarships awarded, the Ministry will select the application form in cooperation with the Chine Embassy in Prague.
BENTHAM SCIENCE – TRIAL ACCESS TO FULL TEXT JOURNAL WAS EXTENDED UNTIL JUNW 11TH, 2010

You can still try and use the full text journals published by Bentham Science Publishers - free trial has been extended until June 11th, 2010

Third faculty of Medicine has the opportunity from March 11th, 2010 to try a collection of full text journals published by Bentham Science Publishers which covers the STM – the pharmaceutical and biomedical scientific journals. Necessary information (including the possibility of direct and remote access) you can find at Portal of electronic resources (http://pez.cuni.cz/ezdroje/prehled/zdroj.php?id=359&lang=cs). More information including a list of accessible journals is available at the publisher (http://www.benthamdirect.org/index.php).

Department of Preventive Medicine

INTERNATIONAL SUMMER SCHOOL

The project of the 6th EU Framework Programme EU 2-FUN (viz www.2-fun.org) holds in Prague, from 22nd to 25th June, 2010, an International Summer School for undergraduates, students, scientists and researchers. The theme of the Summer School will be "Gnostic Approach to Small Sample Data Analysis" (this will be primarily on environmental and chemical data, but also has applications in economy). The course will be held in English, in computer room (S01), including work with R-software project and S-Plus examples.

Programme: More info about gnostic on www.math-gnostics.com. The organizer will pay lunch and dinner. The participation fee is not required, the participants will arrange their accommodation and travel and this will be paid by themselves. The application form and the flyer you can find on na www.2-fun.org (sekce Events).

Prof. MUDr. Milena Černá
Department of Preventive Medicine

SUMMER SCHOOL JENA

Dear all,

The Rector’s office informed us about the holding of the Summer School on Molecular Medicine which will be held in August-September 2010 in Jena.

### Finding Recorder!

The DIGITAL VOICE RECORDER was found in the lecture room in the building of 3rd FM

If it is missing, please phone on 267 102 177 or to the email address jana.jenickova@lf3.cuni.cz.

### Saving E-Version of Dissertation, Bachelor’s and Doctoral Thesis

Temporary Operation – Valid Only from June 1st to September 28th 2010

**Whom cast from 1.6. 2010 to 28.9.2010**

All the following mandatory required files in the format shall be handed only to Head of CSI PhDr. Martina Hábová, either on CD, e-mail or other portable media.

!!! In any event, in this temporary period, students and supervisors will not save files to SIS themselves, although I configureted the needed functions to SIS and the functions are available. !!!

**What is to be submitted from 1.6. 2010 to 28.9.2010 – concerns only work which were sent or given from this data.**

In connection with the change of the Information system to which the e-versions are stored (SIS), the requirements are also changed – how the delivered files should appear to be broken, in what format should be submitted.

!!! The files must always be identical to the printed version of the dissertation. !!!

For saving in SIS is now required to submit the dissertation in several separate files.

**Required files for students:**

1. One separate file - Dissertation – Word and PDF Format – searchable text
2. One separate file – Attachments – if are. This may include such a programme, software application or scanned attachments (eg. questionnaires, forms, images) – the source format – may not be searchable text. If there are more attachments – send this packed in ZIP format.
3. One separate file – Abstract in English – Word is enough – searchable text – up to 2400 characters – the large number of the characters is not possible to put in SIS, I will cut your abstracts.
4. One separate file – Report by a supervisor – Word or PDF Format or scan – if you have it – we can put it after defence of the dissertation

**In what formats the files should be and should not be**

The condition for the imposition of some texts in SIS – so called searchable text – because the systemThesis will be introduced for control plagiarism. This concerns mainly the own dissertation. The scanned documents can only be set in a separate annex to the work.

The files are handed over in several format:

a) in which the text is written (Word – format doc or docx, for Excel – xls-or xlsx, etc.)

b) the source text in PDF

**When is it handed from 1.6.2010 to 28.9.2010**

The files with the e-version are handed over at least 1 day before the defense (hand work in solid custody – one week before the defense): It is text of the dissertation, the attachments, abstracts in Czech and in English, reports from the supervisor or from the opponents.
When is it entered in SIS

The all supplied files – if you deliver by e-mail or in person to CSI – are entered into a maximum of 1 or 2 days after submission to CSI.

!!!! STRONGLY CONTROL – WHETHER ALL FILES ARE in SIS and in FULL CORRECT

!!!! Due to the problems that some formats are doing by conversion to PDF, please check to be sure, if all saved files are in order and complete. I do not have always noticed some mistakes.
(There may be a mistake in the diacritics in the abstract when copying text, or you disagree with my way of abstract reduction etc.) !!!!

PhDr. Martina Hábová
Head of CSI

From September 29th, 2010

The new faculty coordinator for electronic version of diploma thesis in SIS

STANISLAV STRMEŇ – employee of Study Division

He will specify the rules for new academic year – how the work will be saved.

CSI INFORMATION

LAST CHANCE – take advantage of terminating access to a unique database of pictures, animations, videos, interactive learning materials including interactive tests for students and teachers.

You can still try the unique electronic source Smart-Imagebases from Ebsco Company- supporting interactiv and multimedia material for teaching students or preparing to teach students of English or Czech curriculum. You will find animated videos of various medical disciplines, interactive educational materials including interactive tests, detailed pictures and animations. You can create your own thematic collection. For education it is possible to download multimedia, pictures and animations !!!!

OFFER FROM DŮM ZAHRANÍČNÍCH STYKŮ MŠMT

INDIA

Unilateral offer of training courses in various institutions in India under the ITEC programme

Designed for undergraduates (25-45 years). The Indian government pays all expenses including travel.

Deadline: At least 3 months before the course

ITALY

The Journalist Award Claudio Accardo

Designed for young journalists, students of journalist faculties and other students without restriction of the branch of study

(3 prizes of 4000 euros, one price of 2000 euros).

Deadline: September 10th, 2010

Vita Nostra servis - Informational weekly magazine of Charles University in Prague – 3rd Faculty of Medicine. Designated for the Academic Community. In-house publishing. Edited by the 3. FM, Ruská 87, Prague 10. 150 copies. Freely distributed. The full text edition is posted on the web pages of the 3. FM. The deadline is every Thursday, and is published Monday.
Dear Colleagues,

Like every year in summer time, the Dean’s office prepared for this year’s holiday a larger construction activity – interior modifications of the two staircases in the main building of faculty. Progressively from July 1st, 2010 one staircase will be out of work and one staircase will be operational. Both elevators will be working. Part of the interior stairwell will be the exchange of railings and handrails, new lighting, including emergency, interior modifications of radiators, hydrant boxes and painting the walls. I regret to say, and you also know it from your personal experience that construction activity can not be done without the noisy and dusty process, although we will try to minimize it. Therefore I would like to ask you for your kind indulgence, now in advance. The action will be completed according to the current schedule for transfer and receipt of construction on September 13th, 2010.

Thank you for your understanding.

Ing. Jaroslav Šnajdr
Head of Division of Technical Works and Management

---

1) The Academic Senate of the 3rd FM CU at its meeting held on June 8th, 2010 has stated in accordance to art.1 of the Electoral and Procedural Regulations of the AS CU the following dates for elections of the representatives into AS of the 3rd FM CU for the period from 1.12.2010 to 30.11.2013.

**Elections will be held on November 4th and 5th, 2010.**

2) The Election Commision prepares and oversees the progress of elections. At the meeting of AS 3rd FM CU on June 8th, 2010 the Election Commision was elected in accordance to art.2 of the Electoral and Procedural Regulations:
   a) 3 academic staff and 3 alternates
   b) 3 students and 3 alternates
   c) writer: Jeničková, secretary of AS 3rd FM CU Dean’s office room No.240)

3) In the first round of voting, the members of faculty’s Academic community can propose candidates for members of AS from among members of Academic community from the date of the election (can not be elected: rector, vice-rectors, dean, vice-deans and secretary of the faculty).

Proposals can be made in written form and specifically name, surname, title and workplace (by students study programme) may be submitted in locked boxes at the writer of Election Commision (boxes with the signs for academic employees and for students); or prior to the elections days in the boxes located in the lobby on the ground floor of the dean’s office 3rd FM CU, no later than 5 days before the election, ie by October 28th, 2010.

The boxes are identified separately for students and for academic employees.

4) In the second round of election on November 4th and 5th, 2010 the choice will be done by registering the names of 16 candidates – academic employees and names of 16 students on voting tickets, which both groups of voters receive in voting area.

5) The detailed info for voters will be published in VNS and on the website of faculty before the election.

Doc. MUDr. Milan Kment, CSc.
Chairman of the AS 3rd FM CU
We definitely recommend seeing a new promotional video for prospective students in English language. The video is short, fresh and very funny. You can find it on english website of faculty.

PS: If I did not work here, I would studied here.

ivana Ježková + MaH
Centre of Scientific Information

Fund for Mobility

Dear all,
We would like to inform you about the deadline for application for financial aid from the Fund for Mobility of Charles University in winter semester 2010/2011.
The deadline for submitting application form is on October 14th, 2010 at Division of International Affairs.

Růžena Hrušková,
Division of International Affairs

For Reflection

It is Monday, May 24th, 2010, 11:55 am – a small goal joining the faculty and the hospital premises. Young mother drags a baby buggy after three steps. Behind her – three young men – undoubtedly students of Third Faculty of Medicine.

„You could not help her?”, an old lady with two French clubs asked them. „You could help her alone!“, one of the men said. The old lady probably did not hear it and I hope she did not. What would she have think about „future medical doctors“ !?
I was ashamed for them.

Doc. PhDr. Jana Přívratská,
Ústav cizích jazyků
INVITATION

Cycle: Forgotten anatomists of small European nations
Topic: GRUBER´S AND HYRTL´S DAY

Dear Colleagues,

A commemorative afternoon devoted to the 120th anniversary of the death of the Czech anatomist Václav Gruber and to the 200th anniversary of the birth of the Austrian anatomist working in Prague Joseph Hyrtl

will be held on Wednesday, December 8, 2010 from 2 p.m. at the Syllaba’s hall of the Third Faculty of Medicine, Charles University in Prague, Czech Republic

Address: Ruská 87, 100 00, Praha 10, Czech Republic Language: Czech, English Admission free We call for abstracts related to the topic of basic, clinical and applied anatomy connected with these two personalities and their research as well as topics of history of anatomy and medicine in Europe. Deadline: September 30, 2010 Registration and contact by email to: david.kachlik@lf3.cuni.cz
DEAN’S ORDERS

DEAN’S ORDER No. 17/2010

On dates of the State examinations in the Academic Year 2009/2010

MASTER’S STUDY PROGRAM: GENERAL MEDICINE

Part of the State rigorous examination in Paediatrics

Place: Office of the Head of the Children and Youth Clinic

Date:

| 8.9.2010 | 10.9.2010 |

Max. number of students per day: 10

This order:
- is effective upon issue: 3.6. 2010
- is valid until: 11. 9. 2010
- obeys all internal regulation
- was compiled by the Study Division – L. Zamrazilová

DEAN’S ORDER No. 18/2010

On registration into study for the Academic Year 2010/2011

1) The registration for the Academic Year 2010/2011 shall be held from September 13th to 24th, 2010 from 8.00 to 13.00 at the Study Division(Building No. 19). For individual registration, it is possible to use Jonáš lecture hall during these days.

2) The registration is compulsory for all students, even for those that are travelling abroad as part of exchange programmes such as Sokrates-Erasmus and equally for those that are taking a two years extension limit for completing the state final or state rigorous exam.

3) The registration is valid for all undergraduate study programmes (Bachelor, Master), meaning those studying in Czech, English language, full-time, part-time and is stated as follows:

   - 6th year: September 13th or 20th, 2010
   - 5th year: September 14th or 21st, 2010
   - 4th year: September 15th or 22nd, 2010
   - 3rd year: September 16th or 23rd, 2010
   - 2nd year: September 17th or 24th, 2010

4) The proof of higher education studies(further as „index“) must contain all the completed study requirements stated in the study plan and that including practical experience, optional subject and Bachelor and Theses. Prior to submission of the index, the student is required to check if the information in Student Informative System (further as „SIS“) agrees with his information in the index and print out his study requirements that he must submit for registration at Study Division.

5) Credits for practical experience will be given as follows:
   - mgr. Holubová (for 2nd year): 9.9., 10.9., 16.9. and 23.9.2010 from 8.00 to 13.00 hodin
     at the Department of Nursing, building of the SHS, pavilion X – room No. 415
   - dr. Rambousková (for 4th year): 13.9. and 21.9. 2010 from 8.00 to 13.00 hodin
     at Dean’s office, 6th floor, room No. 622

1
doc. Kneidlová (for 5th year): 13.9. and 20.9. 2010 from 8.00 to 15.00 hodin  
Department of Occupational and Travel Health (FNKV, pavilion I, ground floor)  
On other days are possible upon personal agreement by e-mail: kneidlova@fnkv.cz, or phone:  
267 162 679

dr. Bendová (for 5th year): 13.9. and 20.9. 2010 in Jonáš lecture hall from 8.00 to 13.00 hodin

6) Students that submit for inspection their index with all their responsibilities complete and with the printed paper of study requirements (from the SIS) prior the stated data can come to register at any time, meaning from September 13th to 24th, 2010 from 8.00 to 13.00 independent of their year of study.

7) **Study requirements** stated by the study plan must be **completed** in accordance to the Schedule for the Academic Year 2009/2010 by **28. 9. 2010** inclusive (Essential Study Guide – page 45).

8) The student must bring an Index, a printed copy of study requirements from the SIS and a CU Study Pass.

This order:
- Is effective upon issue: 4. 6. 2010
- Is valid until: 30. 10. 2010
- Obeys all internal regulations
- Was compiled by the Study Division– L. Zamrazilová

**prof. Michal Anděl, M.D., Ph.D**
Dean of the Third Faculty of Medicine

---

**DEAN’S NOTICE**

Dear Head Madam, Dear Head Sir,

I announce to you that the opening of the new Academic Year 2010/2011 is on September 29th, 2010, and the courses begin on October 4th, 2010.

In deference

**prof. Michal Anděl, M.D., Ph.D.**
Dean of the Third Faculty of Medicine

---

**RESULTS OF ENQUIRY**

Dear friends,

Let me introduce to you the results of the survey which we presented to students of 2nd and 3rd year of study at our faculty, in summer semester (14th week), academic year 2009/2010. The department of Biomedical Sciences organized this survey as a contribution to the debate on reform of the curriculum in Cycle I.

Prof. RNDr. Eva Samcová, CSc.
Head of department of Biomedical Sciences

---

**TEACHING of MODULE IB and IA in 1st and 2nd session of study at 3rd FM CU**

Enquiry for students terminating 2nd year of study and 3rd years students in Czech (Č) and English (A) curriculum in ac.y. 2009/2010. 
Completed questionnaires: 196 (73 / 2nd year of study Czech curriculum and 20 / 2nd year of study English curriculum, 83 / 3rd year of study Czech curriculum and 20 / 3rd year of study English curriculum).
Questions and results:

1. **Compare the student teaching load in 1st year of study to 2nd year of study.**

   - Smaller in 1st: 18%
   - About the same: 16%
   - More in 1st: 66%

   * Significantly lower in 1st study year (5%), slightly smaller in 1st study year (13%)
   ** A little higher in 1st study year (27%), significantly higher in 1st study year (39%)

2. **Compare the total volume of teaching matter in Module IB and Module IA.**

   - Smaller in Module IB: 80%
   - About the same: 12%
   - More in Module IB: 8%

   * Significantly smaller (2 or more) vs Module IB (45%), slightly smaller in Module IB (35%)
   ** A little higher in Module IB (5%), significantly higher (2 or more) in Module IB (3%)

3. **How did the teaching of Module IB and Module IA collide in 1st study year (time and concentration)?**

   - Not collide: 11%
   - Collide: 89%

   * Partly collide (56%), significantly collide (33%)

4. **How were the current teaching of Module IB and Module IA manageable for you in 1st study year?**

   - No problem: 19%
   - Demanding: 81%

   * Pretty challenging (76%), demanding and unmanageable (5%)
5. Your own opinion on the temporal sequence of teaching Module IB and Module IA.

Module IB should precede Module IA *
Module IB and Module IA can be taught simultaneously
Module IB should follow after Module IA **

* M. IB should clearly precede M. IA (55%), M. IB would probably be preceded by M. IA (25%).
** M. IB would probably be followed by M. IA (2%), M. IB should clearly follow M. IA (0%).
DEAN’S ORDER

OFFER FROM THE RECTOR’S OFFICE

Dear colleagues,

I am writing to you on behalf of the Special and Extension Programs at the Central European University (CEU) in Budapest, Hungary for the purpose of inviting you to participate in the upcoming Workshop on "Fundraising Challenges and Strategies for Universities" of the CEU Higher Education Policy and Management Workshop Series 2009-2010. The workshop will take place July 19th-22nd and presents an excellent opportunity for university administrators and academic leaders, so we hope you will be able to join us as a participant and to spread the word among your colleagues and other professional contacts.

Details about the content of the workshop, the facilitators, and the registration procedure and deadline can be found at http://web.ceu.hu/sep/spo/hep.html I would also be happy to send you this information in PDF format for distribution upon request. Please keep in mind that the deadline for registration is June 28th, 2010.

CEU is an internationally recognized institution of post-graduate education in the social sciences and the humanities that has been providing trainings for university professors for more than 10 years. Since 2006, we have extended our training offers to those working in administration and academic leadership. We are accredited in the US and Hungary, and are a Carnegie Leadership Institution for Teaching and Learning.

*Life is not measured by numbers but by heart*  
*K. Čapek, Ratolesť a vavřín*

The staff of the Department of Epidemiology would like to express their thanks for long-standing cooperation to **MUDr Marina Maixnerová, CSc.**

Dr. Marina Maixnerová worked in our department almost 50 years. Under the leadership of doc. MUDr. B. Burianová, CSc, she devoted to the diagnosis and epidemiology of pertussis. After leaving Mrs.lecturer she became the Head of the National Reference Laboratory for pertussi and parapertussi. She investigated thousands of children with whooping cough syndrome and has become a recognized expert in this field. She participated in an international project verifying the effectiveness of vaccines against pertussi. She processed serological surveys, implemented an advisory service for diagnostic laboratories. She actively participated in a number of scientific conferences and published the results of scientific activity.

Since beginning of her career she selflessly devoted to teaching students of Master’s and Bachelor’s programmes, as well as young doctors in advanced courses in the Pastgraduate Medical Education, she led countless of diploma and bachelor theses. As a co-author was involved in the issue of teaching script.

Our colleague Dr. Marina Maixnerová was more than good, dedicated and reliable.

Thank you Marina and we wish you good health, happy and full of days at home or cottage.

*Staff of the Department of Epidemiology, 3rd FM CU*

Solemn Graduation Ceremony shall take place on July 8, 2011 in Magna Aula of Carolinum.

Rector’s Day: 18 May 2011

Dean’s Day: 20 October 2010

DEAN’S ORDERS

DEAN’S ORDER No. 21/2010 On dates of the State examinations in the Academic Year 2009/2010

MASTER’S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Surgical Fields
Place: Department of Surgery FNKV Date: 1. 9. 2010 Max. number of students per day: 10
Part of the State rigorous examination in Preventive medicine  
Place: Dean’s office, 1st floor, room numer 223  
Date: 2. 9.2010, 3.9.2010  
Max. number of students per day: 10

Part of the State rigorous examination in Internal Medicine  
Place: students will be devided according to the breakdown at the 2nd internal clinic on the day of the exam  
Date: 30.8.2010, 31.8.2010  
Max. number of students per day: 6

Part of the State rigorous examination in Gynaecology and Obstetrics  
Place: Office of the Head of the Gynaecology and Obstetrics Department  
Date: 13.9.2010  
Max. number of students per day: 14

This order:  
- is effective upon issue : 15. 7. 2010  
- is valid until : 16. 9. 2010  
- obeys all internal regulation  
- was compiled by the Study Division – L. Zamrazilová

DEAN’S ORDER No. 22/2010  
The procedure for appointing school duties in the next section of study (year)

Article 1  
Subject matter  
This order provides a procedure for appointing school duties in the following section of study (year).

Article 2  
Student Procedure  
1) Student who wishes to study obligations of section of study (year of study) and takes on one or more of study requirements in the following section of study (year of study) is required on a written request the Vice-Dean for Undergraduate Education and Student Affairs.  
2) Request for inclusion of the study requirements must contain the consent of the Head of the Course which student takes in this process. In granting consent the head teacher considers the rational continuity of teaching each subject, the capacity options for teaching this subject, or the capacity options for the control of study.  
3) The application form for inclusion of the study requirements with the observations from the preceding paragraph, will be submitted by student to Vice-Dean for Undergraduate Education and Student Affairs, at least two weeks before the teaching of the subject.  
4) After the application is approved, the student writes the relevant study obligation to the Study Credit Book and Registration Card at Study Division.  
5) The Study Division informs the Head of Department about approval of the student’s application for inclusion of the study requirements by e-mail. The Head of Department and teacher of the subject is also informed about the number of students who entered the subject through SIS – the application Result of Exam.

Article 3  
Final Provisions  
1) This order obeys all internal regulation.  
2) This order is valid from 1.9.2010

Was compiled by MUDr. D. Marx, Ph.D., Vice-Dean for Undergraduate Education and Student Affairs  
prof. MUDr. Michal Anděl, CSc.,  
Dean of the Third Faculty of Medicine

ESSENTIAL STUDY GUIDE FOR ACADEMIC YEAR 2010/2011

All students can download new electronic version of Essential Study Guide and List of Departments 3FM - Karolinka) for new academic year 2010/2011 in English language > Faculty > Documents from Applicants and Students
Note: The printed version is slightly different from the electronic version which is subsequently updated. We apologize for the errors in the printed version, most of these are additional contact information and corrections in the calendar for the academic year.

PhDr. Martina Hábová
Head of Centre of Scientific Information

VADEMECUM — GUIDE FOR NEW STUDENTS

For students and staff is available to download electronic version of Vademecum (The guide for the new students) for new academic year 2010/2011 in Czech and English language.

You can find it in pdf and doc - > Fakulta > Prezentace, propagace > Vademecum pro 1. ročníky”.

The printed version is intended only for Study Division which will distribute it to student of the 1st study year in Dobronice or at other events associated with the presentation of study at 3rd FM

PhDr. Martina Hábová
Head of Centre of Scientific Information

OPTIONAL COURSE — EMERGENCY MEDICINE

Fifteen 2 hour classes include the theoretical and practical training in the emergency cases through all medical branches. The training will present e.g., the intubation, intraosseous needle application as well as the lecture on Mass Casualties Management. All the tutors are actively practicing emergency medicine doctors. The course will be held in the winter or summer term – for students of 5th and 6th study year.

Number of participants is limited, sign up as soon as possible.

For more information, please contact Dr. Kristina Höschlová (HoeschlovaKr@post.cz)

DEAN’S ORDER

DEAN’S ORDER No. 24/2010
On dates of the State examinations in the Academic Year 2009/2010

MASTER’S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Preventive Medicine:
Place: Dean’s office, 1st floor, room number 223
Date: 30. 9. 2010

Max. number of students per day: 10
This order:
• is effective upon issue: 7. 9. 2010
• is valid until: 1. 10. 2010
• obeys all internal regulation
• was compiled by the Study Division — L. Zamrazilová

ELECTIONS INTO THE ACADEMIC SENATE OF 3RD FM CU IN 2010.

Elections of the representatives into the Academic Senate of 3rd FM CU (further as AS 3rdFM CU) for the period 2011 – 2013.
Elections were declared by the current AS 3rd FM CU at its meeting on June 8th, 2010.

AS 3rd FM CU consists of 32 senators, members of the faculty’s Academic Community. The representation of students and other members of the AC is parity, the term of office is three years. The members of the Student Association of AS 3rdFM CU are representatives of all branches of study, staff members are educators and other members of the faculty’s AC. The elections of each chambers are carried out separately on the same day.

Academic Senate among other things:
- decides on the establishment of workplaces,
- approved:
  • internal regulations,
  • budget,
  • conditions for entrance examinations,
  • long-term plan for education, scientific and research activities of faculty,
- monitors the financial resources of the faculty,
- comments on the draft of curriculum,
- elects a candidate for the Dean of the faculty.

The meetings are held monthly, are public and the minutes of meetings are published on the website of the faculty.

Elections will be held on November 4th and 5th, 2010.
  a) candidates of academic staff will take place in room no. 223 of the Dean’s Office,
  b) candidates of the student group will take place at the foyer of the main faculty building.

1st round of voting: Nomination of candidates for member of AS 3rdFM CU
proposals in written form (legibly):
  a) academic staff: first name, surname, degree, workplace;
**Rector’s Award for the Year 2009**

In May, the ceremony of the Rector’s Award of CU was held for the best scientific publication in 2009.

In medical-pharmaceutical branch, the price received **doc. MUDr. Jiří Beneš, CSc.** and his team for the book *Infectious Medicine* (published by Galén).

In the field of science and mathematics-physics it was prof. **RNDr. Bedřich Moldan, CSc.**, the writer of monograph *The Subdued Planet* (published by Karolinum).

In the fields of socialscience the prize went to a monumental historical synthesis of the team of authors led by Prof. **PhDr. Petra Sommera, CSc., DSc., PhDr. Dušana Třeštíkova, CSc., Prof. PhDr. Josef Zemlička, DrSc.: Přemyslovci. Building of Czech state* (published by Lidové noviny).
BLACKOUTS OF COMPUTER NETWORK AND PHONES IN GROUNDFLOOR OF DEAN’S BUILDING AND BUILDING NO. 19

In connection with installation of new wireless networks, the losses will be done on server obd.lf3.cuni.cz, www.lf3.cuni.cz a idm.lf3.cuni.cz this Friday (24.9) between 2:00-5:00 pm.

On Monday 27.9.2010 after 8:00 am the disconnection of distributor box will be done in groundfloor of Dean’s Building, which causes the disconnection of Internet and phones in groundfloor and disconnection of phones in Building no.19, the Internet will be maintained. The recovering of Internet and phones will be gradual during the afternoon, we estimate no later than 5:00 pm.

ing. Antonín Dvořák, Computer Services Centre

RECONSTRUCTION OF WIRELESS NETWORK EDUROAM

In connection with the installation of new wireless technologies for network Eduroam, the existing equipment and network Eduroam is dysfunctional from last week. The launching of new technology is planned on the beginning of new Ac.year.

ing. Antonín Dvořák, Computer Services Centre

CSI INFORMATION— TRY IT!!!

For all FM CU and FaF CU was set up the trial access to the database from Elseviera - MD Consult. More info can be found at PEZ: http://pez.cuni.cz/ezdroje/prehled/zdroj.php?lang=cs&id=541
Here you will also find a link for a direct access to the IP add. of 3rdFM and link for remote access from your home or elsewhere (outside the faculty’s IP add.).
The condition of remote access is as always „Staff” or „Student” card of 3rdFM whose number (below photo) serves as the user name to access, another condition is valid password.

We have trial access until the end of this year, 31. 12. 2010.

MD Consult offers a quick access to relevant information for physicians. The access is to 50 main reference manuals, journals. Also contains info for patients, about medicines, guidelines and pictures from books. The searching is available in all mentioned documents.

The users can create their personal account, which allow customization of services and access from anywhere. The first registration is needed from IP-address of workplace.

Miroslava Plecitá, CSI

INFORMATION ON PAYABLE LANGUAGE COURSES AT 3RD FM CU IN WINTER SEMESTER 2010/11

Also this academic year the department of Foreign Languages will offer these payable courses for faculty students and other interested:

- German
- French
- English Medical Terminology with a native speaker
- Advanced English – preparation for international FCE exam
Czech for Foreigners

The language level of scheduled courses: from beginners to advanced (placement into courses can be consulted at the DFL). The advanced courses are directed for medical language.

Amount of students per group: min. 5, max. 10.
Teaching: 2 hours/week, or 26 hours/semester (it is assumed that students will continue with their course in the summer semester)
Course fee: 2300,-CZK / 1 semester

All application forms will be accepted by the DFL until 30.9. 2010 at the below stated contact info.
The date of the courses will be stated at the beginning of the semester (until 7.10.) upon the agreement with the lectures and students. The regular courses will be held in the Department of Foreign Languages in the building of Secondary Nursing School, Ruská 91 (entry from Hospital area, Pavilion X, 4th floor).

Ofer of the Extramural Internship in 6th Year

The faculty management under the terms of preparation for redevelopement of the study system, which should start in 2011/2012, started to negotiate the opportunity to complete an internship in the state final fields of the 6th year (internal medicine, surgery, gynecology and obstetrics, pediatrics) at major sites outside of Prague. The idea of leadership of our faculty is that we would like all our students in preparation for the final exam spend at least a part of their instruction in a major regional hospital, a smaller departmental one or in an explicitly small hospital. The aim is to get students closer to practice, from academic teaching to the place, where they will join young starting doctors and try, what is waiting for them next year. The contracts we have already signed - Hospital Liberec, Klaudián hospital Mladá Boleslav, Hospital Pelhřimov, Hospital Ostrov nad Ohří, Hospital Ústí nad Labem- (the negotiations are under way with Hospital Kolín, Hospital Mělník and Hospital Tábor, we also have approached Hospital Čáslav, Hospital Nymburk, Hospital Brandýs nad Labem), have the character of an exclusive cooperation agreement, which allows our students to complete the practice in school year 2010/2011. The possibility of board and lodging has been prenegotiated in all hospitals. If interested please contact us in September.

David Marx, Vice-Dean for Undergraduate Education and Students Affairs
Valér Džupa, Vice-Dean for Cooperations with Medical Facilities

Student Counselling Centre

    psychosomatic disorders
    eating disorders and other conditions

Stress management programme for university students (Czech and English version on the Faculty website - http://www.lf3.cuni.cz (Study Information – Health Care and Social Matters - Student Counselling Centre at the Department of Child and Youth Health) or on http://www.szu.cz/poradna/uspesnystudent/

MUDr. Dagmar Schneidrová, CSc.,
**Connecting to the Wireless Network Eduroam**

From October 1, 2010, the new wireless network Eduroam is working on the faculty, students and staff of the faculty can join in. To connect, you must primarily set up the password for Eduroam which is set to https://ldap.cuni.cz/ "Password for Eduroam". Login name for Eduroam is your personal number under photo on ID card: @cuni.cz - např. 12345678@cuni.cz

The wireless network must be set up on WPA (WPA - enterprise), TKIP. The certificate authentication servers can be turned on, in that case you install public key of security certificate Cesnet CA to trusted root of certification authorities. CA certificate can be downloaded on CESNET/ http://www.cesnet.cz/pki/certs/cesnet-ca.cz.pem.crt.

The detailed procedures for setting up wireless network on different operating systems are available http://uvt.cuni.cz/UVT-75.html, or visit eduroam.cz.

If you have any troubles, please contact staff of Computer Services Centre.

*ing. Antonín Dvořák, Computer Services*

---

**Elections to the Academic Senate — Selection of Guidelines**

| Guidelines for elections of candidates for members of the Academic Senate of the Third Faculty of Medicine CU for the period from 1.12. 2010 to 30.11. 2013 |

1) Date of elections:
   1st round — nomination of candidates from 8.6.2010 to 28.10.2010
   2nd round — elections will be held on Thursday 4.11 and on Friday 5.11. 2010, from 9:00 to 15:00.

2) Place of elections:
   Elections of academic staff and students staff will take separately.
   Elections of the student group of the Senate will take place **at the foyer of the main faculty building**.

3) Voters:
   Voters are **members of the Faculty Academic Community**. Two groups of voters: students and academic staff

4) Candidates:
   Will be voted 16 candidates from among students (two in all fields of study and another by the number of votes).

   **First round of elections**

   5) Nomination of candidates for members of the AS:
   Members of AC may nominate candidates from the date when the elections were called and no later than five days before the date of elections (from 8.6.2010 to 28.10.2010 till 15:00), in a written form.
   Proposals of candidates will be thrown into locked boxes.
   **There are two respective boxes for nominations of academic staff and students placed on the table at the foyer of the main faculty building.**

   Nomination must state:
   **by students**: first name, surname, year and programme of study (and possibly a contact phone/mail).
   The nominations of candidates do not sign up.

   **Second round of elections**

6) Elections of the Academic Senate of the Third Faculty of Medicine CU.
   On second round of elections (4. a 5.11.2010) The Election Committee will produce two lists of candidates for academic staff and students. The list of candidates will be available in the election room.
The Election Committee shall ensure the lists of eligible voters, prepare the venue of elections, ballot boxes, ballot papers (colour coded for students and academics) and ensures the conditions for balloting. The ballots will be marked with the stamp of 3rd Faculty of Medicine CU.

The competent voter shall receive a ballot paper from the Election Committee and will write no more than 16 names and code numbers of the candidates from the respective group.

The voter shall then cast the market ballot into the respective ballot box.

The Elections Committee (separately students group and academics) makes sum of votes for individual candidates, declare the results and makes a protocol signed by all members of EC.

7) Repetition of elections:
If any of the lists of candidates (candidates from the rank of students, employees list of candidates) contains less than 16 names, the elections shall be repeated within 10 days.

If the turnout of the members of the Academic Community is lower than thirty percent, the elections shall be repeated within 10 days (art.1, part2 Rules of Elections)

Jana Jeničková, secretary of AS

SCHOLARSHIP INTERNSHIP ABROAD BASED ON INTERNATIONAL AGREEMENTS FOR ACADEMIC YEAR 2011/2012

Dear All,

We would like to inform you about current offers of scholarship abroad for students and members of academic staff of Charles University in Prague based on international agreements.

Further detailed info about scholarship are available: www.dzs.cz 9House of Foreign Affairs MŠMT ČR).

The scholarship is not specified to particular universities abroad. It is assumed that the participants will find the contact they are interested in. It is recommended that at the time of application, those who are interested have made contact with the appropriate workplace abroad.

The scholarship are indicated for students of Charles University in Prague. The chosen applicants should continue to be such students even during their scholarship abroad.

Those interested must submit(1 original and 1 copy) of the following documents:

1. Application form for the proposal/request for the scholarship;
2. Study focus;
3. Grade point average

The electronic evidence system was established for submitting a proposal, so the applicants fulfill the appropriate form electronically at the Internet web page: www.dzs.cz (Reference- AIA- Scholarship internship abroad based on international agreements – quota information).

The completed application forms and other documents needed must be sent to – Division of International Affairs 3rd FM CU to the following deadlines:
Up to 14. 10. 2010: Finland,
Up to 16. 11. 2010: Portugal,
Up to 2. 12. 2010: China, Egypt, Croatia, Ireland, Island, Italy, Luxembursko, Macedonie, Russia, Greece, Slovenia, Sweden

SCHOLARSHIP INTERNSHIP

Scholarship for a semester by the Hermann and Else Schnabel Foundation at the University of Hamburg for the summer semester 2010/2011

The partnering University of Hamburg is offering a four-month long scholarship stay for the summer semester in the academic year 2010/2011, for pre-graduate and postgraduate students of Charles University as a part of an interuniversity agreement.
The scholarship is designed for: students in upper years of study and postgraduate students of all study areas with exception to dentistry. 

Scholarship length: 4 months - summer semester 1.4.-31.7. 
Scholarship amount: 715,- to 750,- EUR monthly. 
Quota for the summer semester 2010/2011: 2 scholarships.

The application deadline to Division of International Affairs, 3rd Faculty of medicine: Until November 25th, 2010.

The faculty’s divisions of International Affairs will precede the application forms in the stated order to the CU Chancellor’s Office „Division of International Affairs“ where the final selection procedure will occur.

Records to be submitted with scholarship application:
- Completed form “Bewerbung um ein Stipendium im Rahmen der Partnerschaft”
- 1 photo
- Aim od study (Letter of motivation) in Czech and German
- Confirmation of good fluency in German language+
- Structured CV in German language
- Summary of Study results
- Confirmation of acceptance into Ph.D. studies, copy of diploma and grades from the final examinations (specialy Ph.D. students)
- Letter of recommendation from a university professor at CU
- Letter of acceptance from a Hamburg University professor (for Ph.D. students it is requirement, for students it is not necessary)

Ad+ Ph.D. students can prove English proficiency, basic German language is welcome.

All records to be submitted with scholarship application in two copies – one as originals, second as a copy of the original. The selected applicants will be invited to complete the application form of the University of Hamburg and to submit a copy of their European Health Insurance Card.

**Diploma Theses – the full version are already in the SIS**

All diploma theses which had been sent to SVI or given to the Head of CSI PhDr. Martina Hábová were saved into the SIS from 1.6. 2010 to 10.10.2010 for all study branches from academic year 2005/06 to 200/10.

The diploma theses for the academic year 2009/2010 are saved -with some minor exceptions- completely with reports. The most reports from the previous academic years were not available. Some work is completely missing. Now it is possible - after logging into the SIS by the name of the student or in the application Themes of the Theses- to explore the full texts of the diploma theses – both defended and still undefended – which were sent to the SVI before the planned defence and potentially the reports.

A teacher could see the diploma theses in the full text after logging into the SIS. A student – after logging into the SIS- can see only his own diploma thesis which he has worked or still is working on including pot. reports.

The number of theses which are inserted into the SIS in addition

**Diploma Theses**

<tr>
<td>delivered e-versions and inserted into the SIS</td>
</tr>
<tr>
<td>undelivered from the graduates</td>
</tr>
</tbody>
</table>
In the late October this agenda will be completely transferred to the faculty coordinator for VŠKP Mr. Stanislav Strmeň and simultaneously to the Head of Study Division Mrs. Alena Vlasáková whose departamento will be responsible for this agenda in accordance with the valid Dean’s Order. It means that the students themselves will save their theses into the SIS before the defence as well as the teachers themselves will insert their reports directly into the SIS before the defence.
Administration success! 😊

PhDr. Martina Hábová
Head of CSI

INVITATION OF THE DEPARTMENT OF ETHICS

Dear students, especially from the 2nd year, the Department of Ethics would like to invite you to participate at an excursion Auschwitz/Birkenau 2010 26/11 - 28/11

Dear All,

we would like to invite you to join us to visit Krakow and Auschwitz in Poland as a part of humanities and ethics seminars this semester. We shall travel to Krakow for the weekend of November 26-28, 2010, and included in the fee (1800 Kč) is travel by bus, accommodation in Krakow’s Momotown Hostel with breakfast, and the entrance fee for the Auschwitz/Birkenau Memorial and Museum. There will be plenty of opportunities for socializing and Krakow sightseeing.

Schedule

Friday, November 26, 2010
14.00 departure from the Faculty building
21.00 arrival to Krakow,

Saturday, November 27, 2010
visit to Auschwitz/Birkenau Memorial and Museum
lecture of Medical Crimes. The Experiments in Auschwitz - lecture- Alicja Białecka followed by discussion
return to Krakow - evening in the city - castle, Klezmer, pub - whatever...

Sunday, November 28, 2010
Krakow sightseeing
12.00 departure from Momotown hostel
19.00 arrival to Prague

The overall fee (bus, hostel and breakfast, entrance fee to the Memorial) should not exceed 1800 Kč. Your responsibility for the journey is valid passport and valid Visa for Poland (non-EEA countries). N.B. As this is not an official University-sponsored event, you are responsible for your own health/travel insurance. For further information please contact Dr Marek Vacha, Ethics Department.

For application please email to Krakow2010@seznam.cz; Marek.Vacha@lf3.cuni.cz, tel: +420 777 24 23 97

Marek Vácha
IDepartment of Ethics

LET´S APPLAUD

On 7th October 2010 at the 10th Traumatology Days in Rožnov pod Radhoštěm Doc. MUDr. František Vyhnánek, CSc. was awarded the Commemorative medal of doc. MUDr. Kamil Typovský, CSc. for his lifelong effort dedicated to the development of the trauma surgery in the CR by the Czech Society for Trauma Surgery ČLS JEP.

Congratulations!

prof. MUDr. Michal Anděl, CSc.
Dean of Third Faculty of Medicine

NOTICE TO STUDENTS OF 5TH AND 6TH SECTION OF STUDY MASTER’ S PROGRAMME – GENERAL MEDICINE

In connection with the cancellation of theses on September 30, 2010, we draw students’ attention to the obligatory seminar paper, which is a practical component of a partial state rigorous examination in preventive medicine. Guidelines for the seminar paper are available on the website of the faculty and in the SIS.

At the same time, we express thanks and appreciation to all faculty teaching staff and external supervisors for their professional knowledge, time, and willingness which they have devoted to the guidance of diploma theses.

Department of Preventive Medicine

prof. MUDr. Milena Černá
Dear Students,

We turn to you as the representatives of contemporary students, our research team is dealing with health related issues, lifestyle and personality characteristics of university students. The investigation is part of a national research project „Cognitive prerequisities of health supportive behavior“, supported by Czech Grant Agency. The projects involves several universities in Czech republic and its aim is to obtain systematic comparative data on the relationship with oneself, to health and behavior focusing on health care by as many people.

We ask you in this way to fill in a questionnaire, which along with other information can be found at: http://www.psu.cas.cz/vyzkum/zdraví/

Completing the questionnaire will take about fifty minutes. For the success of research is very important that you complete the whole questionnaire. As a reward for your cooperation we will send you results of your personality questionnaire after processing all obtained datas. The first output are expected in early 2011 and you will be informed of their publication.

The research team thanks you for your time and energy.
PhDr. Jaroslava Dosedlová, Ph.D. Doc. PhDr. Vladimir Kebza, CSc. 
PhDr. Zuzana Slováčková, Ph.D. Státní zdravotní ústav Praha
Mgr. Helena Klimusová, Ph.D. 
Psychologický ústav, FF MU Brno

OFFER OF SCHOLARSHIPS

Dear All,

We would like to inform you about current offers of scholarship abroad which we received from Akademické informační agentury:

GERMANY- scholarship DAAD

- Research grants for doctoral students and young scientists
- research stays for university teachers and researchers
- A new invitations for former grantees
- Scholarships for graduates of all disciplines
- Grants facilitating the participation in summer language course
- Scholarships for artists

Deadline: November 15th 2010
Additional information can be obtained on: http://www.zahranici-stipendium.cz/scripts/detail.asp?id=176

GERMANY – Scholarship of Mummerté Foundation

- To study the technical, economic, scientific fields and disciplines related to tourism
  Scholarships are intended for future managers.
Deadline: November 1st 2010 (application form will be sent to Germany)
Additional information can be obtained on: http://www.zahranici-stipendium.cz/scripts/detail.asp?id=3570

SWITZERLAND

- A nine-month scholarship for students of master’s and doctoral’s degree programmes.
Deadline: October 31th 2010
Additional information can be obtained on: http://www.zahranici-stipendium.cz/scripts/detail.asp?id=180
INVITATIONS

Invitation for participation in the international course Interdisciplinary Programme on Chronic and End-of-Life Care

Department of Nursing 3rd Faculty of Medicine together with partner institutions in Belgium, the Netherlands, Norway, Estonia, Lithuania, Greece and Portugal held an intensive course on Chronic and End-of-Life Care. The course, which will be held in Belgium – Gent/Dworp in the date January 23-February 4, 2011, is intended for students of the 2nd and 3rd year of full-time study and for students of all years of combined form of nursing and physiotherapy. The course is held in the English language. Programme of the course focuses on bio-psycho-social and spiritual aspects of living with chronic illness. Particular emphasis is placed on the treatment of chronic pain, communication and ethical aspects of end-of-life care. The programme also includes tours of medical facilities and workshops of alternative methods which can be used in the care of chronic patients. This course includes social events organized by students Artevelde Hogeschool in Gent.

The main supervisor of the course covers 70% of the travel costs for students. During the course students will pay 150 EUR, which covers the costs for accommodation, meals, training materials and other activities. Five students of the 3rd Faculty of Medicine can participate. After completing the course students will receive 3 ECTS credits.

For more information contact Mgr. Jana Hefmanová, Department of Nursing. In case you are interested in the course, please send your name and contact to jana.hermanova@lf3.cuni.cz.

2nd European Transcultural Nursing Association Conference

“Let's learn together, let's work together: Challenges and solutions for Transcultural health and social care”

30th June & 1st July 2011
University of Limerick, Ireland

The Department of Nursing and Midwifery at the University of Limerick, Ireland are pleased to announce the 2nd European Transcultural Nursing Association conference.

This conference invites all health and social care professionals with an interest in the area of transcultural health and social care practice, policy, education and research.

The themes of the conference are:
- Transcultural care and multidisciplinary teams
- Globalisation, European mobility and transcultural care
- Innovations in cultural competence in health and social care practice
- Innovative methods which promote intercultural education

Keynote speakers include:
- Professor Rena Papadopoulos, Middlesex University, England
- Dr. Joseph Betancourt, Associate Professor of Medicine, Harvard Medical School
- Professor Dr. David Ingleby, Utrecht University, The Netherlands

### Module of Preventive Medicine—Seminar Papers

Since the academic year 2010/2011 the State Final Exam in Preventive Medicine will include a practical part—seminar paper (former diploma work).

- **Department of Preventive Medicine is guaranteed** to work on listing of the seminar papers. They set out the way of printing, the choice of topics, recording and storage of printed and event electronic form.

#### Evidence of topics of seminar papers in SIS - withdrawn

- Topics of seminar papers are not already registered in SIS and therefore no longer will be possible to pick through SIS and their full texts will not be stored in SIS.
- **Note: Former Diploma work which are registered in SIS and were not defended by the a.y.2009/2010, will be removed from SIS by Study Division.**

#### Seminar Paper

- For a formal presentation of seminar paper you can use a formal template that was suggested for the former thesis.

#### Submission of Seminar paper

- The Seminar paper both in printed and electronic version should be submitted 1 week before the defense to the **Department of Preventive Medicine** (Ústav zdraví dětí a mládeže, Mrs. Jana Štěrbova, building no. 19, 2nd floor, room no. 314).
- The Seminar paper is a part of the State Final Examination in Preventive Medicine.
SWITZERLAND – EXCHANGE

The Rector’s Office sent an offer on an exchange visit in a.y. 2011/2012 under the interuniversity agreement with Université de Genéve, Switzerland (winter and summer semester, for CU students is 1 place available).

The selection procedure: students will submit CV in French language (with current contact e-mail, mobile), cover letter, study plan, recommendation letter from the Department, official transcript of the study results (in Czech or English with the average degree) and a proof of language proficiency. In nomination letters please indicate study year and programme of study. Deadline of application for 3rd FM (Division of International Affairs) by December 14,2010. More information: http://www.cuni.cz/UK-226.html

LET’S APPLAUD

Several families affected by floods in southern Bohemia, as well as Sue Ryder Foundation Charity in Orague would like to thank Scott Keel and generous students of English curriculum at 3rd FM CU. During the month of September they gathered the winter clothing. This material collection was donated to several charitable organisations in Prague and distributed to affected families in Czech Republic.

We thank the students of English curriculum for their help!

HISTORICAL NOTICE

November 13, 2010
Walks on the 3rd OLŠANSKÉ CEMETARY

MUDr. Pavel Čech, Kabinet dějin lékařství
International Non-smoking Day is celebrated annually on the third Thursday in November based on the initiative of the International Union against Cancer. The first Non-smoking Day was organised by Lynn Smith in 1974 in Monticello, Minnesota. In the Czech Republic it has been celebrated since 1992.

This year this significant day with the motto „Leave the cigarettes at home“ accounts for Thursday 18th November. International Non-smoking Day is especially the opportunity to remind smokers the fact that smoking is not harmful only to their health but also damages the health of their loved ones.

Smoking is proven to contribute to the emergence of 25 serious illnesses. The average smoker shortens his life for about 15 years.

70% of smokers would like to quit and more than half of it at least once unsuccessfullly tried it. Research and studies show that most of these who just wanted to stop smoking with the help of their strong will, failed. Smoking is a disease that causes mental and physical addiction. Nicotin is a regular drug and its withdrawal causes physical and psychological withdrawal symptoms which affect relapse to smoking. Currently there are several possibilities of pharmacotherapy and psychological processes that are able to suppress withdrawal symptoms and give the smoker much more greater chance of lifelong abstinence from smoking.

Since September the counseling center for smoking cessation has been operating in the Student Counseling Center in the 3rd medical faculty. Leave the cigarettes at home and come to us for advice on how to stop smoking forever. The Counseling Center is open every Friday from 11 am to 1 pm after ordering by e-mail: odvykanikoureni@centrum.cz.

Mgr. Tereza Kopřivová Herotová
Student Smoking Cessation Clinic
DEAN’S ORDER No. 31/2010

On dates of the State examinations in the Academic Year 2010/2011

MASTER’S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Neurobehavioural Science:
Place: Dean’s office, 1st floor, room numer 223
Date:

|------------|----------|---------|----------|----------|

Max. number of students per day: 15

This order:
• is effective upon issue : 2. 11. 2010
• is valid until : 28. 9. 2011
• obeys all internal regulation
• was compiled by the Study Division – L. Zamrazilová

Prof. MUDr. Michal Anděl, CSc.,
Dean of Third Faculty of Medicine

NABÍDKA Z REKTORÁTU

The Rockefeller Foundation Bellagio Center brings together people of diverse expertise and backgrounds in a thought-provoking, collaborative environment to promote innovation and impact on a wide range of global issues. The Bellagio experience fosters a robust exchange of ideas between scientists and artists, theorists and practitioners, those who make policy and those who are affected by it. Located in northern Italy, the Center infuses unorthodox thinking into searches for solutions to critical social, political, health, environmental and economic challenges.
We support innovations and collaborations that change the way we solve global problems.

Residencies for Scholars, Artists and Practitioners: The Bellagio Center provides a platform for developing new ideas and solutions to some of the most difficult global problems. Residencies allow for disciplined work and collaborative action on these issues, uninterrupted by the usual professional and personal demands. Bellagio residents include scholars, scientists, artists, journalists, writers, non-governmental organization practitioners and policymakers from around the world. Collegial interaction with other residents is an integral dimension of the Bellagio experience. During special dinners, residents often interact with participants in international conferences hosted in various buildings on the Center’s property. The Center also offers collaborative residencies for two to four people working on the same project.

Length of Stay: Residencies last four weeks.

Accommodations and Travel Assistance: Residents are provided a private room with a bath and a study/studio, either adjoining the bedroom or on the grounds. Internet access is available free of charge in all bedrooms and most studies. A small library includes basic reference books and online research tools. Spouses/life partners may accompany the resident. Room and board are provided to all residents, but they are responsible for their airfare and local transportation to and from Bellagio. However, the Foundation does have a limited travel assistance program, based on income level of invited residents.

Examples of recent residency projects:

- Money Matters: The Economic Dimensions of the Peace Process
- The Deaths of Photography

Deadlines for scholar and creative arts residencies are the first week of December and May respectively. For exact dates, visit www.rockefellerfoundation.org/bellagio-center. Applications for practitioner residencies are accepted on a rolling basis.

Vita Nostra servis - Informational weekly magazine of Charles University in Prague – 3rd Faculty of Medicine. Designated for the Academic Community. In-house publishing. Edited by the 3. FM, Ruská 87, Prague 10. 150 copies. Freely distributed. The full text edition is posted on the web pages of the 3. FM. The deadline is every Thursday, and is published Monday.
DEAN’S ORDER NO. 33/2010

On dates of the State examinations in the Academic Year 2010/2011

MASTER’S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Internal Medicine
Place: students will be divided according to the breakdown at the 2nd internal clinic on the day of the exam
Date: 7. 12. 2010
Max. number of students per day: 5

This order:
- is effective upon issue: 16. 11. 2010
- is valid until: 8. 12. 2010
- obeys all internal regulation
- was compiled by the Study Division – L. Zamrazilová

Prof. MUDr. Michal Anděl, CSc., Dean of the Third Faculty of Medicine

CAREER OPPORTUNITIES

Physicians, medical school graduates
Do you like to gain work experience and improve your language skills abroad?
Currently we offer two jobs for anesthesiologists (m/w) and secondary physicians (m/w) at Clinic of anesthesiology near by Stuttgart.
Coming is possible immediately. We enable you further education and an attractive salary. During the first six months the accommodation is free.

We look forward to receiving your application forms written in German, English, Czech or Slovak language. Please send it by email, fax or mail.
We speak your language!

LET´S APPLAUD!

8th World Congress on Insulin Resistance, Diabetes & Cardiovascular Disease – First Place
In early November Mgr. Zuzana Kováčová – graduate student of 3rd FM CU in Biology, field of study: Molecular and cellular biology, genetics and virology (advisor: doc. Vladimír Štich, Ph.D.) participated in the 8th World Congress on Insulin Resistance, Diabetes & Cardiovascular Disease), which took place from November 4th to 6th, 2010 in Los Angeles (http://www.insulinresistance.us/)
Mgr. Kováčová got her first place for the presentation of the abstract “Secretion of HMW adiponectin in reduced in visceral but non subcutaneous adipose tissue of obese people”.
The 7th International conference of Ph.D. students of medical and pharmaceutical schools (18-20.11.2010)

Last week the 7th International conference was held at Faculty of Medicine, Charles University in Hradec Králové and was attended by 48 speakers from 14 countries.

3rd FM CU was presented by MUDr. Ondřej Gojiš, graduate student in Biology – field of study: Cell Biology and Pathology (advisor prof. MUDr. Václav Mandys, CSc.).

His lecture was awarded third prize for the best presentation. The assessment takes into account the quality of the research project, presentation and ability to lead a discussion of the problem with international committee.

The prize of the Ministry od Education, Youth and Sports for outstanding students and graduates in year 2010

MUDr. Ondřej Gojiš, graduate student of 3rd FM CU in Biology – field of study: Cell Biology and Pathology (advisor prof. MUDr. Václav Mandys, CSc.) was nominated by the Rector of CU UK for the Prize of the Ministry of Education, Youth and Sports for outstanding students and graduates. More info you can find at:

We congratulate to all !!!!!

NEW TEXTBOOKS OF OUR ACADEMIC STAFF WERE PUBLISHED IN KAROLINUM

Talking Medicine: Czech for Medical Students
Čermáková, Iveta (Department of Foreign Languages)

Book for foreign students who are studying medicine in Czech republic and who need Czech language for the contact with the patients. The textbook will equip students with extensive vocabulary that is not only focused on technical terminology but contains also terms of medical slang. Short dialogues accurately represent the practical situation and the typical problems of individual topics.

The textbook contains practical exercises and a glossary with the key, dictionary and CD.

Published: July 2010

HOW TO DO THINGS BETTER — IMPRESSIONS FROM NOTTINGHAM

The week before last I was one of the lucky teachers from the 3rd Faculty of Medicine who were sent by the Commission for teaching to the Medical Faculty of the University of Nottingham in the UK. The aim of the journey was to find out more about their integrated curriculum of medicine. Professor Ian McDonald took care about us and prepared for us a really demanding programme – meeting teachers, meeting heads of modules, visiting practical lessons. Leaving for Nottingham I had been a little bit sceptical but informativeness and inspire what I have learned there highly exceed my expectations. I would like to share the most interesting and the most general knowledge here and hopefully to start discussion about the necessary changes in functioning of our faculty.

The first point I want to underline is the fact that Nottingham is continuously engaged in the teaching quality and at all levels. T eachers we met with had a very good overview how their lesson, course or module fit into the context of the study. I think that this very important state has been achieved in two ways.

1. The whole curriculum is built on the basis of clearly defined graduate profile (under the General Medical Council “Tomorrow’s Doctors”). Based on this profile the learning objectives of individual modules, courses and finally the individual learning units were generated. Let me repeat again – each individual lesson throughout the five-year study has clearly defined objectives that the student and the teacher can find – for each of the lectures, seminars or practice – on the faculty website. These objectives are then mapped to the objectives of the course, module and finally to the profile of the graduate.

2. At Nottingham faculty there is a clear structure of organization and management training. The leads of modules spend a lot of time checking the quality improving the modul they are responsible for. One of the modul heads told us that he personally attended all lectures in his module to see where were unnecessary duplications and what aspects were neglected or completely missing. Heads of modul manage heads of courses and these manage individual
teachers. This hierarchy does not exist only on the paper – my impression was that there was lively communication among all the levels and thanks to this fact all teachers were informed what to teach, how and why.

It is necessary to add that administration of education is not something the academical staff in Nottingham do like upstandard. From our interviews it has become clear that administrative duties of the responsible persons are clearly defined including the estimated time and then there is obviously much easier to expect the responsible fulfillment of the task.

The second area we could inspire from is the way of testing and teaching. Oral testing does not exist in Nottingham /except for the mandatory defence of the obligatory research project in the 5th semestr. Knowledge is tested exclusively on line through multiple-format questions” (MCQs including pictures) on a perfectly sophisticated system Touchstone which was developed by the IT of the faculty departement. Clinical skills are tested by standartized methodology OSCE (Objective Structured Clinical Examination). Tests are held at one term for the entire year. In the preclinical years students have only one trial, in the clinical subjects they have two trials /but tests are once in a semestr, semestr exams are only once a year/. The study coordinator takes care about creating tests and coordinating testing of the various sections of the study. The coordinator collects issues from the teachers and transforms them into the final tests. Each test is carefully reviewed by the internal reviewers and one external reviewer to avoid vague, misleading or even false questions. An external ‘examiner’ is also invited to the final allocation of marks as an independent arbiter. This way of testing ensures maximum objectivity, consistency between the taught and tested substance and fair conditions for all students. Neither can be guaranteed in any form of oral testing.

One frequently mentioned problem of teaching at 3rd FM CU are repeated lectures for groups of 20 students. This form of learning provides negligible benefits for students when compared to the traditional lectures, it folds higher load of teachers and significantly higher financial demands. In addition it is almost impossible to guarantee the same context and quality of teaching in all groups. In Nottingham majority of preclinical teaching is realized in the large groups /we saw the practise of Physiology/Pharmacology for more than 120 first year students/. Interactivity, which is the main argument for teaching in small groups, is ensured by several teachers/practice leaders and demonstrators/. The interactive lectures are interspersed with quizzes – students match by clicking on the voting machine installed in the classroom. It is clear that the current situation of the meeting room capacity at the 3rd medical faculty is not suitable for the practical training in larger groups. However it would be appropriate to get rid of the myth that teaching in small groups is conditio sine qua non of quality medical education.

At last I would like to mentioned the importance of observation, which may not be new for someone but which deserves to be repeated. In Nottingham the interprofessional education was introduced – the teaching units are attended by students of various medical disciplines - medics and nurses, medics and pharmacists etc. Such practice can help to correct many problems in communication among health professions.

In this paper I have summarized a few of my key findings from Nottingham. I and my colleagues – we have brought a lot of detailed information on individual courses, teaching materials, evaluation studies, using case studies in teaching etc. I just want to summarize the areas in which our faculty needs to realize significant changes if it wants to continue to maintain and improve the quality of provided education.

LET’S APPLAUD

The award of prof. Karel Weigner for the best graduates of medical courses
- was handed over rector’s hand Kateřina Pokorná 3rd FM CU and Diana Vajsarová Faculty of Medicine in Hradec Králové.
Kateřina Pokorná works as a volunteer in organization „Doctors without Borders“, she is working on the project „Uprchlický tábor v srdeci města“ and she was responsible for organising the Open Day of 3rd FM CU within Trimed since 2004. In the years 2005-2007 she worked as a president of International federation of Medical Students Associations for the Czech Republic.

REPORT ON MEMORIALU OF DR. M. BUBNÍK – SWIMMING RELAY

The 26th annual of swimming races- Memorial of Dr. Miroslav Bubník was organized in the pool sports centrum of CU on November 22, 2010. This is a relay race 6 + 2 /6 males and 2 females/ where to swim 2 relays 8x 50m breast and 8x 50m freestyle.
Like every year students from 3rd and 3rd FM CU participated in this race. We managed to build two relays this year, relay A - 5 males and 3 females and relay B 6 males and 2 females. Relay „A“ has achieved an outstanding result – rank 5th place from 21 relays and „B“ rank 14th place. This event has a very positive feedback as every year and the evidence of participation of 1168 studentůs of all faculties in Prague.

Students from 3rd FM:
Vít Antonín
Kláň Michal
Svatoň Karel
Trejbalová Kristýna

Pechková Alena
Mejsnarová Alena
Zeinerová Lucie
Rota Vojtěch

Moravec Jan
Bauer Claudie
Bauer Christian

and 5 students from 2nd FM CU.

Dean of the Third Faculty of Medicine

Let’s Applaud

Between November 21-26, 2010 doc. Mohr from the Department of Psychiatry 3rd FM CU was on behalf of prof. Höschl and at the invitation of University of Malta Medical School, he worked at the Department of Psychiatry as an external examiner for state exams and talked about the curriculum of 3rd FM CU. In addition to developing warm personal contacts, it offers the opportunity for further professional cooperation. There is still no private psychiatric research in Malta, but Dr. Cassar prepares prospective study of tracking the mental health of medical students, similar to research of our students (prof. Kožený). Anthony Grech another teacher at the faculty together with prof. Murrayem published a seminar work on the relationship between cannabis and schizophrenia, he collected the data in London and Malta.

Dear Pavel,

Thank you. It was so good to have you. I have much enjoyed getting to know you, listening to you and your experiences and methods and learning from you too. It was also very good for us as a department to start contacts with Charles University. While traditionally tied to the British apple cart I believe it is healthy for us to reach out across Europe.

(...) In the meantime I truly look forward to our ongoing contact. Thanks again for your warmth, support, feedback and genuine interest in our country and department.

Kindest regards

David

Dr David Cassar,
Head, Department of Psychiatry, Medical School, University of Malta
**TRAVEL REPORT: MALTA 2010**

From October 21 to November 26 2010 at the invitation of the University of Malta Medical School on behalf of Professor Höschl I worked at the Departement of Psychiatry as an external examiner. Every year Department of Psychiatry led by Dr. David Cassar invites one external examiner from abroad, who as a member of faculty, examines the students of psychiatry. The system of education of psychiatry and particularly testing is based on the British model. The exam, which takes palce at the end of the course, takes almost the whole week. Final grade is expressed as a percentage of the sum of the marks of five modules contributing to the final mark in various degrees. The first part is a written test with multiple answers (20%), then written long essay questions – four answers related to the example casuistics (30%), next short answer questions (20%), the oral exam -viva voce – which carries 20%, and finally the log book with the detailed examinations of four patients (one of home visit), with the history, the suggestion of examination, differential diagnosis, prognosis, the treatment plan and the overview of the relevant literature (contributes 10% to the final mark).

The oral exam is the first oral exam for the students during the whole time they have been studying medicine (they are in the 4th grade of 5). So - vivas - are really very stressful experience for students. Students have no time for preparation - in ten minutes they have to answer a question form essential learning objectives whose knowledge is criticaly essential. Students are again assessed in a percentage, if they fail in questions of critically essential learning objectives, they fail the exam and they have to repeat it in the closest term.

As an external examiner I examined vivas, graded the answers of selected students from long essays and short answer questions and controlled log books. During the oral exams it was evident that it was the first experience of such a type of exam for students (high level of anxiety). The written parts of the exam were mostly on a very good level.

Generally we can say that the level of knowledge was similar to that of our medical students with a much greater emphasis on clinical and practical aspects of psychiatry - also from the perspective of a general practitioner and a specialist in another field of medicine, on the application of knowledge in clinical situations and ability to manage concrete problems. What the examiners should always keep in mind is the motto – will this student be a safe doctor? - Much less emphasis is placed on the connection with the theoretical basis of neuropsychiatric disorders and theories, including the effects of psychotropic drugs. While the theoretical knowledge does not go into too much depth, students are well oriented in the literature and are able to search the information.

The advantage of the complex exam is obvious, except for a fatal case of failure in critically essential learning objectives, the result does not depend on a current failure or on chance, the student must demonstrate a broad overview of theoretical and practical knowledge. The other subjects are tested in a similar manner. The role of an external examiner – in addition to external objectivity in testing – is in evaluating the system (quality assessment). Dr. Cassar and all faculty expected the feedback and evaluation of the whole system of testing and teaching and I have taken this task very seriously.

My visit to the University was very rewarding experience. In addition to developing warm personal contacts there is opportunity for further professional cooperation. In Malta there is still no psychiatric research, but dr. Cassar has been preparing prospective study tracking the mental health of medical students (the similar research was done by Prof. Kožený). Anthony Grech, another teacher at the faculty, together with Prof. Murray, has published a fundamental work on the relation between cannabis and early schizophrenia, while data were collected in London and Malta.

---

**GATE OF REFORM IS OPENING**

To create the curriculum of medicine, so that teachers and students enjoyed it, understand and led to result – it means good medical doctor – it is not easy. I think all participants would have to express to this difficult process. Not because that was the result of compromise based on the smallest common denominator, but to use creativity and ideas of academic faculty and not to be bounded with predetermined ideas.

For this reason, in agreement with the Dean of faculty, I created a web page (wiki) which would serve these purpose. You can find it at [http://lmb.lf3.cuni.cz/groups/reforma](http://lmb.lf3.cuni.cz/groups/reforma). At this moment, all visitors have ability to add comments and then participate in discussions on various topics. Only members of the Commission for education have the access to edit pages and several other members of the academic community too, but people who are really interested in editing site can ask me for an access name and password.

The purpose of this site is, first to improve communication on the reform of the study and allow the less distinctive voices to present their views. I would also like to take the popular "crowdsourcing" to develop detailed functional modules and syllabi of courses including the educational objectives and the required pre-knowledge. Finally this wiki
should facilitate all visitors to see the new forming curriculum in its entirely – not just "their" course, module or field but also their wider context.

Only then we can create a system of study in which nothing is missing or dwell.

Jan Trnka

INVITATION – MEETING WARSAWA

2nd Annual MAYS Meeting
June 13th & 14th, 2011
University of Warsaw, Poland

Organized by:
Medical Anthropology Young Scholars
(a network of the EASA, European Association of Social Anthropologists)
University of Warsaw
The Institute of Polish Culture
The Student Society for Culture Research

Hosted by:
The Institute of Polish Culture, University of Warsaw

CALL FOR PAPERS
After the stimulating and interesting meetings in Berlin and Oxford in 2010, we now invite you to join us again in Warsaw, Poland. The focus of the 2nd annual MAYS meeting will be on Medical Anthropology thematic workshops, leaving time and space for in-depth discussions.

ABSTRACTS SUBMISSION: Deadline for abstract submissions for one of the workshops is December 31st 2010. Abstracts have to be submitted online: http://tinyurl.com/MAYS-Warsaw.

Proposals should not be longer than 300 words. Decisions will be made by the workshop organizers and discussants by January 15th 2011. To allow discussants to read the papers and to prepare the conference publication, full papers will be due on April 30 2011. Registration for participants will be open until May 15th 2011.

ORGANIZATION & PRELIMINARY TIME SCHEDULE
Each participant will be able to attend the plenary ethics & methods workshop and 3 of the 6 non-plenary workshops and participate in the discussions. In each workshop, there will be 4 presentations (20 min each). A post-doc member of MAYS will serve as a discussant for each paper, and there will be time for an open discussion at the end. In the evenings, we will get together for dinner and drinks for the informal part of networking.

June 13th 2011
9.30 AM - 1 PM - PLENARY SESSION Introduction and opening lecture
   ▪ Workshop 1: Ethics and methodologies
2.15 PM – 5.30 PM — PARALLEL SESSIONS:
   ▪ Workshop 2: Mental health and psychiatry
   ▪ Workshop 3: Health revisited: understanding the search for well-being in social, economic, emotional and political contexts

June 14th 2011
10A M – 1 PM — PARALLEL SESSIONS:
   ▪ Workshop 4: Social life of medical technologies & pharmaceuticals
   ▪ Workshop 5: Reproduction and population politics
2.30 PM – 5.30 PM — PARALLEL SESSIONS:
   ▪ Workshop 6: Biomedicine, complementary and alternative medicine (CAM), and religious healing
   ▪ Workshop 7: Migration and health
5.45 PM – 6.15 PM — PLENARY SESSION - Reports from the workshops and closing discussion
FINANCIAL SUPPORT
We are currently looking into funding options and may be able to provide a small number of travel grants and/or free lunch and/or free accommodation for speakers. We will keep you updated through the MAYS email list. In order to be able to receive financial support from EASA, you have to be a member of EASA. To become a member, go to http://www.easaonline.org/membership.htm.

ATTENDEES REGISTRATION
If you want to attend the meeting without presenting a paper, please register as attendee via the online form: http://tinyurl.com/MAYS-Warsaw. Please register asap, since the lecture halls have limited capacity. Registration will close on May 15th 2011.

CONTACT
As a member of MAYS, you will receive updates via email (to subscribe: http://tinyurl.com/MAYS-EASA. Also, for updates and info, go to: http://mays-poland-2011.blogspot.com/.
ACADEMIC SENATE — NEW BOARD

Academic Senate voted at its first meeting on Dec. 14th, 2010 new Board of the Academic Senate

Chair:  
Mgr. Marek Vácha, Ph.D., Head of Department of Ethics

Vice-Chairmen:  
Doc. MUDr. Tomáš Kozák, Ph.D., Ist Department of Internal Medicine  
Peter Ivák, student

SCHOLARSHIP

An offer of scholarship stays for students and Ph.D. in the Academic year 2011/2012 as part of an interuniversity cooperation among German and Switzerland universities and summer German language courses in 2011

As part of an interuniversity agreement, one-semester and two-semester scholarship at partnering universities in Germany are offered in the Academic Year 2011/2012

A list of anticipated placement:

1. **Scholarships for students and Ph.D.:**
   
   University:
   - Bonn: 2 semester spot - also for medical faculties
   - Dresden: 2 semester spot - also for medical faculties

   Students submit an application form with their records to the Division of International Affairs of their faculty

   **Deadline:** March 24th, 2011

   **Supplementary records for the scholarship:**
   - Completed application form “Bewerbung um ein Stipendium im Rahmen der Partnerschaft”
   - 1 passport format photo
   - Structured curriculum vitae in German language
   - Study plan (motivational letter) in german language
   - Two recommendation letters by university professors in German, event. English language
   - Approved leaving certificate (certificate about State exam, confirmation from Language School)
   - Copy of the school leaving certificate **translated into German**.
   - A list of study results translated into German or English language (concerning those students in Master and Bachelor programmes)
   - Confirmation of being accepted into Ph.D. studies, a copy of diploma, a leaving certificate of final examinations **translated into german language** (for Ph.D students)
   - *The confirmation can be done by the faculty’s Division of International Affairs and approved by a stamp*

   All records must be submitted in German language (or English if mentioned) in two copies – one original and one copy of the original! If the application forms will not have the required records, the material will not be accepted.

2. **One month long summer courses of German language in 2011**
   
   University:  
   - Bonn: 2 spots for all subject
Dresden - 2 spots for all subject
Freiburg - 2 spots for all subject
Heidelberg - 3 spots for all subject
Saarbrücken - 3 spots for all subject

Those interested in the language course must submit the application form to the faculty's Division of International Affairs:

**Deadline: February 17th, 2011**

**Supplementary records for the language course:**
- Completed application form for the language course
- Reasons for submitting the application form—motivated letter in German language
- Structured curriculum vitae in German language
- Recommendation of vice-dean for international affairs (on the application form)

**Selection procedure:**
A pre-selection of candidates for the scholarship stay and language courses are stated by order at the faculty. The final selection of scholarship recipients and language course participants are completed by the vice-chancellor of foreign affairs at the rector’s office. The application forms of the selected students will be sent to the foreign university that will decide whether to accept the nominated candidate and further, send them an acceptance letter.

**Upon returning from abroad, the students will write a report on the scholarship stay to the address:** lenka.dostalkova@ruk.cuni.cz

**More information** can be found at the Department of Foreign Affairs Chancellor’s office, Charles University. Referral to: Mgr. Lenka Dostálková (lenka.dostalkova@ruk.cuni.cz)

The application forms for scholarship stays and for summer language courses are available at the faculty’s Division of international Affairs.

**SPORTS GAMES OF THE CHARLES UNIVERSITY**

Last November weekend two tournaments of this year’s sports games of the Charles University took place in the sport complex SCUK Hostivař. Floorball tournament was on Saturday, futsal tournament on Sunday. Five teams participated /the Faculty of Law, Arts Faculty, 1st Faculty of Medicine, Science Fac., Mathematics and Physics/.

The floorball tournament was opened by Paedr. Bohumil Hněvkovský on behalf of Dean of the 2nd Faculty of Medicine Doc. MuDr. Ondřej Hrušák, Ph.D., who took sponzorship over the tournament.

And the results?

1st place – the Faculty of Law
2nd place – the Faculty of Arts
3rd place – the Faculty of Science

The great thanks are dedicated to the players, the assistents and the referees for the smooth running tournament.

On Sunday six teams participated in the futsal tournament. The tournament was held under the auspices of the Dean of the 3rd Faculty of Medicine CU prof. MUDr. Michal Anděl CSc.

1st place – 2nd and 3rd Faculty of Medicine
2nd place – Faculty of Science
3rd place - Faculty of Law

Thanks goes to both the players for their attitude and sport performances, but also to the professional referees, who mastered the entire tournament absolutely brilliantly. Hopefully next year of CU sports games will be as successful as this one.

*Mgr. Petr Horn-director of tournament*

**POST EDITOR**

Editors of VNS give notice that this copy of VNS is the last one in this year. Next issue will be published in January 2011. In this context, we wish ourselves more current and more interesting posts from our contributors so that VNS could bring such information which are needed to the staff of our faculty.

We wish you wonderful Christmas, good luck, health, love and optimism in every day of the new year 2011.

*Editors of VNS*
