DEAN´S ORDER

DEAN´S ORDER No. 38/2011 On dates of the State examinations in the Academic Year 2011/2012

MASTER´S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Gynaecology and Obstetrics
Place: Office of the Head of the Gynaecology and Obstetrics Clinic
Date: 16. 12. 2011
Max. number of students per day: 8

Part of the State rigorous examination in Preventive medicine:
Place: Dean´s office, 1st floor, room number 223
Max. number of students per day: 10

This order:
• is effective upon issue: 6. 12. 2011
• is valid until: 21. 2. 2012
• obeys all internal regulation
• was compiled by the Study Division – L. Zamrazilová

DEAN´S ORDER No. 1/2012 On dates of the State examinations in the Academic Year 2011/2012

MASTER´S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Gynaecology and Obstetrics
Place: Office of the Head of the Gynaecology and Obstetrics Clinic
Max. number of students per day: 10

This order:
• is effective upon issue: 2. 1. 2012
• is valid until: 25. 2. 2012
• obeys all internal regulation
• was compiled by the Study Division – L. Zamrazilová

prof. MUDr. Michal Anděl, CSc.
Dean of Third Faculty of Medicine
You love music? You’re in medicine?

European Medical Students’ Orchestra and Choir (EMSOC) in the University of Rijeka, Croatia
July 26th till August 6th 2012

In summer 2012, University of Rijeka and the City of Rijeka will be hosting this year’s annual meeting of the European Medical Students’ Orchestra and Choir (EMSOC) for medical students and young doctors from all across Europe. For nearly two decades EMSOC has given students and young doctors the opportunity to enjoy an unique musical, cultural and social experience. We would like to invite students of medicine and similar medical professions who actively sing and/or play an instrument to spend an exciting time with European fellow students by participating in the orchestra or choir. The program for the course includes intensive rehearsals under the direction of ambitious and dynamic conductors, trips to the surrounding area of Rijeka as well as numerous social, cultural and academic activities. The course will culminate with two concert performances on the island of Rab and in the City of Rijeka.

You can find more information about the event and the application process on our web page: www.emsocinfo.org, or contact us via e-mail: emsoc2012@gmail.com

Application Deadline: March 15th 2012
See you in Rijeka!

EMSOC 2012 organization committee
ISCOMS 2012

Dear sir/madam,

On behalf of the ISCOMS 2012 organization, I would like to make you aware of our upcoming event: the 19th International Student Congress of Medical Sciences. This annual congress takes place in Groningen, the Netherlands on the 5th until the 8th of June 2012.
The ISCOMS is one of the largest (bio)medical student conferences, organized annually by (bio)medical students. The ISCOMS is constantly growing, and we hope to make ISCOMS 2012 such a success as it was in 2012, with 548 students from 39 different countries from all over the world.
We would be grateful if you could spread the word about ISCOMS and forward the text underneath this email to anyone who you think might be interested, so we can welcome even more students in our upcoming congress!
For more information you can visit our website, or feel free to contact us via our email: iscoms@umcg.nl

I am looking forward to hear from you.

Leonie Timmer
International Contacts - ISCOMS 2012

ISCOMS: Call for abstracts

Are you doing research and do you want to present it in front of students from all over the world and discuss it with professors? Then send in your abstract for ISCOMS now!

ISCOMS - The International Student Congress of (bio)Medical Sciences - is one of the world’s leading student conferences in the (bio)medical sciences. At our conference we offer a stimulating venue for student research exchange and give students the opportunity to broaden their scientific and social network. Last year was a tremendous success with 548 participants from 39 different countries.
This year the 19th edition will be held from the 5th until the 8th of June 2012 in Groningen, the Netherlands.
Our scientific programme includes a variety of student research from all over the world, presented in poster, oral or plenary form to an international and professional audience. Along with the student sessions there will be fascinating keynote lectures and hands-on workshops.
You can submit your abstract until the 17th of February 2012 via our website www.iscoms.com.
For questions you can contact us via our email: iscoms@umcg.nl

INVITATIONS

International Student Medical Congress Košice

4th International Student Medical Congress in Košice
26th - 29th of June 2012

Abstract Submission Deadline: 1st of March 2012

Košice, Slovakia
The Student Scientific
CONFERENCE ON
BIOTECHNOLOGY & BIOMEDICINE

12th & 13th April 2012, Brno

This year’s sessions are devoted to the progress in basic and applied research in the area of BIOTECHNOLOGY:

– Genetically Modified Microorganisms
– Genetic Modifications in Plants
– Genetic Modifications in Animals and Medicine
– Pharmacogenomics
– Bioengineering

Conference will be enriched by public lectures and panel discussion called “Biotechnology: Myths and legends”.

Venue
Office of the Public Defender of Rights
Údolní 59, Brno, Czech Republic

Deadlines
Abstracts and registration: 1st March 2012

MINUTES OF THE SENATE SESSION (NO. 10) OF THE THIRD FACULTY OF MEDICINE
THAT TOOK PLACE ON 10TH JANUARY 2012

Session Agenda:
1. Opening
2. Agenda approval and appointment of the scrutineers
2) Agenda approval and appointment of the scrutineers. Scrutineers appointed: Šajdíková, Kment

Resolution: AS 3FM CU approved the proposed agenda by tacit consent.

3) Checking of the minutes from December 13th 2011

All the senators received the minutes from the last meeting by email.

Proposal of senator Havrda to change the wording in 7) and 8)

Required changes are printed in bold type.
- information on PRVOUK- prof. Widimský

Widimský informed senators about new system of institutional financing of science at CU from means received according to publication activity (RIV points). Methodology of RIV points, financial flows on nationwide level.
Using a chart, he explained distribution of finance to programmes of university centres (UNCE) to support monographs, return of young scientists and mainly to support science at CU (PRVOUK). Part of the money will be used for overhead costs and depreciation.

Information from the session of AS CU from December 2nd 2011 – Havrda, Grill
- planned higher education bill and bill concerning financial help for students
- universities sent a lot of comments and protest against the system
- in case of the second bill, Ministry of Education ignored cooperation with universities which is conceived an offence
- AS CU strictly protested against this procedure
- taking legal action due to violation is considered, proposed changes express political will
- both of planned bills are not acceptable for CU and it is necessary to prevent their passing

Resolution: Minutes from Dec. 13th 2011 were approved by tacit consent with changes proposed by Havrda.

4) Information of the Dean
- checking by the Accreditation committee from Jan. 6th 2012 post-graduate study
- accreditation of Master’s programme at 3FM CU
- session of the Scientific Board
- recounting of percentage according to RIV points at 3FM CU (cardiology obtained the highest percentage 31%), budget evaluation- well-balanced- rewards were paid
- information of general manager of FNKV to merge the Institute of Medical Microbiology and Clinical Microbiology and Pathobiology to one institute Final proposal will be presented to senators by the Dean later.

Conclusion: AS 3FM CU takes the information of the Dean into account.

5) Proposal to establish 4th Department of Internal Medicine- Haematology – doc. MUDr. Tomáš Kozák

Conclusion: AS 3FM CU takes the information about new Department of Internal Medicine- Haematology into account.

6) Proposal to appoint doc. MUDr. Pavel Dlouhý vice dean for specialized education: Marek Vácha

Resolution: AS 3FM CU recommends to the Dean to appoint doc. MUDr. Pavel Dlouhý vice dean for specialized education (18, 0,1).

7) Legislative intent of new higher education law- news – MUDr. Martin Havrda

AS 3FM CU passed the following resolution:
AS 3FM CU asks the government of the CR to refuse Legislative intent of new higher education law and Legislative intent concerning financial help for students planned by Ministry of Education.
We consider higher education bill unacceptable attempt to increase governmental control over CU and other universities. We refuse the opinion of Ministry of Education that participation of students in decision making of
autonomous university organs decreases quality of decision making and must be reduced. We consider the essential change in position of associate professors and professors proposed by the bill as well as changes of accreditation and control of quality of universities ill-conceived and in presented form very risky. Question marks also remain over tuition. It is ill-conceived, baseless, and the bill was not discussed enough with university representatives.

AS 3FM CU is ready to join protests against both of the bills and acknowledges members of its presidium and representatives of the faculty in AS CU to join coordination of participation of 3 FM CU in protests in the framework of CU (19, 0, 1).

8) Miscellaneous
1. Change of status of Hospital Na Bulovce a Thomayer Hospital
2. Use of the part of Vinohrady Hospital: implementation 2018 – 2020 – proposal of FNKV,
3. Keel thanked to faculty leaders for pre Christmas charity collection on the ground floor- clothes, food. Moreover Christmas dinner was organized for the elderly without families.
4. Dlouhý thanked to members of AS 3FM CU for confidence and stated that in case he was a vice dean appointed by the Dean, he would try not to be a disappointment. He said this would strengthen his position in treatments e.g. with Ministry of Health. If he was appointed, he would have to finish his membership in AS, he would like to attend sessions but as a guest.

Next session of AS 3FM CU will be held on Tuesday, 13th March at 2.30 pm in conference hall 223, 1st floor, Dean´s office.

Proofreading: Vácha, Kozák, Maďa
Minutes taken down by: Ing. Sádecká Jan. 10th 2012

MEDICAL SUMMER SCHOOL 2012

“MEDICAL SUMMER SCHOOL 2012” CALL FOR APPLICATION

What?
Tor Vergata Medical Summer School for International Students is offering a ten-days intensive program for highly motivated college students who are pursuing a career in Medicine. The program introduces you to many aspects of translational medicine, by the following science modules:

a) Diabetes and Obesity,
b) Immunology in children and adults: from key concepts to interventional application.

Each module is taught by Tor Vergata Medical School Senior and Junior Faculty Members and international major EU experts in the field. Students are exposed to faculty lectures, workshops, group working and lab training to master development of a problem-focused learning model of science education. Clinical and laboratory exposure provides students with a variety of experiences to develop an understanding of translational medicine application. As part of the course, students have the opportunity to taste Italian Cultural and Historical Heritage as a unique experience with an exclusive introduction to Italian Monuments and Archaeological sites. English is the official language.

Where / When?
The Summer School will be held in Rome from July 24th - August 2nd, 2012.

Why?
Residential life is as much a part of the course experience to make lifelong international connections. Students will be housed at Collegio Lamaro Pozzani, a residential structure to be enjoyed, laid out with green areas, study areas, sports and catering and equipped with wi-fi cover, next to the Faculty of Medicine and Surgery. The course lasts for 105 hours: faculty lectures and workshops (60 hours lessons), assisted learning and training activities (12 hours), preparation of a final project (18 hours), social and cultural activities (15 hours). 90% of attendance is mandatory to be awarded with 8 credits ECTS.

Who?
Students must have completed 2 years of Medical School and must be in good academic standing. The summer school might also accept master students and PhD students interested in the topics. The number of students admitted into the school is limited. Possible variations of this number will be evaluated with respect to the possibility of improving or
increasing the teaching resources available. The Summer School participation is open to 20 students from LLP partners University and up to a maximum number of 6 students from third Universities. According to the Erasmus IP rules (LLP, Lifelong Learning Programme) 20 scholarships are available reserved to the students of university partners. The scholarship will cover travel, accommodation, one meal per day and 2 cultural activities.

How (to apply)?
The Summer School Scientific Committee has the authority to select the applicant students and to evaluate the curricula and background qualifications. Each partner will evaluate the CVs and send the names and contacts of the selected students. The coordinating institution (International Relations Office) will collect all registrations docs (Application form, curriculum vitae and copy of the passport) and provide with the info to the participants. Names of the participants should be sent to the coordinating institution contact: relazioni.internazionali@uniroma2.it, within March 30, 2012. Admitted participants should expect full-time involvement in the Programme from July 24th to August 2nd, 2012. A certificate of attendance will be given to all participants who successfully complete the Course.

Vita Nostra servis - Informational weekly magazine of Charles University in Prague – 3rd Faculty of Medicine. Designated for the Academic Community. In-house publishing. Edited by the 3. FM, Ruská 87, Prague 10. 40 copies. Freely distributed. The full text edition is posted on the web pages of the 3. FM. The deadline is every Thursday, and is published Monday.
RANGING OF THE UNIVERSITIES

Published in Hospodářské noviny HN.IHNED.CZ 9. 2. 2012 00:00 (updated: 9. 2. 2012 07:36)

Field of Medicine

Medicine is best studied in Motole

The winner of this year’s medical chart is 2nd Faculty of Medicine located in the premises of the Motol Hospital in Prague. This faculty sends most school teachers for internship abroad, has the most strict entrance exam and received the most points in the science. The number of doctoral students is over average.

Second place went to last year’s winner – 3rd faculty of Medicine CU in Prague. Third and fourth place – with little difference in point – 1st Faculty of Medicine and Faculty of Medicine of Masaryk University in Brno.

HN compared nine medical faculties this year, including the faculty at Ostrava University which was founded only in year 2010. It was ranked in the last place due to its youth.

The best chance gives 1st Faculty of Medicine CU

The study of medicine is highly desirable but not for everyone. The entrance exams of the nine compared medical faculties came nearly 14 thousand applicants. Only four thousand applicants passed the entrance exam.

The most stringent sieve set on the winning 2nd FM CU. The faculty accepted only 13% of the applicants. The faculty in Brno accepted 22% of the applicants, faculty in Ostrava 26%. The highest chance of acceptance gives 1st FM CU- hardly 49%. Faculty of Medicine CU in Hradec Králové sends letter of acceptance to four applicants from ten those who came for testing.

HN takes into consideration how many accepted students are really registered into 1st study year. This corresponds to the prestige of the faculty how the applicant himself stood in first place and how it was more a rescue option.

The best ratio (from all nine faculties) of accepted/ registered has Fakulta vojenského zdravotnictví Univerzity obrany in Hradec Králové. About 84% of accepted students really started their studies. The second best ratio has 2nd Faculty of Medicine, about 77% of accepted are registered. For example at 3rd FM CU and at Faculty of Medicine University Palackého in Olomouc only half of accepted students pick up their index book.

The best way abroad is from Brno

Future doctors from Brno have the best chance to study abroad. Last year 5% of them spent at least one semester at some university abroad. 4% of the students from 1st FM UK studied abroad. 2ND FM UK and 3rd FM UK sent about 3% , from Olomouc only a little bit over 2% of the students had the chance to study abroad.

The experience with the foreign academic environment is not important just only for students but also for these who influence them most during their six years of studies – for teachers. The most teachers are sent abroad from 2nd LF UK and University of Defence. From these schools almost 7% of academicians travelled abroad for a coherent four-week stay at some university or a research center abroad.

HN are finding out, how many foreign students study at the faculties of medicine in the Czech Republic. Also this fact says a lot about prestige of the school – how attractive it is for foreign students. The best of all is MF Hradec Králové and 3rd FM UK Praha.

2nd MF UK is the best one in science

The most students in doctorals programs are at Faculty of Military Health University of Defence – it is more than 50%. At 2nd FM UK there is about 42%. The least number of doctorandts - below 10% - is at the new faculty of medicine in Ostrava.

Their results in Science and Research helped both this year’s winners -2nd FM UK and 3rd FM UK to their good position in the evaluation.

Each of these schools received 8 points
HN compared medical schools according to the so-called citation index—the extent to which the work of academics is cited by other scientists. We also investigated the number of points for scientific work, as calculated by the Government Council for science and Research for 2010.

1st FM UK has won 6 points, the medical faculties in Brno, Olomouc and Hradec Králové have won 5 points each.

STUDY SCHOLARSHIP

ESPIEW programme at Neubrandenburg University of Applied Sciences, Germany

Due to organizational reasons, the international and interdisciplinary programme ESPIEW (Entrepreneurial Spirit Improving European Welfare) at the Neubrandenburg University of Applied Sciences will be postponed to the coming winter term 2012/2013. After the programme ran very successfully in Flanders (2009) and Antwerp (2010), it is a great pleasure for Neubrandenburg to host ESPIEW from the 17th of September to the 20th of December 2012.

ESPIEW is a semester programme in English that aims at stimulating the entrepreneurial potentials of young Europeans, especially in the field of Social Work and Health Care. It is designed for both bachelor’s and master’s degree students. The international programme is interesting for students enrolled in different courses of study, especially in the sectors of Health Care and Social Work. The University of Applied Science Neubrandenburg will award 30 ECTS to students who successfully conclude the ESPIEW programme.

We also enclose a brochure with detailed information on the programme and on the application procedures. Students may register for the ESPIEW – programme between now and the 31st of May 2012.

Next information a contact:
Prof. Stefanie Krachmer (proreksl@hs-nb.de) or Prof. Robert Northoff (northoff@hs-nb.de)

The poster and the brochure are also available on our website www.espiew-germany.hs-nb.de.
Sir Peter Lachmann is a British immunologist, specifically a complementologist. Lachmann’s primary research interests include microbial subversion of the innate immune response, vaccines and their relationship with systemic lupus erythematosus, multiple sclerosis immunopathology and allergies.

Sir Peter Lachmann has held a chair at Cambridge University and served as President of the Royal College of Pathologists, Vice President of the Royal Society, Founder President of the UK’s Academy of Medical Sciences, Head of the Medical Research Council Group on Mechanisms in Tumour Immunity.

Přednáška se uskuteční v pondělí 26.3.2012 od 14:00 h v přednáškovém sále budovy A (kinosál) (spojení autobusem č. 193 ze stanice "Poliklinika Budějovická" - metro "C" Budějovická - na konečnou "Ústavy AV ČR").

MINUTES OF THE SENATE SESSION (NO. 11)
of the Third Faculty of Medicine that took place on 13th March in the Session Room of the Dean’s Office

Session Agenda:
1. Opening, Congratulations to Professor Beneš
2. Agenda approval and appointment of the scrutineers
3. Checking the minutes from January 11th, 2012
4. Information of the Dean
7. Assigning doc. MUDr. Pavel Dlouhý as the Vice-dean for specialized education and finishing his activities in the AS, welcoming a new member of the AS
8. Report on the “Week of Unrest” and the students activities – Maďa
9. Miscellaneous: Invitation to the information seminar “Practice in evaluation of teaching students at the faculties of the Charles University”, etc.

Ad 1) Opening
The session was opened by the Chairman of the AS, Vácha, who greeted the senators and guests. 20 senators were present at the opening, the AS was eligible to make decisions. The chairman, Vácha, welcomed a new member of the AS, Mgr. Svobodová, who will replace Mr Dlouhý, assigned as the Vice-dean.

Ad 2) Approval of the session agenda, assigning the scrutineers
The following points were added to the programme:
   a) Project of the Central Laboratory – presented by the Dean
   b) Internal Haematology Clinic – the proposal for establishment – delivered by the Dean
   c) The differences in success rate of the students of the Czech and English programmes – delivered by MUDr. Fontana, as a guest of the AS 3FM
   d) The extension of the rental contract for the company Gastrocentrum (Vokrálová) for the following 5 years
   e) Change in the reporting person – MUDr. Fontana will inform about the “Week of Unrest”

Conclusion: The programme of the session was completed with the proposed additional points and approved by tacit consent.

Ad 3) Checking of the minutes from January 11th, 2012
The minutes from January 11th, 2012 were approved by tacit consent.

Ad 4) Information from the Dean
1. The position of 3FM in the evaluation charts, the presentation of comparison of the number of applicants, the number of accepted and enrolled students, the number of graduates, academic staff (professors, PhDs, Docs), the number of students in the English programme, the number of foreign students who participated in the international exchange at the faculty (among the medical faculties of CU);
The number of RIV points based on last year’s results.
2. The “Week of Unrest”
3. The ball of the 3FM CU
4. The Master’s Programme General Medicine was accredited to the faculty for the following 10 years.
5. The accreditation documents for the programmes Public Health and Dental Hygiene had been returned for completion.
6. A minute silence was observed to pay respect to the deceased Professor Zatloukal, our colleague and an honest man.
Ad 5) The report of the faculty finances in 2011 – Ing. Mužíková
Conclusion: The proposed report of the faculty finances in 2011 was approved with no objections.
Vote: (18, 0, 3).

Ad 6) The budget proposal for the year 2012 – Ing. Mužíková
Conclusion: The proposed 2012 budget of 331 785 million Czech crowns was approved with no objections.
Vote: (16, 0, 5).

Ad 7) The assignment of MUDr. Dlouhý as the Vice-dean for specialized education, his resignation from the post and finishing his activities in AS; welcoming the new member, Mgr. Hana Svobodová, to AS.

Ad 8) The report of the “Week of Unrest” and the students’ activities – presented by MUDr. Fontana, the Vice-chairman of AS CU, as the guest of the AS 3FM CU.
The current situation:
The proposal for legislation was returned to the Ministry of Education, negotiations are being held, the representatives would like to discuss the basic principles and analysis for the upcoming 20 years. Both student groups are awaiting the negotiation results. More information at: www.studentskainiciativa.cz.
Conclusion: The AS 3FM CU acknowledged the report.

The points added to the session agenda:
Ad a) Project of the Central Laboratory – delivered by the Dean
The documentation of the project had been sent to all the senators via e-mail, ahead of the session. The Dean introduces the project of merging departments and establishing the Central Laboratory. He suggested that the Central Institute of laboratory diagnosing will be found.
Conclusion: The proposal for establishing the Central Laboratory was approved by AS 3FM.
Vote: (23, 0, 0).

Ad b) Proposal for foundation of the Internal Haematology Clinic of the 3FM CU and the Faculty Hospital Královské Vinohrady – delivered by the Dean
The documentation of the project had been sent to all the senators via e-mail, ahead of the session.
Conclusion: The AS approves the foundation of the Haematology Clinic.
Vote: (23, 0, 0).

Ad c) The differences in success rate of the students of the Czech and English programmes – delivered by MUDr. Fontana, as a guest of the AS 3FM
The students of the English programme will meet Dr Trnka and Dr Fontana to discuss the problems on March 19th, 2012. Vácha: Thanked for the report and mentioned that such problems should be rather dealt with by the study division.
Conclusion: The AS 3FM CU acknowledged the report.

Ad d) The extension of the rental contract - for the snack bar facility Gastrocentrum
Conclusion: The AS 3FM CU approved the 5-year extension of the rental contract for the snack bar facility with the current contractor.
Vote: (16, 3, 2).

Ad 9) Miscellaneous
1. Invitation to the information seminar “Practice in evaluation of teaching students at the faculties of the Charles University” – Vácha
2. Keel invited all the members of the AS for the event “Running with those that can’t” with the accompanying programme, held on March 31, 2012. The senators received a written invitation. The famous sportmen, such as Dominik Hašek and Pavel Nedvěd, will participate in the accompanying programme.

Next session of the AS 3FM CU will be held at the conference room, 1st floor of the Dean’s offices, room no. 223, on Tuesday, April 10th, 2012, at 2.30pm.

STUDENT’S RESEARCH CONFERENCE 2012

WE would like to invite you to Student’s Research Conference 2012 which takes place on May 10, 2012 in the Dean’s building. The conference will be divided into three sections (as every year), rozdělen: pre-clinical, clinical and postgradual. We would like to notify all of those interested in active participation and primarily those pregraduate students to submit their application form and abstract with the form at www.trimed.cz by April 22, 2012.

We offer attractive financial rewards for the winners..

Detailed info are available at www.lf3.cuni.cz or www.trimed.cz. Please send your request and comments by e-mail at trimed@lf3.cuni.cz.

TRY FULL TEXTS TEXTS JOURNALS PUBLISHED BY BENTHAM SCIENCE PUBLISHERS - FREE TRIAL FROM MARCH 29 TO APRIL 29, 2012

3rd FM CU has from March 29 to April 29, 2012 opportunity to try a collection of full text journals published by Bentham Science Publishers which covers an area of pharmaceutical and biomedical scientific journals.

This is collection of journals to which no one from Czech Republic has access. Do not hesitate, try and find articles you are interested in!

Trial applies only the articles already published. The trial access does not involve EPub ahead of print - the articles accepted for publication but not yet assigned to the specific number.

Miroslava Plecitá, CSI
Dear Colleagues,

On behalf of the organizing committee of 12th International Nutritional and Diagnostics Conference 2012 (INDC2012) taking place in Blue Hall of Carolinum - Charles University, Prague, August 27-30, 2012. We would like to invite you to this meeting and to inform you that the deadline for submission of abstracts for presentations to the conference has been extended till April 30.

The program includes important topics e.g. Nutrition and Health, Gut Microbiota and the Diet, Nutrition and Immunity, Probiotics, Gut Microbiota and Disease, Food Technology, Novel Diagnostic Approaches, Nanotechnology in Foods and Clinical Diagnostics.

Please check the website: www.indc.cz, for Program: http://www.indc.cz/en/conference/scientific-program/

Partnership and Exhibition

Organizers of the INDC2012 will gratefully acknowledge the participation in the conference of all our sponsors & exhibitors. There are many possibilities to present your company, product or organization within the conference. During the conference there will be an industrial exhibition. For further details you can contact us via e-mail.

We are looking forward to seeing you in Prague in August 2012.

Prof. Assoc. Aleš Horna
Prof. MUDr. Helena Tlaskalová-Hogenová

SCHOLARSHIPS

Russia

Dear All,
by the Ministry of Education Youth and Sport of the CR we would like to inform you that the Ministry of Education and Science of the Russian Federation has allocated a total of 37 scholarships beyond the international contract for the academical year 2012/2013:
- 1 scholarship to the basic university studies
- 6 scholarships for doctoral students and aspirants
- 30 scholarships for short – time trainees.

Detailed information on our website:

Austria

European forum Alpbach 2012
Charles University rector has sent the offer of a scholarship program to attend European Forum Alpbach 2012/Austria/under the title "Expectations - The Future of the Young", which is held from 16/8 -1/9 2012 in Alpbach.
The scholarship is intended for students and young researchers.
More information: http://www.alpbach.org/scholarships
**PACT - ACCESS TO THE SITE OF THE EUROPEAN SOCIETY OF INTENSIVE CARE MEDICINE /ESICM/**

Users of the 3rd FM /staff and students/ have the prepaid access to PACT site - [http://pact.esicm.org](http://pact.esicm.org) for one year since April 2012.

It is the product of the European Society of Intensive Care Medicine /ESICM/ - an on-line modular program for intensive medicine. It is the educational resource that focuses on the quality of acute and critical medicine in teaching and practice. ESCIM is an international nonprofit association of doctors, nurses, physiotherapeutists and other health care professionals engaged in the support of intensive care medicine, education and research. Users of the 3rd FM can ask for the passwords by email on the address: mvs@if3.cuni.cz

Deans of 3FM CU

Dean’s Order no.15/2012

Classes cancelled on May, 10, 2012 because of Student Research Conference

1. On May 10, 2012 all lectures for Master study of General Medicine in Czech language will be cancelled, other classes (seminars, exercises, ) will follow the valid schedule for that day.

2. Students who are actively or passively participate at Student’s Research Conference will receive a certificate of attendance and will be excused from teaching that day.

3. Teachers who are members of evoluation committees will be represented at any other teachers of the workplace, delegated by the appropriate head of the department.

MUDr. D. Marx, Ph.D.
Vice-Dean for Undergraduate Education and Student Affairs

STUDENT’S RESEARCH CONFERENCE

Dear All,
We would like to invite you to Student’s Research Conference of 3rd FM CU in Prague. Conference takes place on May 10, 2012 at 8:00. After a joint launch by the Dean prof. MUDr. Michalem Andělem, DrSc., at Syllaba’s lecture hall and a lecture of prof. MUDr. Vladimíra Vonka, DrSc. on the theme: Vaccine against the human papillomavirus, what preceded it, what is it, and what awaits us in the future.

MUDr. D. Marx, Ph.D.
Vice-Dean for Undergraduate Education and Student Affairs
Following from 9:15 the lectures will start in all sections: theoretic, clinical and postgradual in all lecture halls in Dean’s building. The announcement of result will be in Bowling bar at Ruská street.

Do not hesitate and come, number of quality scientific papers is waiting for you and we look forward to seeing you.

**Information for participants:**

We would like to ask the participants to take part at the official opening of the conference in Syllaba’s hall, at 8:00, on May 10, 2012.

It is important that your presentation would be prepared on a computer in the lecture hall before the start of each part (according the programme). It will be possible to prepare and train presentation on PC during the breaks. **Please, read carefully the programme of the conference at** [http://www.lf3.cuni.cz/cs/veda-a-vyzkum/svk/2012/] (http://www.lf3.cuni.cz/cs/veda-a-vyzkum/svk/2012/).

The presentation should last a maximum of 10 minutes then the discussion will be held about 5 minutes. We would ask you for strict observance of time limits. If the contributions will exceed to specified time limit the participants will be asked for prompt termination of their presentation.

The attractive rewards are offered for the winners of all sections. We look forward to your contributions and we wish all participants good luck in the presentation.

---

**OFFER FROM CSI**

**The offer of online resources for testing – May - July 2012**

**Granted access only from computers within the network of CU**

**UpToDate – by the end of July – access at:** [http://www.uptodate.com/online](http://www.uptodate.com/online)

*UpToDate* is an excellent source of information for medical practice based on evidence (Evidence-Based Medicine). It provides quick reply on clinical questions a syntetická doporučení k léčbě and synthetic recommendations for treatment and patient care. It’s not only suitable for clinical use (point of care) also for support of VaV (lékové testy, UMN, lékařské technologie ap.) teaching at medical universities and for lifelong learning for physicians and medical staff (point of learning).

**Lexicomp – by the end of July- access at:** [http://online.lexi.com](http://online.lexi.com)

*Lexicomp* is a system developed to help the pharmacists, doctors and medical staff with reliable comprehensive, consistent, accurate and update information about drugs, their toxicity, side effects and interactivity, completed by identification of unknown drugs, computational modules, blocks of intravenous compatibility and monographic study materials.

**Lippincott Williams & Wilkins Total Access Collection – only by the end of May**

access available with OVIDu: [http://ovidsp.ovid.com/ovidweb.cgi?T=JS&amp;MODE=ovid&amp;PAGE=browse&amp;NEWS=n&amp;DBC=y&amp;BR OWSEOPT=browseJournals&amp;D=yrovft](http://ovidsp.ovid.com/ovidweb.cgi?T=JS&amp;MODE=ovid&amp;PAGE=browse&amp;NEWS=n&amp;DBC=y&amp;BROWSEOPT=browseJournals&amp;D=yrovft)
You can find full texts of all journals Lippincott, Williams & Wilkins – on the whole 280 titles (compared with 50 titles in the LWW High Impact Collection which are commonly available at CU).
The trial access at: http://www.aip.cz/pomucky.php?pomucka=1580

Adis International Journals Collection – only by the end of May

access available with OVIDu:
http://ovidsp.ovid.com/ovidweb.cgi?T=JS&amp;MODE=ovid&amp;PAGE=browse&amp;NEWS=n&amp;DBC=y&amp;BROWSEOPT=browseJournals&amp;D=yrovft

Full texts of 20 pharmacological journals and other field in publisher Adis.
Direct links to individual journals titles http://www.aip.cz/pomucky.php?pomucka=1579

BMJ Journals Online Collection – 7 new titles – only by the end of May

access at: http://journals.bmj.com/
Journals Online Collection which is available at CU.

HSTalks Biomedical & Life Sciences Collection – by the end of June
přístup na: http://www.hstalks.com/access

The database provides access to more than 1500 animated audiovisual presentation of the world’s leading experts in the field of biomedicine and science of leaving nature in 74 series. The collection is continously expanded and updated with new series and interviews. The collection is used by university teachers, students as a reference work, stuff in laboratories or in reearch and people with personal interest in this topic.

INVITATION

Laboratoř růstových regulátorů Faculty of Science University of Palacký in Olomouc & Institute of Experimental Botany AS CR, would like to invite you to the international congress of Natural Anticancer Drugs which will be held on June 30 to July 4, 2012. The congress is focused on all aspects of the study of natural compounds with abticanser activity, from isolation and identification through biochemical characterization and mechanism of action, to the methods of (bio)technological production and clinical experiments.

Zazní skladby A. Dvořáka, Z. Lukáše,
M.Schneider-Trnavského, národní písně
v netradičních úpravách a další ....
With effect from May 7, 2012 the director of SZÚ Ing. Jitka Sosnovcová decided that the goal will be open in location of SZU(to building no.19) in working days from 7:00 to 18:00

Bohdana Trejtnarová, Secretary Dean’s Office

Session Agenda:

Ad 1) Opening

Ad 2) Approval of the session agenda, assigning the scrutineers
Conclusion: The proposed session agenda was approved.

Ad 3) Checking the minutes from 13 March 2012
Conclusion: The minutes from March 13, 2012 were approved by tacit consent.

Ad 4) Margaret Bertrand Award 2011 – doc. Patočková
Conclusion: AS 3FM acknowledged the information about preparation, sources and further procedures leading to the award and entrusts doc. MUDr. Jitka Patočková to prepare the selection process for the May session of AS.

Ad 5) Information from the Dean
- changes of timetable – termination of “The Cell” module, termination of “C” module, preparation of “A” module,
- current situation of management and conceptual activities – building of traumacenter, “vinmed”, perspectives
- prof. Krbec, doc. Džupa and prof. Mandys are working on materials – foundation of centers of oncology and traumatology
- thanks to all who participated on activities during the “Week of Unrest”
- Rector’s Award for representation of the university 2011 – 3 FM students Scott Keel and Petr Oliva were awarded for project “Running with Those that Can’t” - the Dean expressed his thanks to the rewarded students
Discussion: Kment, Grill, Vácha, the dean,
- the issue of keeping record of working hours of academic staff at the faculty and hospital
- audits of working hours currently in progress
- preparation of university hospital, system of organisation, jurisdiction, possession etc. state of prepared documents for comment procedure
Conclusion: AS 3FM acknowledged the information from the Dean.

Ad 6) Students’ evaluation of the education in Winter semester 2011 – dr. Marx
Dr. Marx informed the senators about the results of the evaluation. Evaluation committee discussed the outputs of the evaluation which are available in both chambers. Satisfactory return of questionnaires – about 50%

Discussion:
Mandys, Marx, Nováková, Beneš, Grill, Maďa, Havrda, the dean, Báča, Kalvach, Hugo,
- evaluation is accessible on the web pages of the faculty for anyone including defamatory comments
- use of appropriate vocabulary by students – Code of ethics for students
- dignity of teachers should not be affected – at least not on pages open for public,
• relativity of the evaluation with respect to the number of lectures, seminars and practices
• keeping of verbal evaluation, publishing it or not, keeping the original wording of the comments or adapting them by using appropriate vocabulary, limit the accessibility for users outside the faculty
• audio and videorecording, taking photos during lectures – when and under what conditions it is acceptable – consequences if students disobeys the teacher’s prohibition, to what should be paid attention
• students should have access to the presentations and teaching materials clear rules about what is acceptable during lessons must be given. If the teacher disapproves recording their wish should be respected. The teacher should be in control of what is appropriate during the lesson.
• single situations will be analysed and consulted with JUDr. Šustek. After that a clear understandable manual should be issued.

Resolution:
AS 3FM acknowledged the information on evaluation of the education in winter semester 2011/2012 and approves publication of the evaluation on the closed web pages of the faculty (intranet) except the offensive, insulting comments.

Ad 7) Fees for extended study in 2012/2013 - per rollam vote
Per rollam vote about the proposal took place from 23 to 29 March
Resolution: AS 3FM approved the proposed directive “Fees 2012/2013” without reservations

Ad 8) Legislative intent of new higher education law and Legislative intent concerning financial help for students – report on the state of negotiations – Fontana, Maďa
Prime minister Nečas admitted that the proposals are not good. No other news so far, the government and the prime minister have been dealing with the government crisis, not the higher education reforms.
An amendment should be prepared: prof. Fiala, Mgr. Nantl, prof. Hálek
Conlusion: AS 3FM acknowledged the report

Ad 9) Information from AS CU session on 30 March 2012 – Fontana
• the budget of CU has been approved as well as budgets for individual faculties
• situation in Dorms and students cafeterias – the Head has been replaced and the selection procedure for a new Head will be announced
• information about the “PRVOUK”
• university hospital – the Law will proceed to external comments
Conclusion: AS 3FM acknowledged the report

Ad 10) Miscellaneous
• Vácha and Marx: protection of information about evaluation on the faculty website (was already settled on 11 April 2012 in the morning)
• Access to the electronic patients documentation for students
• MRSA testing – for compulsory practices it will be covered by the faculty
• JUDr. Šustek’s lecture “What does the new health care law bring to the educational process at medical schools” takes place 25 April 2012 at 16:00 in Jonáš lecture hall
• Keel informed about the event “Running with Those Who Can’t”
• Vácha congratulated Keel and Oliva (in absence) on getting the award
• Báča: reported on RVŠ – financial aid for development of universities, support of young teachers under 35 years of age, information on programs

Next session of the AS 3FM CU will be held at the conference room, 1st floor of the Dean’s offices, room no. 223, on Tuesday, May 15, 2012, at 2.30pm.

Chairman of AS 3FM CU

Proofreading: Vácha, Kozák, Maďa
Minutes taken down by: Sádecká, 11 April 2012
The library of 3rd FM CU announced on day April 23 to 27 on occasion of World Day of Book a „Profitable week in library“. The main reason was to appeal all readers who did not return borrowed books on time for various reasons in the past and not to be afraid and bring the books back to the library.

The campaign was announced by various promotional methods – leaflets, announcement in VNS, sending mass email to all readers.

We described an easy way how to check your own borrowing account and possible fines in e-mail and at leaflets. We compiled a list of defaulter and exposed them on the intranet. As the penalties increase in the library system every day some defaulter owned large amounts of money.

What finally happened?

There were mentioned names of 95 readers in the original list of the defaulters. Most of them (84 readers) brought the books back to the library. If the reader brought all the books back we forgave him the fine and also all charges – including sending the reminders.

Graph of the readers who did not used the „profitable week“

Overall we gave back 413 books and we forgave fines and fees in total amount of CZK 33 656,-.

We would like to thank to all readers who took this opportunity and returned the books back to the library.

There were only 11 defaulters who did not come to the library. We can only speculate about the reasons – students who quit their studies and there is no respond on repeated emails. Even there are some students who are still studying and fines (more than hundred CZK) have accumulated on their accounts!

Oldřiška Jonáková, CSI

PRESS RELEASE

University students will compete in the Race of the Cup of Rector of Charles University

Prague, May 7, 2012 – the Race of the Cup is coming. The maximum of the relays will start on Sunday, May 13. Totally 33 university teams from Czech Republic, Slovakia, Great Britain, Germany and Singapore will in race symbolically celebrate the 25th anniversary of Erasmus programme.

We start to be ready for University marathon: http://iforum.cuni.cz/IFORUM-12712.html

Dean of the 3rd Faculty of Medicine

NOTIFICATION OF CHANGES TO THE DEAN’S COLLEGE

With effect from 17/5 2012 the office of Vice-Dean for Postgraduate Study and Pregradual Scientific Education was established.

Doc. MUDr. Romana Šlamberová, Ph.D. has been appointed a Vice-Dean since 17/5 2012 and doc. MUDr. Martin Čelko, CSc. has been appointed a Vice-Dean for International Affairs and Academic Mobility since 17/5 2012.

Prof. MUDr. Michal Anděl, CSc. 
Dean of the 3rd Faculty of Medicine

AWARD OF MARGARET BERTRAND PRICE FOR 2011

At its meeting on 15/5 2012 the Academic Senate of the 3rd Faculty of Medicine elected from the five candidates proposed for the price of Margaret Bertrand Hynek Bartoš – a student of the 6th study year of general medicine.

Other nominated students form the 6th study year (Jan Svitil, Martin Holek, Alena Rytířová, Vojtěch Stralczynský) obtained the Honorable Mention from Academic Senate of the 3rd FM UK.

Senators of Academic Senate of 3rd FM UK congratulate all.

Mgr. Marek Vácha, Ph.D. 
Chair of AS 3rd FM CU
Dear Students,

Let me inform you about extramural placements in 6th year of study

The management of Faculty spread the possibility of completing the clinical internship in 6th study year at the major centers outside Prague in academic year 2011/12 for all State Exams (internal medicine, surgery, pediatrics, gynecology and obstetrics). We consider it appropriate for student to spend – in preparation for final exams - at least part of education in regional and municipal hospitals so that to fewer number of individual sites the role of physicians could be more intensively utilized.

The signed contracts with hospitals have exclusive agreement which allows our students to attend this practice on any of the selected State fields. The costs of hospital accommodation in dormitories are paid to students after returning from practice. The cost of meals and transportation are not reimbursed.

*In hospitals Brandýs n/L – Stará Boleslav, Mělník and Nymburk is not allowed to pass the prestate practice in Pediatrics (the mentioned hospitals have no Pediatrics dept.).

During this academic year we allowed practice also in other hospitals, the students arranged it individually.

However the reality did not reply to our intention to get more students to practice. Therefore we decided in ac.y. 2012/13 to prefer practice in contractual hospitals and only in exceptional cases to allow practice in other hospital (student’s permanent address, family reason).

The management of Faculty will not allowed practice in Prague Faculty’s hospitals and Departments of other Medical Faculties in Prague.

Please use the following season for scheduling your “own strategy” of practice in the next ac.y. Your intention should be announced to Mgr. Věře Stožické (Vera.Stozicka@if3.cuni.cz) who is responsible for practice and she will reply all your questions.

Vice-Dean for Relations with Medical Facilities
The week before last the Students Scientific Conference was held in the faculty. Pregraduate students presented the results of their work within Student Scientific Activity. The conference was excellently ensured – all organizers should receive thanks and reward. But what about the students, who were presenting their work, what about leaders of their work? The answer is the same as stated before but the question is whether it has been fulfilled at all.

Let’s start with students. What do they have from it? Just few credits, but they can get the same, when they take part in PVK, sit at the lectures or write a test. Is it comparable? No, it is not. And how many credits do they get for their presentation? It depends on the year they are studying in – in the third one they receive four credits, in the fourth six credits. Why? Does the work depend on the year they are just studying in? Should the reward depend on any other factors than the performance itself? Do the third graders do less work than fourth graders? In the healthy society there is the only answer – “no” - to all these questions.

And what about their leaders? What does belong to them? Does even anything belong to them? Is not their voluntary activity obvious and automatic?

I would like to outline my idea of SVA. I will start from the real end – the most prized are the publications of the works presented at the conference and the scholarships for their authors – students. The student conference is divided into the sections according to the few fields and their issues, so everyone can choose his field or he can compare them. Official language is English. In the auditorium there are students from all grades and the leaders of all works, because in the time of conference there are no other lectures! Students from the higher grades come to see how their schoolmates continue in their work. Workshop is a part of the conference, where the future trainers present topics to the students from the second grade. And by this we get to the beginning, when students log in to SVA. SVA is mandatory for all students from the third grade, they have got one semester for it. Trainers receive funds for SVA from the faculty. It means that the trainers can choose the best students based on the publications from the last year, and on the other hand students choose the trainer who can offer not only the work with the publication output but also possibility to reach the scholarship. The circle is closed by this.

Of course this idea has got a lot of weak points, someone excuse on them, someone remove them, each of us is different.

Šimon Vaculín

**WHITE HOUSE PETITION CALLING FOR OPEN ACCESS**

Dear All

I’m sure that many of you will have already seen this - but a petition has been launched by access2research (http://access2research.org/) on the White House website calling for open access to US tax-payer funded research. It the petition reaches 25,000 signatories in 30 days it will get an official response from the US Administration. The petition is here: https://www.whitehouse.gov/petitions/1/petition/require-free-access-over-internet-scientific-journal-articles-arising-taxpayer-funded-research/wDX82FLQ

(You may have to cut and paste the link as it is rather long.)

Anybody can sign - you don’t have to be a US citizen. All you need to be is somebody who believes there should be more open access!

A strong OA response in the US will also help us in the UK. Politicians here take notice of what the US is doing in these policy areas and are keen not to fall behind.

Please sign.

INVITATION TO THE OPENING OF STUDENT ART WORK ON THE OCCASION OF THE WORLD DAY WITHOUT TOBACCO 31/5 2012

Department of Child and Youth Health and Department of Pharmacology of 3rd FM UK invite you to the opening of the exhibition:

“How to reduce tobacco use for health workers?”

Opening of the exhibition is held on 31/5 2012 at 1 pm in the foyer of 3rd FM UK

During the opening ceremony three winning art objects will be announced and the authors will receive financial rewards.

1st place – 5000Kč
2nd place – 3000Kč
3rd place – 2000Kč

The exhibition will take place from 31/5 to 7/6 2012 .

DEAN’S ORDER NO. 17/2012

On dates of the State examinations in the Academic Year 2011/2012

MASTER’S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Gynaecology and Obstetrics
Place: Office of the Head of the Gynaecology and Obstetrics Clinic
Date: 25.6.2012
Max. number of students per day: 10

This order:
• is effective upon issue: 29.5.2012
• is valid until: 5.9.2012
• obeys all internal regulation

was compiled by the Study Division – L. Zamrazilová

prof. MUDr. Michal Anděl, CSc., Dean of the 3rd FM CU

VIDEO AND AUDIO RECORDING OF LECTURES

Since the end of May 2012 it is possible to record lectures (video and sound) in Burian and Jonas lecture hall with the programme which is installed there (on computer).

Brief and clear instructions how to use the equipment are available in each lecture hall.

• The recorded lectures can be found at: http://prednasky.lf3.cuni.cz

Tomáš Pajl, technical support

OFFER FOR ONLINE TRAINING AND PRESENTATION TO E-RESOURCES – LEXICOMP, UPTODATE, PRIMAL PICTURES

Please take advantage of online training and presentation to e-resources. Charles University has the opportunity to test Lexicomp – information system for pharmacologists, pharmacists and physicians, UpToDate – database of medical information relevant for clinical doctors in patient care and 3D anatomic atlas Primal Pictures.

For your participation in online training you need only computer with internet connection, headphones and microphone (not strictly needed).

After registration more detailed info will be sent on how be registered to your selected seminar through WebEx. The number of participants is limited so do not hesitate and if you are interested, register as soon as possible.

Online training (presentations) are free of charge, the advance registration is required. Application form for individual events can be found at the link below.

Lexicomp Online – information system for pharmacologists, pharmacists and physicians

Lexicomp Online is a key source of info for anyone who needs actual, reliable, comparable and easy accessible info on drug interaction, toxicity, IV compatibility, drug identification and active substances etc. Lexicomp is available online.
through a Web browser but also on mobile device (tablets, smartphones, iPad). You can try and use Lexicomp by the end of July 2012.

When: Monday 11. 6. 2012 from 14:00 to 14:45.

More info:

**UpToDate – database of medical info relevant for clinical physicians in patient care**

The aim of the seminar is to introduce the online knowledge information system based on evidence UpToDate and show work with this highly rated tool. You have opportunity by the end of July 2012.

When: Wednesday 13. 6. 2012 from 14:00 to 14:30

More info:

**Primal Pictures - 3D anatomic atlas**

The seminar will focused on 3D anatomic atlas of human body, specifically on database Primal Pictures - Anatomy Premier Library Package with 3D Real-time which we have trial access by the end on June.

It is multimedia resource for students, teachers, doctors, scientists, physiotherapists, speech therapists, nurses and other medical stuff. It contains several basic modules, a series of modules aimed to sports and treatment and as well as special modules. The part aimed to surgery and systemic anatomy is available. There is a database of tests, video, animation and study materials.

Some of the modules and all of the features and tools will be demonstrated during the seminars.

When: Thursday 14.6.2012 from 10:00 to 11:15

More info:

**INVITATIONS**

**Challenges and opportunities under Research and Innovation and Mobility schemes in the Fields of Pharmaceutical and Medical Biotechnologies**

**ENEAA Bruxelles, Rue de Namur 72, Bruxelles**

**20 June 2012 09:00-16:30**
ENEA in collaboration with CLORA, CNR, KOWI, UNICA (Network of Universities from the Capitals of Europe) and the Santander Group of European Universities network is organizing a one-day information and networking event for researchers to get acquainted with future funding opportunities in the specific sector as well as to explore research needs in the area of pharmaceutical and medical biotechnologies. Moreover there will be time to debate and share experiences and foster cooperation with other institutions. The event will not only cover related forthcoming calls of FP7 but also future related initiatives in Horizon 2020 and other international funding programmes. The aim is to facilitate and get researchers familiar with the various financial opportunities available at European and International level and help them to identify the most appropriate funding instruments where they could apply within their research field. The meeting is divided in two sessions, with the morning dedicated to representatives from International Organizations who will be presenting forthcoming financial opportunities, best practices and running projects and infrastructures, and future R&I direction, while the afternoon session foresees the networking phase among the participants through pre-arranged working groups (WG) meetings, followed by the wrap-up from the moderators of each WG and a final speech from one of the Institutions.

AGENDA

09:00  Registration

16:30  End of meeting

INFO ABOUT ECOLOGICAL TOURS IN CHKO ČESKÝ KRAS — PART OF HEPL I.

As part of new master’s curriculum in first year of study the subject Hygiene, Epidemiology and Preventive Medicine (HEPL I) is taught. This subject provides basic info and issues in ecology, envirnment and health. Students were able to familiarize themselves with conditions for the occurrence of ticks, diseases that ticks carry and try to catch them in way „vlajkování“ (picture no.1 and 2). This full day excursion was arranged by Ústav obecné biologie a genetiky in cooperation with Ústav obecné hygieny. The existence of a quarry and cement plant near the protected area clearly demonstrated the economic superiority to ecological approach (no. 3). The excursion was terminated with a debate on ecosystems and biodiversity (no. 4) and searching of fossils near by the Koneprus caves (no. 5). The explanation was provided by Mgr. Petr Šmerák and doc. RNDr. P. Rodl.

HOW TO REDUCE TABACCO USE FOR HEALTH WORKERS

The exhibition on the occasion of the World Day witout Tobacco was held on May 31, 2012 in the foyer of 3rd FM, more than 50 works of art, proposals for non-smoking campaign whose authors were mainly students of 3rd FM and Střední zdravotnické školy in Ruská street.

The eight-member committee has a very difficult job to choos the best creative work. The winner is a student of 2nd year of General Medicine Eva Dunglová with a poster „Smoking is not sexy“ which won the maximum of points. However, the second and third place had to share not only two but three autors from 3rd FM: Barbora Jeřichová, Jan Pávek and Magdaléna Kaňková whose works received from jury the same number of points. All committee member agreed that more students could be awarded. I have to emphasize the collection of four pictures of Barbora Horehledová (4th place) or poetic talent of Petr Vokurka, whose poet „The last cigarette“ was performed.

The opening of the exhibition was attended by distinguished guests especially Dean of Faculty prof. Michal Anděl, prof. Milena Černá, asoc.prof. Romana Šlamberová, asoc. prof. Hana Provazníková and more. We thank again to all participants and please note that the exhibition takes place till Thursday, June 7, 2012.

DEAN’S ORDERS

DEAN’S ORDER No. 19/2012

On registration into study for Academic Year 2012/2013

1) The registration for the Academic Year 2012/2013 will be held from September 10th to 21st 2012 from 8:00 to 13:00 at the Study Division (Building No. 19). For individual registration it is possible to use Jonas lecture hall during these days.

2) The registration is compulsory for all students even for those that are travelling abroad as part of exchange programmes such as Sokrates-Erasmus and equally for those that are taking a two years extension limit for completing the state final or state rigorous exam.

3) The registration is valid for all study programmes (Bachelor, Master), meaning those studying in English language, full-time is stated as fellows:

   - 6th study year: September 10th or 17th 2012
   - 5th study year: September 11th or 18th 2012
   - 4th study year: September 12th or 19th 2012
   - 3rd study year: September 13th or 20th 2012
   - 2nd study year: September 14th or 21st 2012

The distribution according study years is only approximate – you can come in time belonging to another study year – even given the data which are reserved for writing credits for practise (point 5).

4) The proof of higher education studies (further as „index”) must contain all the completed study requirements stated in the study plan and that including practical experience, optional subjects and Bachelor theses.
Prior to submission of the index, the student is required to check if the information in Student informative system (further as „SIS”) agrees with his information in the index and print out his study requirements that he must submit for registration at Study Division.
If some study requirements missing in SIS, please contact the teacher. He/she is responsible for writing the completed subject into SIS.

5) Credits for practical experience will be given as follows:
   - Mgr. Holubová (for 2nd year): Sept. 13th and 20th 2012 from 8:00 to 13:00
     at the department of Nursing, pavilion X – room no. 415
   - dr. Rambousková (for 4th year): Sept. 11th and 18th 2012 from 8:00 to 13:00
     at dean’s office, 6th floor, room no. 622
   - doc. Kneidlová (for 5th year): Sept. 10th and 17th 2012 from 8:00 to 13:00
     Dept. of occupation and travel Health (FNKV, pav. I, groundfloor)
     on other days upon personal agreement
     by e-mail: kneidlova@fnkv.cz, nebo tel.: 267 162 679
   - dr. Bendová (for 5th study): Sept. 10th and 17th 2012 from 8:00 to 13:00
     at Dept. of Gynaecology and Obstetrics, secretariat

6) Study requirements stated by the study plan must be completed in accordance to the schedule for ac.y 2011/2012 by Sept. 30th, 2012 (Karolinka Stdy Guide – page 65).

7) The student have to bring an index, printed copy of study requirements from the SIS and CU Study card.

This order:
- Is effective upon issue: 18. 6. 2012
- Is valid until: 31. 10. 2012
- Obeyes all internal regulations
- Was compiled by Study Division – L. Zamrazilová
DEAN’S ORDER No. 20/2012
On dates of the State examinations in the Academic Year 2011/2012

MASTER’S STUDY PROGRAM: GENERAL MEDICINE
Part of the State rigorous examination in Gynaecology and Obstetrics
Place: Office of the Head of the Gynaecology and Obstetrics Clinic
Date: 29. 6. 2012

Max. number of students per day: 10

This order:
- effective upon issue: 18. 6. 2012
- is valid until: 7. 9. 2012
- obeys all internal regulation
- was compiled by the Study Division – L. Zamrazilová

THE NEWLY APPOINTED PROFESSOR

President of the Czech Republic on the recommendation of the Scientific Board of Charles University in Prague according to § 73 Act No. 111/1998 Coll. on Higher Education appointed with effect from 20.6.2012 professor:

- doc. RNDr. Ilona Hromadníková Ph.D. – for the field of medical immunology, Departement of Gynecology and Obstetrics, Departement of Molecular cell Biology and Pathology.

Jaromír Chlapec
Head of Division of Personnel and Wages

INVITATION TO EIIC 2012

We cordially invite you to participate in the 1st Electronic International Interdisciplinary Conference (EIIC 2012) from September 3. - 7. September 2012. This series of conferences aims at giving researchers the opportunity to present their research results. All contributions are reviewed by scientific committee. The conference fee is 75 dollars.

The topics of the conference include:
- Business Management, Marketing, Economy and Business Economics, Financing and Accounting
- Public service, Law
- Psychology, Sociology and Pedagogy, Art, Religion
- Ecology, Natural science (mathematics, chemistry, biology, physics)
- Electronics, Electrical Systems, Electrical Engineering, Industrial and Civil Engineering, Informatics, Information Technology

Important Dates
- Registration and Paper submission deadline July, 31, 2012
- Notification of acceptance August, 15, 2012
- Camera ready submission August, 31, 2012
- Registration fee payment deadline August, 31, 2012

**DEAN’S ORDER**

**DEAN’S ORDER No. 22/2012**

On dates of the State examinations in the Academic Year 2011/2012

**MASTER’S STUDY PROGRAM: GENERAL MEDICINE**

Part of the State rigorous examination in Surgical Fields

Place: Department of Surgery FNKV

Date:

Max. number of students per day: 10

**DEAN’S ORDER No. 23/2012**

On dates of the State examinations in the Academic Year 2011/2012

**MASTER’S STUDY PROGRAM: GENERAL MEDICINE**

Part of the State rigorous examination in Gynaecology and Obstetrics

Place: Office of the Head of the Gynaecology and Obstetrics Clinic

Date:

Max. number of students per day: 10

Part of the State rigorous examination in Paediatrics

Place: Office of the Head of the Children and Youth Clinic

Date:

Max. number of students per day: 10

prof. MUDr. Michal Anděl, CSc.,

Dean of Third Faculty of Medicine

**NEWLY APPOINTED PROFESSOR**

The president of the Slovak Republic pursuant to article 102, paragraph 1, point h) Constitution of the Slovak Republic appointed with effect from 10 July 2012 the Professor

- **Prof. MD. Jozef Rosina, Ph.D.** – in the field of biological engineering, Department of Medical Biophysics and Medical Informatics

Jaromír Chlapec

Head of Division of Personnel and Wages
PRAISE

INVITATION

STÁRNUTÍ 2012
studentská vědecká konference
Praha 26.-27. 10. 2012

Hlavní okruhy konference
Lékařské vědy
Biologie
Psychologie, sociální vědy
Teologie a filozofie
Technika
Ekonomie, právo
Sport, umění

MEZIOBOROVÁ STUDENTSKÁ VĚDECKÁ KONFERENCE

Stárnutím prochází každý jedinec, rodina, obce i celá společnost. Stárnutí má své pozitivní i obtížné stránky, nese se sebou nespočet nových výzv. Na některé z nich se snaží najít optimální řešení odborníci z nejvýznamnějších oborů.

Konference STÁRNUTÍ 2012 je určena pro výměnu poznatků převážně postgraduálních studentů, kteří se odtázky spojenými s prodloužením lidského života a stárnutím společnosti zabyvají.

Cíle:
- získat co nejširší přehled o činnosti českých i slovenských vědců v této problematice;
- navázání kontaktů a spolupráce, možnost budování mezioborových týmů;
- dosáhování výšší konkurenceschopnosti při výzkumné činnosti;
- registrace sborníku přispěvků do databáze Thomson a Reuters.

Prof. MUDr. Cyril Höschl, DrSc. FRCPsych
Čestný předseda organizačního výboru

Prof. Hana Štěpánková

Místo konání
Sylabova posluchárna
3. lékařská fakulta
Univerzita Karlova v Praze
Ruská 87, Praha 10

Konference je určena nejen studentům, ale i vědeckým a jiným odborným pracovníkům se zájmem o téma související s problematikou stárnutí.

• is valid until : 29. 11. 2012
• obeys all internal regulation
• was compiled by the Study Division – L. Zamrazilová

prof. MUDr. Michal Anděl, CSc
Dean of Third Faculty of Medicine

CHANGE IN LEADERSHIP OF THE INSTITUTE

Based on the outcome of the selection procedure with official effect from 1 November 2012 prof. MUDr. Jan Bultas, CSc. was appointed head of the Institute of Pharmacology.

Jaromír Chlapec
Head of personnel and payroll department

CSI INFORMATION

Till 20/12 2012 The 3rd FM CU has got the possibility to test the database of Elsevier publishing „Clinical Key“. It is a database that contains the full texts and information from journal articles, books, guidelines, information from clinical studies, pictures and information for patients from the fields of clinical medicine (endocrinology, metabolism, diabetes, gastroenterology, internal medicine, neurology, gynecology and obstetrics, orthopedics, pediatry, psychiatry and others). Searching the database is possible without the need to log into the database by your personal password (the system identifies you by IP address). The access to the full text and the detailed information is allowed to the user only after creating own profile and logging into the database.

Direct and remote access can be found at PEZ (E-resources Portal UK) at: http://bi.cuni.cz/prehled/zdroj.php?lang=cs&id=626&freetrials=1

Miroslava Plecitá, CSI
SCHOLARSHIP

Studieren und forsch en an Universitäten und Hochschulen in Bayern.

JAHRESSTIPENDIUM POSTGRADUIERTENSTUDIUM IN BAYERN

13-14

Fundiertes Spezialwissen, die Fähigkeit zu interdisziplinärem Arbeiten und internationale Erfahrung sind wesentliche Anforderungen, die an Akademiker/innen in Europa heute gestellt werden.

Ein Postgraduiertenstudium im Ausland kann die im Erst studium erworbenen Qualifikationen ergänzen und vertiefen sowie einen wichtigen Beitrag zur persönlichen Weiterentwicklung leisten. Auf dieser Basis können Sie den Herausforderungen in Praxis, wissenschaftlicher Forschung und Lehre besser begegnen.

Der Bayerische Staatsminister für Wissenschaft, Forschung und Kunst vergibt für das Studienjahr 2013/14 erneut Jahresstipendien für Hochschulabsolventen aus Bulgarien, Kroatien, Polen, Rumänien, Serbien, der Slowakei, Tschechien, der Ukraine und Ungarn, die sich für ein Postgraduiertenstudium in Bayern entschieden haben.

Gefördert werden Aufbaustudien, Forschungsaufenthalte und Promotionen an staatlichen Hochschulen in Bayern. Wichtig ist, dass Sie uns in Ihrer Bewerbung deutlich machen, dass Ihr Postgraduiertenstudium in sinnvoller Weise an Ihr erstes Studium anschließt und Sie Ihrem beruflichen Ziel näher bringt.

Wir freuen uns auf Ihre Bewerbung!

Nähere Informationen zum Bewerbungsverfahren finden Sie unter www.bayhost.de in der Rubrik „Stipendien“.

GRADUATE PROGRAM

The ENP is a research training network created in 2007 by the French Ministry of Research and Higher Education. It is made up of more than 100 high-profile Neuroscience research teams in the Paris region and covers all fields of neuroscience including cognitive neuroscience. The executive bodies of ENP include a Director, a Steering Committee and a General Secretary. They are advised by an international Scientific Advisory Board, and under the administrative and financial control of a Board of Trustees.

The ENP Graduate Program offers students a unique opportunity to develop their scientific project in Neuroscience, in collaboration with the ENP faculty, including the Graduate Program directors and all ENP team leaders, and with the help of the ENP staff, including the Secretary General and Graduate Program Manager.

Applications to the ENP Graduate Program 2013 will open on November 1st, 2012 and will close on January 14th, 2013. Only online application will be considered (www.paris-neuroscience.fr/).

The program, which is open to outstanding international students, primarily trained abroad, lasts four years and leads to a PhD in Neuroscience. French or foreign students who obtained their last University degree in France are not eligible.

Working language throughout is English. For those interested, French courses are proposed at the beginning of the academic year.

Working language throughout is English. For those interested, French courses are proposed at the beginning of the academic year.
The first year is funded directly by an ENP fellowship. Additional financial support may also be provided by ENP for specific needs linked to settling in Paris. The following three years are financed by the ENP and other funds. This is specified in the yearly call to which students apply. The origin of funds may evolve from year to year, depending on the Graduate Program partner institutions, but funding is guaranteed for 3 years once a student is admitted into Years 2-4.

The ENP provides administrative support for settling in Paris (visa, housing, social security, medical and other insurances, university registration).

**Universities issuing doctoral degrees within the ENP Graduate Program:** Université Paris Descartes, Université Paris Diderot, Université Paris-Sud-11, Université Pierre et Marie Curie.

---

**OUTING**

Cabinet of History of Medicine of 3rd Faculty of Medicine CU will hold an outing to the GRAVE OF HERMANN SCHLOFFER on one of the closest Saturdays at 2 PM. Those who are interested please communicate their wishes to select a suitable day to: pavel.cech@lf3.cuni.cz.

P. Č., KDL 3rd FM CU

---

**CONCERT**

Vita Nostra servis - Informational weekly magazine of Charles University in Prague – 3rd Faculty of Medicine. Designated for the Academic Community. In-house publishing. Edited by the 3. FM, Ruská 87, Prague 10. 40 copies. Freely distributed. The full text edition is posted on the web pages of the 3. FM. The deadline is every Thursday, and is published Monday.
EXTENSION OF BICYCLES PARKING

Dear Students and Faculty Staff,
The capacity of space for bicycles was expanded in October in front of the dean’s office. The additional parking for bicycles was opened on the west side of the building with a capacity of 16 bikes on December 3rd, 2012.

Operating Instructions:
- the gateway will be open from Mo-Sat from 6:00 am to 8:00 pm
- on Sun and holidays, please contact the worker of the Safety service

Ing. Jana Mužíková
Secretary of the Faculty

UPTODate access at the 3RD FM CU by the end 2013

UpToDate is the premier information resource for the medical practice based on evidence (Evidence-Based Medicine). You have the opportunity to muse it by the end of year 2013.

Mirka Plecitá, CSI

On December 12, at 12:30 GMT we are holding a webinar in the UK titled: Can clinical decision support technology help hospitals deliver their QIPP goals? While the focus of the webinar is the UK, the principles are applicable to any country where lowering the cost of care and improving efficiency is a concern. Because of this Nick and Stefan asked that we include you in the invitation. If you are not available to attend a recording will be available afterwards.

QIPP stands for Quality, Innovation, Productivity and Prevention. It is a “large scale transformational programme for the NHS, involving all NHS staff, clinicians, patients and the voluntary sector. It will improve the quality of care the NHS delivers while making up to £20 billion of efficiency savings by 2014-15, which will be reinvested in frontline care.”

The webinar will be hosted by the respected UK publication Health Service Journal (HSJ), a publication and website for hospital management.

Our speakers are:
- Dr Rhidian Bramley, Chief Clinical Information Officer and Director of Radiology, The Christie NHS Foundation Trust
- John Addison, library manager of Pennine Acute Hospital Trust and co-author of the North West study
- Dr Denise Basow

You can register to attend the webinar on the HSJ website - http://www.hsj.co.uk/hsj-tv?commid=60781
We are pleased to announce that with your current subscription patrons at your institution using the Thieme E-Book Library may now download books to their iPad. Using the free iPublishCentral Reader app available in the iTunes store users can download and read all titles available within the Thieme E-Book Library. New titles will be available for download upon their release.

**The Thieme E-Book Library – Now available for iPad**

The app provides convenient access to our portfolio, while preserving the original design and layout of our printed titles enabling users to zoom in on superb, high-resolution reproductions of artwork for close study of details. Users also have the ability to bookmark their favorite pages for future reference and add notes.

**How to download books:**
- From within the university wireless network launch your iPad web browser and navigate to [http://ebooks.thieme.com/bookshelf](http://ebooks.thieme.com/bookshelf).
- Browse the list of all available titles and select download next to the title you wish to download. You will then be directed to the download page.
- On the download page, click on the download icon. The iPublishCentral Reader app will then open and the file will be downloaded to your bookshelf.

**How to read downloaded titles:**
- Open the iPublishCentral Reader app on your iPad.
- Select a downloaded book to access it.

**Additional Features:**
- If you tap the top bar, a menu of icons will appear. On the left hand side you have a back button and Table of Contents. On the right hand side icons for settings, search, notes and bookmarks are presented.
- You can change the settings to enable single or double page view as default. Double page view will only work in a landscape/horizontally orientated iPad.
- Note that notes and bookmarks that are contained in the user’s pc account are not linked or transferred to the iPad app (the app does not allow or require the user to log in).

Best regards,

Alexandra Williams
Account Manager Thieme Institutional Sales
